Any developer of a "residential housing project" within the meaning of the ARO must: (i) set aside 10% of the housing units in the residential housing project as affordable units (Affordable Units) if the developer receives city land or zoning assistance, or 20% if the developer receives financial assistance, such as tax increment financing (TIF); (ii) pay a fee in lieu of the development of the Affordable Units; or (iii) any combination of (i) and (ii). The foregoing compliance options are referred to herein as Option (i), Option (ii), and Option (iii).

In Sub-Area A, the Applicant intends to construct a total of 381 dwelling units and has filed an application for TIF for the project. If the Applicant receives TIF funds, the Sub-Area A project will require 77 Affordable Units ($20\% \times 381 = 76.2$, rounded up = 77) under Option (i), or an in lieu fee (Cash Payment) in the amount of \$7,700,000 ($77 \times \$100,000$) under Option (ii), or a combination under Option (iii). If the Applicant does not receive TIF funds, the Sub-Area A project will require 39 Affordable Units ($10\% \times 381 = 3.81$, rounded up = 39) under Option (i), or a Cash Payment in the amount of \$3,900,000 ($39 \times \$100,000$) under Option (ii), or a combination under Option (iii). The Applicant has elected to comply with the ARO in Sub-Area A through a combination under Option (iii), as described below and in the Affordable Housing Profile Form for Sub-Area A attached hereto. First, the Applicant will provide 20 Affordable Units in Sub-Area A, regardless of whether the project receives TIF funds. If the Applicant receives TIF funds, 10 of the 20 Affordable Units will be affordable to households earning no more than 50% of the Chicago Primary Metropolitan Statistical Area Median Income (AMI) and the other 10 will be affordable to households earning no more than 60% of AMI. If the project does not receive TIF funds, all 20 Affordable Units will be affordable to households earning no more than 60% of AMI. Second, the Applicant will satisfy its remaining ARO obligation by making a Cash Payment in the amount of \$5,700,000 (77 required Affordable Units - 20 provided Affordable Units = $57 \times \$100,000$) if the Applicant receives TIF funds, or \$1,900,000 (39 required Affordable Units - 20 provided Affordable Units = $19 \times \$100,000$) if it does not.

In Sub-Area B, the Applicant intends to construct a total of 250 dwelling units without any TIF or other financial assistance from the city, and has elected to comply with the ARO by making a Cash Payment in the amount of \$2,500,000 (250 dwelling units $\times 10\% = 25$ required Affordable Units $\times \$100,000$ per unit), as set forth in the Affordable Housing Profile Form for Sub-Area B attached hereto.

At the time of each Part II review for Sub-Area A or Sub-Area B, Applicant may update and resubmit the applicable Affordable Housing Profile Form to DPD for review and approval. If the Applicant subsequently reduces or increases the number of dwelling units in either sub-area, DPD may adjust the requirements of this Statement 16 (i.e., number of required Affordable Units and/or amount of Cash Payment) accordingly without amending the Planned Development. Prior to the issuance of any building permits within Sub-Area A or Sub-Area B, including, without limitation, excavation or foundation permits, the Applicant must make the required Cash Payment. The Applicant intends to develop Sub-Area A and Sub-Area B as separate projects in phases, and the Cash Payment for each sub-area shall be calculated separately and paid at the time building permits are sought for the applicable sub-area. In the case of Sub-Area A, where the Applicant is providing Affordable Units, the Applicant must also execute and record an affordable housing agreement in accordance with Section 2-45-110(i)(2) of the Municipal Code prior to the issuance of any building permits for Sub-Area A. The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against Sub-Area A, or the applicable portions thereof, and will constitute a lien against such property. The Commissioner of

DPD may enforce remedies for any breach of this Statement 16, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

- . 17. This Planned Development shall be governed by Section 17-13-0612. of the Municipal Code. , Should this Planned Development ordinance lapse, the Commissioner of DPD shall initiate a Zoning Map Amendment to rezone the property to the B3-5 (Community Shopping District).

REPORT to the CHICAGO PLAN COMMISSION from the DEPARTMENT OF PLANNING AND DEVELOPMENT JANUARY 21, 2016

**FOR APPROVAL: PROPOSED AMENDMENT TO PLANNED DEVELOPMENT 138
(APPLICATION 17707) AND LAKE MICHIGAN AND CHICAGO LAKEFRONT
PROTECTION ORDINANCE (APPLICATION 627)**

**APPLICANTS: MONTROSE CLARENDON PARTNERS, LLC AND MISSIONARY
SISTERS OF THE SACRED HEART**

LOCATION: 4400 BLOCK OF NORTH CLARENDON AVENUE

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation regarding a proposed amendment to Planned Development 138 for your review and recommendation to the Chicago City Council. The application for this amendment to the Zoning

Ordinance was introduced into the City Council on April 10, 2013. Proper legal notice of the public hearing on this application was published in the Chicago Sun-Times on January 6, 2016; the co-applicants, Montrose Clarendon Partners, LLC and Missionary Sisters of the Sacred Heart (Applicant), were separately notified of this hearing.

The Applicant proposes to amend this planned development through the demolition of all existing structures and the construction of two new high-rise buildings and one single-story, retail structure. The resulting project will provide one building at the northwest corner of West Montrose and North Clarendon Avenues (Sub-Area A) containing a maximum of 381 residential units, 30,000 square feet of commercial space and 278 parking spaces with a maximum height of 259'. A second building will be constructed at the northwest corner of West Agatite and North Clarendon Avenues (Sub-Area B) and will contain a maximum of 250 residential units and 160 parking spaces with a maximum height of 157'. The property at the northeast corner of West Montrose and North Clarendon Avenues (Sub-Area C) will be improved with a 6,000 square foot, single-story, retail structure with 11 surface parking spaces. The Applicant is requesting that the subject property be rezoned from RM-5 (Residential Multi-Unit District) and PD 138 to B3-5 (Community Shopping District) prior to re-establishing this planned development as Planned Development 138, as amended.

This request is being submitted as a mandatory amendment to an existing planned development, pursuant to Sections 17-13-0611-A(1-3) and 17-13-0611-B, of the Chicago Municipal Code, due to the proposed change in the character of the development, the increase in the maximum permitted floor area ratio and the introduction of dwelling units. In addition, the subject site is located within the Private-Use Zone of the Lake Michigan and Chicago Lakefront Protection District; therefore, the proposed development of the site is

FINAL

also regulated by Section 16-4-100.

PROJECT BACKGROUND

Montrose Clarendon Partners, LLC, is the contract purchaser and has filed both applications with the consent of the current owners, the Missionary Sisters of the Sacred Heart, which is also a co-applicant to this application. The 4.76-acre subject site consists of two currently vacant structures that, along with an adjacent surface parking lot and passive open space, comprise the campus of the former Cuneo Hospital/Columbus Maryville Academy Shelter, all of which has been closed since 2005.

SITE AND AREA DESCRIPTION

The subject property is located within the 46th Ward, the Uptown Community Area and the Montrose/Clarendon Tax Increment Finance District. It is surrounded by property zoned RM-5 to the north; property zoned RM-5 and RM-6.5 to the south; Clarendon Park to the east (a portion of which is zoned POS-2, Parks and Open Space District, and another portion of which is zoned RM-5); and property zoned RM-5 and B3-5 to the west.

As previously mentioned, the site is located within the boundaries of the Private-Use Zone of the Lake Michigan and Chicago Lakefront Protection District; but, it is not located within the boundaries of a Chicago Landmark District nor does it contain a designated local or national landmark structure or site.

The area is served by the Chicago Transit Authority's bus routes #36 (Broadway), #78 (Montrose), #135 (Clarendon/LaSalle Express), #136 (Sheridan/LaSalle Express), #144 (Marine/Michigan Express), #145 (Wilson/Michigan Express), #146 (Inner Drive/Michigan Express), #148 (Clarendon/Michigan Express) and #151 (Sheridan) and the CTA rail station at Wilson on the Red Line; all with stops located within approximately 1/2-mile of this development.

PROJECT DESCRIPTION

The Applicant is proposing to transform this shuttered hospital campus through the demolition of all existing structures and the construction of various new buildings in order to create a new mixed-use development along Clarendon Park in Uptown.

The development proposal consists of the demolition of the existing buildings and construction of two new high-rise buildings and one single-story, retail structure. The resulting project will provide one building at the northwest corner of West Montrose and North Clarendon Avenues (Sub-Area A) containing a maximum of 381 residential units, 30,000 square feet of commercial space and 278 parking spaces with a maximum height of 259'. A second building will be constructed at the northwest corner of West Agatite and North Clarendon Avenues (Sub-Area B) and will contain a maximum of 250 residential units and 160 parking spaces with a maximum height of 157'. The property at the northeast corner of West Montrose and North Clarendon Avenues (Sub-Area C) will be improved with a 6,000 square foot, single-story, retail structure with 11 surface parking spaces.

The total project cost is \$125 million. The project is expected to generate an estimated 500

construction jobs and ultimately 65 permanent jobs, once complete. The project is anticipated to be constructed in phases, the first of which will consist of the construction of the building at the northwest corner of West Montrose Avenue and North Clarendon Avenue (Sub-Area A), containing a maximum of 381 residential units, 30,000 square feet of commercial space and 278 parking spaces with a maximum height of 259', and development of the property at the northeast corner of West Montrose and North Clarendon Avenues (Sub-Area C), with a 6,000 square foot, single-story, retail structure with 11 surface parking spaces. This first phase is positioned to break ground by July 2016, with residential occupancy, along with retail functions, beginning by July 2018. The second phase, located at the northwest corner of West Agatite and North Clarendon Avenues (Sub-Area B), will contain a maximum of 250 residential units and 160 parking spaces with a maximum height of 157' and will be constructed at a currently undetermined future date.

DESIGN

The Sub-Area A tower is planned to be architectural concrete with punched window openings and

sections of glass curtain wall. The base will be glass storefront with glass fiber reinforced concrete panels, architectural louvers, metal panels and opaque glass along the south and east facades. The tower is situated at the east end of the site, on the main corner of West Montrose Avenue and North Clarendon Avenue, where the main retail entrance will also be located; three-story townhomes are proposed along West Agatite Avenue to provide a softer, residential, exterior to the tower's base, more in line with the scale and character of development further west on Agatite. The tower's amenity deck will be found on the roof of the parking and retail structure, the walls of which are marked by cutouts which will provide a visual connection between the residents and activity on the adjacent streets and park space to the south and east.

The Sub-Area B tower is planned to be glass with masonry and glass fiber reinforced concrete panels at the base. The single-story building in Sub-Area C is planned to be a one-story glass and metal panel building.

LANDSCAPING

The perimeter of project, including some portions along public alleys, will include both shrubbery and street tree plantings. The entirety of Planned Development 138, as amended, will meet the requirements of the Chicago Landscape Ordinance. More specifically, each of the towers is proposed to include recessed vehicular courtyards accessed directly from West Agatite Avenue. Both courtyards will provide a landscape island for pedestrian relief while crossing the ingress and egress driveways. A pocket park will also be located at the southwest corner of Sub Area A, along the alley at the southwestern boundary of this planned development. Finally, while an end user has not been identified for Sub Area C, the site plan provides for both an active and landscaped patio area adjacent to the Clarendon Park tennis courts.

ACCESS/CIRCULATION

Drop-off courtyards are proposed for each of the new towers, both directly aligned with each other and accessed off of West Agatite Avenue. The Sub-Area A tower includes a parking garage with a maximum of 278 spaces, along with both retail and residential

loading areas, all accessed via two adjacent curb cuts located mid-block on North Clarendon, between West Agatite and West Montrose Avenues. The Sub-Area B tower includes a 160-space parking garage; vehicular access to such, along with to this building's associated residential loading areas, will be made available from the adjacent public alley. To help accommodate the residential, guest and retail vehicular circulation patterns proposed in this plan, while minimizing the impact on the lower density, residential character of West Agatite Avenue, the Department of Transportation has approved two-way traffic on both West Sunnyside and West Agatite Avenues, between North Clarendon Avenue and the alley immediately to the west of Sub-Area B. Parking and loading for the proposed Sub-Area C single-story retail building will be provided in a surface lot which will be accessed directly off of North Clarendon Avenue, across from the dual driveways serving the Sub-Area A tower.

Individuals traveling on foot, bicycle or via some other non-vehicular means, or from any number of the nearby public transportation options, will be able to access all portions of the development from all adjacent public rights-of-way from any direction. Bicycle stalls (173) will be provided throughout the project, including within the parking structures and in proximity to the retail uses in the project, all located off of the adjacent public rights-of-way.

SUSTAINABILITY

Through the provision of green roofs, currently designed to cover 100% of the net roof area, and the attainment of Leadership in Energy and Environmental Design (LEED) certification for all three proposed buildings, the project will exceed the guidelines of the Sustainable Policy of the Department of Planning and Development.

BULK/USE/DENSITY

The proposed maximum Floor Area Ratio for Planned Development 138, as amended, is 5.0. However, within PD 138 are three sub areas, with FAR ranges as follows:

- Sub Area A - 4.42 FAR
- Sub Area B - 6.87 FAR
- Sub Area C - 0.42 FAR

The project will include a total of 631 residential units, which, based on the Minimum Lot Area requirements found in Section 17-3-0402 and the provision of a maximum of 37% of the units as efficiencies, is 15% below the maximum number of units allowable on-site.

The maximum allowable height to the top of highest floor containing occupied units within Sub-Area A is 259', within Sub-Area B is 157' and within Sub-Area C is 20'; the Sub-Area A and B respective elevator shaft overruns will have a maximum height of 267' and 167'. All height maximums are in accordance with the stipulations of Section 17-3-0408-A, as it pertains to buildings with 100' or more of lot frontage and ground floor commercial space within a B3-5 zoning district.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials

submitted by the Applicant and compared this proposal for redevelopment of these underutilized parcels to the requirements of the Chicago Municipal Code and existing development in the community. The area around this project is a diverse mix of institutional, open space, residential and retail developments and is in very close proximity to Clarendon Park, Lake Michigan, Lake Shore Drive and Montrose Harbor. Based on the entirety of the department's analysis, DPD has concluded that this proposal is appropriate for this site, and supports this development, for the following reasons:

- 1) Public review of this proposal (per Section 17-8-0101) was afforded at the December 13,

- 2012; November 25, 2013; January 6, 2014; and, November 30, 2015 community meetings hosted by the 46th Ward Alderman and Montrose Clarendon Partners, LLC;
- 2) Unified planning and development for the entire project area (per 17-8-0102) helped produce a final proposal that focuses on movements through, and activity internal to, the site, as well as, that which occurs in the surrounding neighborhood;
 - 3) Promotion of economically beneficial development patterns that are compatible with the character of existing neighborhoods (per 17-8-0103), as evidenced by the proposed uses being akin to the character of the immediate community;
 - 4) Provides a level of amenities appropriate to the nature and scale of the project (per 17-8-0104) with the residential and commercial parking and recreational provisions designed to serve the project's residents and guests while also allowing public access to portions of the site's open space all while being in accordance with the stipulations of the Chicago Zoning Ordinance;
 - 5) Through a flexible application of selected bulk, use and development standards a creative, urban design (per 17-8-0105) has been provided in the various heights, elevation details and building variety;
 - 6) Promotes transit, pedestrian and bicycle use (per 17-8-0904-A-2), ensures accessibility for persons with disabilities (per 17-8-0904-A-3) and minimizes conflict with existing traffic patterns in the vicinity (per 17-8-0904-A-4), as evidenced through its proximity to public transit, the accommodations made for bicycle parking, the site's level of pedestrian accessibility and adherence to stipulations of the Americans with Disabilities Act and the provisions made for internal loading, truck stacking and parking access;
 - 7) Properly screens associated parking (per 17-8-0904-C-2) in shared facilities (per 17-8-0904-C-3), as evidenced through the proposed parking being partially screened with retail and residential units and designed to accommodate all uses in the planned development;
 - 8) Provides safe and attractive walkways and pedestrian routes (per 17-8-0905-A-1) with active street-level spaces and avoids blank walls within proposed buildings to engage pedestrian interest (per 17-8-0905-A-2 and 17-8-0905-A-3) and emphasizes building entries through architecture and design (per 17-8-0905-A-4), as evidenced by the perimeter sidewalks and internal pathways that connect the proposal with the surrounding network of sidewalks and pathways, the visibility of the retail space and residential lobby areas from the adjacent public rights-of-way and the distinct rooflines, entryways, lobbies and drop-off areas;
 - 9) Provides doors, windows and active street-level uses adjacent to public rights-of-way (per 17-8-0905-B-1), locates primary pedestrian entries at sidewalk level (per

17-8-0905-B-2) and avoids large expanses of blank walls by partially screening the parking garage (per 17-8-0905-B-3), particularly in areas expected to receive large amounts of pedestrian activity (per 17-8-0905-B-4), as evidenced by the significant presence of glass and residential entry-points in the facade of all sides of the base, particularly along portions of the site that are directly adjacent to the sidewalks which are expected to receive the highest amount of pedestrian activity, construction to the edge of the site's property lines, the provision of access to all elements of the buildings through their respective drop-off courtyards and from

other adjacent sidewalks and other development details described in the answers to questions 7 and 8 above;

- 10) Creates gradual transitions in bulk and scale (per 17-8-0906-A-2), as evidenced through the placement of the tallest (259') tower near other similar structures near the intersection of West Montrose and North Clarendon Avenues, while locating the shorter (157') tower near less vertically imposing structures further north on Clarendon Avenue and keeping the parcel adjacent to Clarendon Park at a maximum of 30', which is comparable to the existing Clarendon Park Fieldhouse located just to the north and within the park;
- 11) Places buildings on the corner(s), close to both street frontages and locates parking areas and driveways away from said corner(s) (per 17-8-0906-B-4), as evidenced by the base and tower locations at-grade and associated vehicular access points found away from primary pedestrian entry points;
- 12) Service areas should be located away from the street and away from residential buildings and entrances (per 17-8-0906-D), as evidenced by the location of such uses internal to each tower and, in Sub Area C, a screened area of the parking lot;
- 13) Architectural design should articulate and enhance buildings, especially those located at intersections, due to their prominence and visibility (per 17-8-0907-A-3) and all sides and areas of the buildings that are visible to the public should be treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing facade (per 17-8-0907-A-4), as evidenced by the relationship of the tower and its base to the nearby intersection of West Montrose and North Clarendon Avenues and through the material callouts in this report and on the accompanying elevations;
- 14) Promotes environmentally sustainable development practices (per 17-8-0908-A), as evidenced through the presence of a green roof covering 100% of the roof net site area and the achievement of Leadership in Energy and Environmental Design (LEED) Certification, exceeding the guidelines of the Sustainable Policy of the Department of Planning and Development; and,
- 15) Provides inviting and usable open space (per 17-8-0909-A-1) that maximizes exposure to sunlight (per 17-8-0909-B-1) and includes numerous on-site amenities (per 17-8-0909-C) for residents, guests and the general public (per 17-8-0910), as evidenced by both the recreational and other activity areas (indoor and outdoor) being established on the fourth level of the building at the intersection of West Montrose and North Clarendon Avenues for residents of this development and their guests and, separately, through the pocket park that will be located at the southwest corner of Sub Area A, along the alley at the southwestern boundary of this planned development.

The project meets the purpose and criteria set forth in the Chicago Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare, specifically:

- 1) Per 17-13-0308-A, the site lies within the boundaries of the Montrose Clarendon Tax Increment Financing Redevelopment Area, which was approved by the Chicago City Council on February 26, 2010. The corresponding Land Use Plan contemplated redevelopment of this site in a mixed-use manner, including multi-family residential, retail

and commercial development. This proposal will achieve that goal and further the objectives of the TIF Plan by improving the physical and economic conditions of this area, as well as, providing the City and its citizens with increased activity, new job opportunities and an expanded tax base.

- 2) Per 17-13-0308-B, this amendment is compatible with other commercial and residential developments, as well as, the zoning districts in the immediate areas around this subject.
- 3) Per 17-13-0308-C, commercial and residential developments located in this area of Uptown and with, good transit connectivity can be marked by dense, high-rise structures, akin to the project currently being proposed.
- 4) Per 17-13-0308-D, the proposed underlying zoning for this planned development is consistent with other zoning districts, both adjacent to this site and in the immediate area.
- 5) Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

The Department of Planning and Development has also reviewed the project materials submitted by the Applicant with regards to the Policies and Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance and has concluded that the proposed development would be in compliance with the applicable Policies of the Lakefront Plan of Chicago and the Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance, as they apply to development in the Private Use Zone, specifically:

- Policy No. 3 (Continue to improve the water quality and ecological balance of Lake Michigan) - This project will comply with all applicable City and Metropolitan Water Reclamation District regulations pertaining to the management of wastewater and storm water runoff and will not negatively impact the purity and quality of the waters of Lake Michigan.
- Policy No. 8 (Increase personal safety) - The project will bring increased pedestrian activity and lighting to the area through the replacement of existing, underutilized buildings with a new, active, residential and retail community.
- Policy No. 14 (Coordinate all public and private development within the water, park and community zones) - This site is located within the Private Use Zone and the development has been coordinated with the appropriate City departments and

community to minimize the impact of construction and to ensure it remains in context with the surrounding neighborhood.

With respect to the Policies and Purposes not enumerated here, the Department of Planning and Development has determined that they are either not applicable to development in the Private Use Zone or that the proposed project will not have a detrimental effect on the Lake Michigan shoreline or

any wildlife habitats therein. The proposed project also does not contemplate the introduction of new roadways directly connecting to the lakefront, does not reduce existing open space and does not interfere with existing access to, or use of, Lake Michigan and its park system.

Based on the foregoing, the Department of Planning and Development has the following dual recommendation:

- 1) That this application for an amendment to Planned Development 138 be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "Passage Recommended, as Amended"; and,
- 2) That this application, being in conformance with the provisions of the Lake Michigan and Chicago Lakefront Protection Ordinance, be approved, subject to compliance with the Site and Landscape Plans and Building Elevations dated January 21, 2016 and presented before you today.

PART TWO: CHARACTER OF THE PROPOSAL

FIGURE 6-1 - NARRATIVE Current Use

The property subject to this application consists of approximately 131.186 net square feet located north of West Montrose Avenue on the east and west sides of North Clarendon Avenue. The subject property is located within the Private Use Zone of the Lakefront Protection District and is currently located in the RM-5 Residential Multi-Unit District and Institutional Planned Development No. 138. The subject property is the site of the former Columbus-Maryville Emergency Shelter. The applicant, Montrose Clarendon Partners LLC (the "Applicant"), is the contract purchaser of the subject property.

Proposed Plan

The Applicant seeks approval of a mixed-use redevelopment of the property, including residential, retail and commercial uses, and parking. The Applicant has simultaneously filed an application with the City for a Residential-Business Planned Development zoning designation to permit the project. The redevelopment will include approximately 631 residential units, approximately 36,000 square feet of retail and commercial space, and approximately 449 parking spaces, to be constructed as at least two separate projects in phases.

The first project consists of redeveloping the portion of the property located south of Agatite Avenue. This portion of the property includes a development parcel on the west side of North Clarendon Avenue ("Sub-Area A") and a development parcel on the east side of North Clarendon Avenue ("Sub-Area C"). Sub-Area A would be developed with an approximately 28-story building, including approximately 30,000 square feet of retail space, 381 dwelling units, and 278 enclosed parking spaces. Approximately 8 of the proposed dwelling units would be townhomes, fronting on Agatite Avenue. Sub-Area C, located on the east side of North Clarendon Avenue, would be developed with a single-story commercial building, including approximately 6,000 square feet of retail/restaurant space and 11 surface parking spaces.

The remaining portions of the project consist of redeveloping the portion of the property located at the northwest corner of Agatite Avenue and North Clarendon Avenue ("Sub-Area B"). Sub-Area B would be developed as a separate project in a later phase, and would consist of an approximately 16-story building with approximately 250 dwelling units and 160 enclosed parking spaces.
