WHEREAS, the City has experienced a significant loss of industry and jobs in recent years, accompanied by a corresponding erosion of its tax base, due in part to industrial firms' inability to acquire additional property needed for their continued viability and growth; and

WHEREAS, many industrial firms adjoin streets and alleys that are no longer required for public use and might more productively be used for plant expansion and modernization, employee parking, improved security, truck loading areas or other industrial uses; and

WHEREAS, the City can strengthen established industrial areas and expand the city's jobs base by encouraging the growth and modernization of existing industrial facilities through the vacation of public streets and alleys for reduced compensation; and

WHEREAS, the properties at 3246-3266 E. 118th Street, 11630-11658 S. Buffalo Avenue, 11631-11659 S. Buffalo Avenue, 11701-11759 S. Buffalo Avenue, 11710-11718 S. Buffalo Avenue, 11722-11746 S. WHEREAS, the properties at 11700-11708 S. Buffalo Avenue and 11701-11703 S. Burley Avenue are owned by the City of Chicago which, through its Department of Planning and Development, has lent support to the Developer; and

WHEREAS, the Developer proposes to use the portion of the street and alleys to be vacated herein for the construction of an approximately 299,057 square foot building and appurtenances, as part of a multiphase, multibuilding industrial park development in the vicinity; and

WHEREAS, the building will be leased or sold to a large scale industrial tenant that will determine the workforce, but whose construction and ultimate use will result in an estimated 90 permanent and up to 150 construction jobs (as part of the overall development that will result in an estimated 1300 permanent and up to 760 construction jobs); and

WHEREAS, The City Council of the City of Chicago, after due investigation and consideration, has determined that the nature and extent of public use and the public interest to be subserved is such as to warrant the vacation of part of public street and alleys described in the following ordinance; now, therefore,

3937 Water Atlas Page 707 Sewer Atlas Page 37-2-11

Dear Mr. Kalayil:

This letter is in response to your inquiry dated March 18, 2020 concerning the proposed vacation.

I) The Department of Water Management (DWM) - Water Section

There is one 6-inch water main within S. Buffalo Avenue between E. 117th Street and E. 118th Street that was installed in 1904 and includes one fire hydrant and two 6-inch valves. There are also several small-diameter water services that are no longer in use. This water main, appurtenances and water services must be abandoned at the owner's expense for the vacation to be approved by the Water Section, subject to the following conditions:

- a. The scope of the DWM's involvement for the water main abandonment work is limited to pipework only.
- b. NorthPoint Development will be responsible for obtaining all applicable permits, tracing equipment, excavation/OSHA shoring, backfilling/compaction, traffic control, abandonment of appurtenances (valve box/valve basin, fire hydrants) and all restoration to CDOT's standards
- c. The estimated cost for the DWM to abandon the existing water main is \$31,500.00. This estimate is based on current rates for labor, materials, equipment and overhead charges, but actual costs will be billed to the owner upon DWM's completion of the work.
- d. All water services no longer in use must be permanently terminated as part of the proposed development by permit per DWM Standards.

OUC File No. VD-1025 12 June 25, 2020 Page 2 of 2

- e. Because the existing water main cannot be located within private property (vacated S. Buffalo Avenue), this work must be done before the vacation can be approved.
- f. This letter is only in regard to the vacation described above. Final plans for the proposed development must be submitted to the DWM for review and approval prior to construction
- g. Additionally, a leakage survey is required as per the details in the attached letter. The lump sum cost to perform these leakage surveys is \$6,000.00.
- h. Detailed instructions for payment of the estimated construction cost of \$31,500.00 and lump sum of \$6,000.00 (total of \$37,500.00) is attached in a letter dated June 9, 2020
- i. See also the attached letter for additional requirements regarding the development.

For questions regarding water facilities, please contact Andrew McFarland at andrew.mcfarland@cityofchicago.org <<mailto:andrew.mcfarland@cityofchicago.org>>.

The Department of Water Management (DWM) - Sewer Section

Based on sewer records, the following sewer facilities are located within the limits of the proposed vacation:

- a. One (1) 12-15-inch public main sewer on S. Buffalo Avenue between E. 117th Street and E. 113th Street;
- b. One (1) 15-inch public main sewer on S. Buffalo Avenue from E. 117th Street to 259-feet north of the north

line (NNL) of E. 117th Street.

The Sewer Section has no objection to the proposed vacation provided both public sewer as listed above, must be abandoned at the Developer's sole costs and expense, in accordance with the standard procedures of the Department of Water Management, Sewer Section. The abandonment plans must be reviewed, approved and permitted by the Department of Water Management, Sewer Design Section prior to work.

If there are any questions regarding the sewer facilities, contact Sid Osakada at Sid.Osakada@CityofChicago.org <mailto:Sid.Osakada@CityofChicago.org> or Anupam Verma at Anupam.Venna@CityofChicago.org <mailto:Anupam.Venna@CityofChicago.org>.

Very truly yours,

**SUBJECT: Proposed Dynamic Compaction and Street Vacations Avenue O -
Building A BES Project No. 17-10:241.03 OUC File No. EFP-102758
CDOT File No. 19-10-20-3937**

Mr. Sheehan:

This correspondence is in response to a memorandum dated March 18, 2020, notifying the DWM of various intergovernmental vacations at the subject location, including S Buffalo Avenue, as well as in response to Office of Underground Coordination transmittal dated March 30, 2020, and accompanying Dynamic Compaction Plans for the subject project. Please note that the vacation of E 117th Street is not being considered at this time. All proposed utility plans must be submitted for DWM review and approval prior to construction within the right-of-way. The DWM has not approved any utility work submitted under OUC file number EFP-102551.

The Department of Water Management - Water Section

In order to accommodate the proposed street vacation and dynamic compaction, this Department must abandon the existing 6-inch water main in S Buffalo Avenue from E 117^m Street to E 118th Street. The scope of the DWM's involvement for the water main abandonment work is limited to pipework only. NorthPoint Development will be responsible for obtaining all applicable permits, tracing equipment, excavation/OSHA shoring, backfilling/compaction, traffic control, abandonment of appurtenances (valve box/valve basin, fire hydrants) and all restoration to CDOT's standards. The estimated cost for the DWM to perform this work is \$31,500.00, based on regular time. This estimate is based on current rates for labor, pipe, fittings, equipment and overhead charges, but actual costs will be submitted for payment upon completion of the work.

It is the site owner's responsibility to terminate all existing services entering the site prior to construction. Notify the DWM immediately of any services entering the site not listed within DWM's records.

NorthPoint Development June 9, 2020

In order to accommodate the proposed dynamic compaction, this Department must conduct a leakage survey on the following water mains, before and after construction to ensure that the water mains are not damaged during the proposed soil stabilization:

- 12-inch water main located 10 feet NSL of E 118th Street
- 12-inch water main located 40 feet EWL of S Avenue O
- 24-inch feeder main located 14 feet EWL of S Burley Avenue (Vacated)
- e 12-inch water main located from 3 to 8 feet EWL of S Burley Avenue (Vacated)
- 24-inch feeder main located 7 feet SNL of E 117th Street
- 12-inch water main located from 2 feet NSL to 12 feet SNL of E 117th Street

The lump sum cost to perform these leakage surveys is \$6,000.00. After receipt of the deposit, the DWM shall conduct the pre-construction leakage survey prior to construction.

NorthPoint Development must locate and mark the existing fire hydrants and valves on S Burley Avenue, S Avenue O, E 117th Street, and E118th Street, prior to the pre-construction leakage survey. Fire hydrants must be visible and accessible at all times.

Should any construction activities commence prior to the pre-construction leakage surveys being completed, NorthPoint Development shall be responsible for any leaks detected on the water mains adjacent to the construction limits. Please contact the Force Account Construction Manager at FACM@ctrwater.net <<mailto:FACM@ctrwater.net>> within four weeks of completing construction such that the post-construction leakage survey can be scheduled. If any damage occurs to the water facilities within the pre-construction and post-construction leakage survey limits, NorthPoint Development will be held responsible for the cost of repairing or replacing the water mains as necessary. Failure to notify this Department in a timely manner may result in additional liability and cost NorthPoint Development.

A certified check in the amount of \$37,500.00 (\$31,500.00 + \$6,000.00) made payable to the City of Chicago, must be hand delivered to the Department of Buildings, Plumbing Permit and Plan Section, 121 North LaSalle Street, Room 906, Chicago, Illinois, 60602, with a copy of this letter.

This Department maintains several existing fire hydrants in S Burley Avenue, S Avenue O, E 117th Street, and E118th Street. All new curb installation adjacent to fire hydrants must be painted 'safety yellow' for 15 feet on each side of the fire hydrant except where the 15 foot dimension intersects a crosswalk, driveway or similar feature. In no case shall the installation of any proposed facility be closer than five (5) feet from a fire hydrant or fire hydrant lead.

This Department's utility separation requirements are as follows: The minimum vertical clearance (edge-to-edge) from all water mains is 18 inches. For feeder mains (water mains 16 inches and larger), the minimum horizontal clearance (edge-to-edge) is five (5) feet, and for grid mains (water mains less than 16 inches), the minimum horizontal clearance (edge-to-edge) is three (3) feet. No proposed above ground facility (tree, planter box, light pole, etc.) can be closer than five (5) feet (edge-to-edge) from a water main or closer than three (3) feet (edge-to-edge) from a water service. Should the DWM require access to its facilities, it will not be responsible for the costs to remove or support any above ground structures adjacent to its facilities.

Page 3

NorthPoint Development June 9, 2020

Extreme caution is to be taken to ensure that no facility owned and maintained by this Department is damaged during construction. If damage occurs to any facilities, NorthPoint Development will be held responsible for the cost of repairing or replacing the facilities.

Please note that the details described above are valid for 90 days from the date of this letter, after which time, NorthPoint Development will be responsible for re-submitting plans to this Department for review and revision of the estimate of cost, as needed. Failure to comply with the provisions in this correspondence may result in additional expenses to the proposed project to verify that all work conforms to DWM's standards.

If there are any questions regarding the water facilities, please contact Angela Krueger at Angela.Krueger@CityofChicago.org <mailto:Angela.Krueger@CityofChicago.org>.
