Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the foregoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

17. The Applicant acknowledges and agrees that the rezoning of the Property from a C1-3 Neighborhood Commercial District to this Planned Development ("PD") No. \_\_\_\_\_ is an "entitlement" that triggers the requirements of Section 2-44-085 of the Municipal Code of Chicago (the "ARO"). The PD is located in a "community preservation area" within the meaning of the ARO and permits the construction of 82 dwelling units. The Applicant intends to redevelop the PD into 82 total dwelling units (50 dwelling units in Phase 1 and 32 dwelling units in Phase 2), commercial space, open space, and approximately 32 parking spaces.

Developers of rental projects in community preservation areas with 30 or more units must provide between 10% and 20% of the units in the residential development as affordable units, depending on the average depth of affordability provided, as described in subsection (F)(2) of the ARO. Regardless of the applicable percentage of affordable units in the rental project, developers must construct at least 25% of the affordable units on-site and another 25% on-site or off-site (collectively, the "Required Units"), and may satisfy the balance of their affordable housing obligation through: (a) the establishment of additional on-site or off-site affordable units; (b) payment of a fee in lieu of the establishment of on-site or off-site affordable units; or (c) any combination thereof. All on-site affordable units must be accessible dwelling units, as required under subsection (W)(10) of the ARO, and developers must give preference in leasing accessible units to people with disabilities, as specified in the ARO rules. All off-site affordable units must

have at least two bedrooms and must be located in a downtown district, inclusionary housing area, or community preservation area. Whether on-site or off-site, developers must give preference in leasing affordable units of two bedrooms or more to multi-person households, as specified in the ARO rules. If a residential project is located in a transit-served location, off-site units must be located in a substantially comparable transit-served location.

The Applicant has elected the 20% option as set forth in the chart in subsection (F)(2) of the ARO. Phase 1 is approved for a total of 50 dwelling units. As a result, the Applicant's affordable housing obligation is 10 affordable units (20% of 50) (the "Phase 1 ARO Units") and 50% of those units are Required Units. The Applicant has agreed to satisfy its affordable housing obligation by providing 10 affordable units on-site in the residential buildings to be constructed in Phase 1, as set forth in the Affordable Housing Profile ("AHP") attached hereto. Phase 2 is approved for a total of 32 dwelling units. As a result, the Applicant's affordable housing obligation is 6.4 affordable units (20% of 32) (the "Phase 2 ARO Units"). Pursuant to subsection (T) of the ARO, the Applicant must either pay a fractional in lieu fee or provide an additional unit on-site or off-site to satisfy the fractional obligation. The Applicant has agreed to satisfy its affordable housing obligation by providing 7 affordable units on-site in the residential buildings to be constructed in Phase 2, as set forth in the AHP. The Applicant agrees that (i) with respect to rental projects, the affordable rental units must be affordable to households with a range of incomes averaging 60% of the Chicago Primary Metropolitan Statistical Area Median Income ("AMI"), as updated annually, provided that (x) the maximum income level for any affordable unit may not exceed 80% of the AMI, (y) at least one-third must be affordable to households at or below 50% of the AMI, of which one-sixth must be affordable to households at or below 40% of the AMI, and (z) all income levels must be multiples of 10% of the AMI; and (ii) with respect to owner-occupied projects, the affordable owner-occupied units must be affordable to households with a range of incomes averaging 100% of the AMI, as updated annually, provided the maximum income levels for any affordable unit in an owner-occupied project may not exceed 120% of the AMI. Consistent with the ARO and except as otherwise provided in this Statement 17, the ARO units may be established in phases, concurrently with and proportionate to the number of market-rate units constructed during any particular phase, such that the number of ARO units established may exceed (temporarily, and subject to reduction in later phases), but shall not be less than (even if temporarily), the percentage and number of ARO units that would be required by the ARO and this Statement 17 based on the aggregated number of market-rate units actually constructed.

If the Applicant requests any material change to its method of compliance with the ARO, such as locating affordable units off-site instead of on-site or changing the target affordability level after the passage of this PL, DOH may adjust the AFIP as requested, in accordance with the ARO, without amending the PD. provided however, the Applicant must update and resubmit the revised AHP to DOH for review and approval and, at DOH's request, provide an informational presentation to the Plan Commission on such
