## REZONING NARRATIVE 820 SOUTH CANAL STREET/815 SOUTH CLINTON STREET CHICAGO, ILLINOIS

The applicant, SF CHI, LLC, owns the subject property located at 820 South Canal Street and 815 South Clinton Street, Chicago, Illinois, and seeks to rezone the subject property from Airport Planned Development Number 221 to DS-5 Downtown Service District. The subject property is approximately 1.47 acres and is proposed for the use of minor utilities and services for the placement of emergency generators within manufactured enclosures on the western portion of the property to service the neighboring data center at 840 South Canal Street with back-up power, as more specifically depicted in the Site Plan submitted with the

Zoning Amendment Application. A portion of the property will be used for accessory off-street parking to support the adjacent data center. The remainder of the property is proposed to be used for non-accessory off-street parking.

The addition of the enclosed emergency generators will occur in phases. Two (2) generators will be added to the property initially. Phase I of the project contemplates a total of (9) generators aligned along the west portion of the property. Phase II of the project contemplates the addition of 9 more generators stacked above the 9 generators at surface level for a total of 18 enclosed emergency generators.

The floor area ratio at full build out of all 18 generators is approximately 1.50. The lot area per unit density restriction is not applicable as no dwelling units are proposed for the project. The number of off-street parking spaces at commencement of the project is 120 spaces and upon full build out of the generators there will be 94 accessory and non-accessory parking spaces. The initial height of the enclosed generators will be approximately 15 feet. At full build out of the enclosed generators the height will be approximately 30 feet. The setback for the property at full build out of the generators will be as follows:

North - 3 feet South-15 feet  
East - 20 feet West-10 feet
