CITY OF CHICAGO

o

May 29, 2015

Ms. Susana Mendoza City Clerk
121 North LaSalle Street Chicago, Illinois 60602

Amendment No. 1 to the 119th /I-57 Redevelopment Plan and Project for the 119th/I-57 Tax Increment Financing
Redevelopment Project and Plan

Dear Ms. Mendoza:

I enclose a proposed Amendment No. 1 to the 119th/I-57 Redevelopment Plan and Project (the
"Amendment") for the 119th/I-57 Redevelopment Project Area, Chicago, Illinois, dated May 29, 2015.

Please make the Amendment available in your office as of this date for public inspection in accordance
with the requirements of Section 5/11-74.4-5(a) of the Illinois Tax Increment Allocation Redevelopment Act,
65 ILCS 5/11-74.4-1 et seq., as amended. If you have any questions with respect to this matter, please call me
at 744-1045.

Keith A. May
Assistant Corporation Counsel

Enclosure

Beth McGuire (DPD) M. Susan Lopez (Law)

119* Street/ 1-57 Redevelopment Project Area Tax Increment
Financing Redevelopment Plan and Project

Amendment No. 1

Executive Summary

To induce redevelopment, pursuant to the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended from time to time (the "Act"), the City Council of the City of Chicago adopted three ordinances on November 6, 2002, approving the 119th Street/1-57 Redevelopment Project Area Tax Increment Financing Redevelopment Plan & Project (the "Original Plan"), designating 119th/1-57 Redevelopment Project Area (the "Original Project Area" or the

"Original 119th/I-57 RPA") as a redevelopment project area under the Act, and adopting tax increment allocation financing for the Original Project Area. The Original Plan was initially completed in August 2002 and revised in October 2002. The Original Plan is attached as Appendix G.

In 2014, the City of Chicago engaged a consultant to conduct a study of certain properties adjacent to the Original Project Area (the "Expansion Area") to determine whether these properties would qualify as a "blighted area" or a "conservation area" under the Act, in order to be incorporated into the Original Project Area. The results of the study found that the study area was eligible as a "conservation area," thus supporting its addition into the Original 119th/I-57 RPA. (The results of the study are presented in Appendix E, the Expansion Study Area Eligibility Study.) The Original Project Area together with the Expansion Area are referred to as the "119th/I-57 RPA as Amended" or the "RPA as Amended."

The Original Plan is being amended through this document ("Amendment No. 1") to:

1. Expand the Original Project Area to include an additional 4,676 tax parcels in the Expansion Area;
2. Update the land use plan for the 119th/I-57 RPA as Amended;
3. Update the budget for the RPA as Amended;
4. Include a new legal description for the RPA as Amended; and
5. Update plan language and budget items to incorporate changes due to recent amendments to the Act.

Amendment No. 1 summarizes the analyses and findings of the consultant's work, which, unless otherwise noted, is the responsibility of the consultant, SB Friedman Development Advisors. The City of Chicago (the "City") is entitled to rely on the findings and conclusions of Amendment No. 1 in amending the Original Plan under the Act. The consultant has prepared Amendment No. 1 with the understanding that the City would rely: 1) on the previous eligibility findings and conclusions of the Original Plan; and 2) on the fact that the Original Plan contains the necessary information to be compliant with the Act.

The 119th/I-57 RPA as Amended is generally bounded by W. 107th Street to the north, S. Vincennes Avenue to the west, the City of Chicago boundary to the south, and the vacated Pittsburgh, Cincinnati, Chicago and St. Louis railroad right-of-way to the east. The boundary of the RPA as Amended is shown in Figure 1 and described fully in Appendix B. The RPA as Amended contains a total of 5,940 parcels and approximately 1,212 acres of land.

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/I-57 Redevelopment Plan Amendment No. 1

The Expansion Area includes 3,547 inhabited residential units. Therefore, a housing impact study has been completed pursuant to the Act as part of Amendment No. 1. The housing impact study for the Expansion Area is included as Appendix F. The Original RPA included 694 inhabited residential units at the time of designation. A housing impact study was prepared for the Original RPA at that time and is included in Section 9 of the Original Plan.

Modifications to the Original Plan Section 1:

Introduction

Under Section 1, in paragraphs one and two, replace the phrase "the Plan" with the following: "the Original Plan"

Under Section 1, in paragraphs one and two, replace the phrase "the Project Area" with the following:

"the Original Project Area"

Under Section 1, insert the following text after the second paragraph in a new paragraph:

In 2014, SB Friedman Development Advisors ("SB Friedman") was engaged by the City to conduct a study of certain properties adjacent to the Original Project Area (the "Expansion Area") to determine whether these properties would qualify as a "blighted area" or a "conservation area" under the Act, in order to be incorporated into the Original Project Area. This document ("Amendment No. 1") details the eligibility factors found within the Expansion Area in support of its designation as a "conservation area" as defined by the Act, and in support of its addition into the Original Project Area. Amendment No. 1 also contains changes to the Original Plan, resulting in an updated Redevelopment Plan and Project (the "Plan") for the combined Redevelopment Project Area consisting of the Original Project Area and Expansion Area ("119th/I-57 RPA as Amended" or the "RPA as Amended").

The results of the study documenting the eligibility of the Expansion Area as a "conservation area" are presented in Appendix E, the Expansion Study Area Eligibility Study.

The Expansion Area is generally bounded by 107th Place to the north, 123rd Street to the south, the vacated Pittsburgh, Cincinnati, Chicago and St. Louis railroad right-of-way to the east, and Interstate 57 to the west.

Under Section 1, under the Tax Increment Financing subheading, in the last paragraph, replace the phrases "the 119th Street Redevelopment Project Area" and "the Project Area" with the following:

"the Original Project Area"

SB FRIEDMAN | DEVELOPMENT ADVISORS

i

i

119th Street/I-57 Redevelopment Plan Amendment No. 1

Under Section 1, following the last paragraph under the Tax Increment Financing subheading, insert the following text in a new paragraph:

In 2014, the City authorized an evaluation to determine whether a specific area of the City, to be known as the Expansion Area, qualifies for designation as a "blighted area" or a "conservation area" pursuant to the provisions contained in the Act. If the Expansion Area so qualified, the City requested the preparation of a Plan incorporating the boundaries of the 119th/I-57 RPA as Amended, in accordance with the requirements of the Act.

Under Section 1, replace the 119th Street/1-57 Redevelopment Project Area subheading with the following text:

"119th Street/1-57 Original Project Area"

Under Section 1, under the 119th Street/1-57 Original Project Area subheading, replace all instances of the phrase "the Project Area" with the following text:

"the Original Project Area"

Under Section 1, under the 119th Street/1-57 Original Project Area subheading, replace all instances of the phrase "the Plan" with the following text:

"the Original Plan"

Under Section 1, under the 119th Street/1-57 Original Project Area subheading, replace the one instance of the phrase "119th Street/1-57 Redevelopment Plan and Project" with the following text:

"Original 119th Street/1-57 Redevelopment Plan and Project"

Under Section 1, insert the following text at the end of the section under a new subheading:

119th Street/1-57 Expansion Area

The Expansion Area is approximately 887 acres in size and includes 4,678 contiguous parcels and public rights-of-way. This number includes 170 parcels that are within railroad or Interstate 57 rights-of-way. The total number of parcels excluding those within rights-of-way is 4,508. The Expansion Area is composed largely of residential property; however, there are also commercial, industrial, institutional and open space uses. Overall, the Expansion Area is characterized by:

- Lack of Growth in Equalized Assessed Value (EAV)
- Lack of Community Planning
- Deleterious Land Use or Layout
- Deterioration

As a result of these conditions, the Expansion Area is in need of redevelopment, rehabilitation and/or revitalization. The Expansion Area as a whole has not been subject to growth and development by private enterprise, and would not reasonably be anticipated to be developed without the adoption of the Plan (as defined on page 2 of Amendment No. 1). The Expansion

119th Street/1-57 Redevelopment Plan Amendment No. 1

Study Area Eligibility Study, attached hereto as Appendix E, concluded that property within the Expansion Area is experiencing deterioration and disinvestment, and meets the requirements for designation as a "conservation area" in accordance with the Act.

The purpose of the Plan is to promote the development of vacant and underutilized sites and the rehabilitation of existing buildings, provide infrastructure improvements, and remove conditions including deterioration and deleterious land use and layout.

Amendment No. 1 summarizes the analyses and findings of SB Friedman's work regarding the Expansion Area, which, unless otherwise noted, is the responsibility of SB Friedman Development Advisors and its subconsultants. The City is entitled to rely on the findings and conclusions of Amendment No. 1 in amending the Original Project Area to include the Expansion Area as a redevelopment project area under the Act. SB Friedman has prepared Amendment No. 1 and the related Expansion Study Area Eligibility Study with the understanding that the City would rely: 1) on the findings and conclusions of the Amendment No. 1 in proceeding with the amendment of the Original Project Area and the adoption and implementation of the Plan; and 2) on the fact that SB Friedman had obtained the necessary information so that Amendment No. 1 would comply with the Act.

Section 2: Project Area Description

Under Section 2, in the first paragraph, delete the entire paragraph and replace with the following text:

The 119th/I-57 RPA as Amended is shown in the Redevelopment Project Area Boundary Map (Figure 1 in Appendix A). The 119th/I-57 RPA as Amended is approximately 1,212 acres in size, including public rights-of-way. A legal description of the 119th/I-57 RPA as Amended is included as Appendix B of this document. The RPA as Amended includes only those contiguous parcels that are anticipated to substantially benefit from the proposed redevelopment improvements, and which collectively qualify for designation as a "blighted area" in the case of the Original Project Area, or for designation as a "conservation area" in the case of the Expansion Area.

Under Section 2 under the subheading Community Background, in the first paragraph, delete the entire paragraph and replace with the following text:

The 119th/I-57 RPA as Amended lies primarily within the Morgan Park and West Pullman community areas. The history and background of these community areas is described below.

Under Section 2, under the subheading Community Background, at the end of the section insert the following text:

The area known as West Pullman was initially settled in the 1830s. Rapid growth did not occur in the area until after the opening of the Illinois Central and Michigan Central Railroad station and the development of the Pullman Palace Car Works in the 1850s.

In the late 1880s, real estate speculators and various business interests active on the South Side formed the West Pullman Land Association to market property between 119th Street and 123rd Street between Wentworth and Halsted. The Land Association had phenomenal success at

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 Redevelopment Plan Amendment No. 1

attracting industries to open facilities in the area, and additional industrial development spread westward toward Ashland Avenue. This industrial development was also facilitated by transportation improvements, which included the extension of the Illinois Central Railroad into Blue Island, the construction of the Pennsylvania Railroad line through the area, and streetcar extensions along major area thoroughfares in the late 1800s. Among the companies that opened facilities in the community during this period were the Piano Manufacturing Company, the Whitman Barnes Company, the Chicago Malleable Casting Company, and the Sterling Lumber Supply Company.

Population growth in the area was also encouraged by the West Pullman Land Association. In 1890, the Land Association began construction on a 600-home development that was completed four years later. However, development activity was stifled around the turn of the century by three events: (1) the four-year depression that began in 1893, (2) the Pullman Strike of 1894, and (3) the economic downturn of 1908. It was during these 15 turbulent years that the West Pullman Land Association went bankrupt along with several area industrial businesses.

In the early part of the twentieth century, a large influx of Eastern European immigrants moved into the area. By 1919, the West Pullman community reached residential maturity and had a population of 23,019 people. The upsurge in population in the post-World War I period brought the community's population to about 30,000 in 1930. The post-World War I period also inaugurated a new period of industrial development and activity. However, this post-war upturn was short-lived as the Great Depression impacted the industrial development of Chicago and the rest of the country. The West Pullman community - along with the nation's economy - languished until several federal programs were initiated by the Roosevelt Administration in the mid-1930s. Many of the Roosevelt Administration's programs were designed to stimulate economic activity through public expenditures. Industrial cities like Chicago benefitted greatly from such Roosevelt programs as the Works Progress Administration. Additionally, World War II initiated new growth for the community in the 1940s. The growth in industry led to several new manufacturers locating in the area, including International Harvester (which took over Piano Manufacturing's facilities) and Dutch Boy Paints.

Also in the late twentieth century, the West Pullman industrial base - as well as the industrial base of Chicago - was affected by the opening of the interstate highway system. Substantial portions of the City's industrial and population base relocated to communities on the outskirts of Chicago. This decentralization is a continuing factor that impacts Chicago and other cities throughout the country. During this period, International Harvester and Dutch Boy Paints relocated their operations out of the area, as did several steel mills on the City's South Side. At the same time, several businesses remained, including Carl Buddig and Company, Ingersoll Products, and several smaller manufacturing concerns.

In 2010, population in the combined Morgan Park and West Pullman community areas fell from 61,874 in 2000 to 52,171, according to census data. The average household size in 2010 was 2.93. Esri Business Analyst estimates indicate that median household income within this area was approximately \$44,873 in 2014. Esri estimates also indicate that the population within this combined area is 82.2% Black or African American, with 14.1% of the population identifying as white alone, and 4.1% of Hispanic origin. Almost 60% of the population 25 and older has attained at least some college education, and over 55% of the employed population works in white collar occupations, though the unemployment rate remains high, at approximately 17%.

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 Redevelopment Plan Amendment No. 1

In recent years, foreclosure rates within this area have been high relative to Citywide foreclosure rates. As of December 2014, the foreclosure rate in the 60643 zip code, which encompasses the Expansion Study Area and the Original RPA, was 0.35%, compared with 0.16% for the City as a whole, according to RealtyTrac data. Pre-foreclosures accounted for 28.6% of all foreclosures within this zip code, compared with 25.2% of all foreclosures citywide. This may indicate that the foreclosure rate will rise in the zip code in the future as the foreclosure process proceeds.

Under Section 2, replace the subheading. Current Land Use and Zoning, with the following text:

Current Land Use and Zoning: Original Project Area

Under Section 2, in paragraphs one, two, and three under the Current Land Use and Zoning: Original Project Area subheading, replace all instances of the phrase "Project Area" with the following text:

"Original Project Area"

Under Section 2, under the Current Land Use and Zoning: Original Project Area subheading, in paragraph one, replace the phrase "Figure 2: Existing Land Use" with the following text:

"Figure 2: Existing Land Use: Original Project Area"

Under Section 2, under the Current Land Use and Zoning: Original Project Area subheading, in paragraph two, replace the phrase "Figure 3: Existing Zoning" with the following text:

"Figure 3: Existing Zoning: Original Project Area"

Under Section 2, following the subsection Current Land Use and Zoning: Original Project Area, insert the following text under a new subheading:

Current Land Use and Zoning: Expansion Area

The current land use within the Expansion Area consists of residential, commercial, industrial, institutional and public uses. There are also vacant properties and properties located within rights-of-way. The majority of the Expansion Area consists of single-family residential uses. Commercial uses are located primarily along IIIth and 115th Streets. Industrial property is located primarily along 119th and 120th Streets. Public and institutional uses include schools, churches and parks. The current land use within the Expansion Area is shown in Figure 2A: Existing Land Use: Expansion Area (see Appendix A).

Current zoning within the Expansion Area generally reflects the pattern of existing land use. There are business and commercial zones (including B3-1, B3-2, and CI-1) located along IIIth Street, 115th Street and 119th Street. The majority of the Expansion Area is zoned for residential districts (including RS-2, RS-3 and RT-4). There is a Planned Manufacturing District (PMD 10) located in an area that was historically predominantly industrial uses along and south of 119th Street east of Loomis. West of 1-57, there is an industrial area (zoned MI-1, M3-1 and M3-3). There are also several small manufacturing districts (zoned MI-1 and M2-2) along residential

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Redevelopment Plan Amendment No. 1

and commercial streets, and scattered residential uses within business zoning districts. There are also three Planned Development (PD) zones within the RPA as Amended.

The Expansion Area is fragmented by railroad rights-of-way and Interstate 57. Large industrial parcels, rights-of-way and institutional parcels along 119th Street and 120th Street further disrupt the street grid and the neighborhood. The disrupted street grid, which results in dead end streets, limited access and fragmented parcels within the Expansion Area, and the presence of vacant lots, pose challenges to redevelopment.

Under Section 2, under the Transportation Characteristics subheading, in the second sentence, replace the phrase "adjacent to the southeastern portion" with the following text:

"located in the southern portion"

Under Section 2, under the Transportation Characteristics subheading, in the second sentence, replace the phrase "the closest station is located just outside the Project Area at 124th Street and Ashland Avenue" with the following text:

"the Metra Electric District Racine Station is located within the 119th/I-57 RPA as Amended at 120th Street and Racine Avenue, and the Metra Electric District Ashland Avenue Station is located within the 119th/I-57 RPA as Amended at 124th Street and Ashland Avenue"

Under Section 2, under the Transportation Characteristics subheading, in the first sentence of the second paragraph, replace the phrase "Vincennes Avenue is the primary north-south route" with the following text:

"Vincennes Avenue within the 119th/I-57 RPA as Amended and Halsted Street adjacent to the RPA as Amended are the primary north-south routes, and Ashland Avenue provides an additional northbound route through the 119th/I-57 RPA as Amended"

Under Section 2, under the Transportation Characteristics subheading, delete the third paragraph, and replace with the following text:

In addition to the Metra Electric District line, mass transportation serving the 119th/I-57 RPA as Amended includes four Chicago Transit Authority ("CTA") bus lines:

- Route 111, which serves Marshfield Plaza, locations along Ashland Avenue, Vincennes Avenue and IIIth Street, and provides service to the CTA Red Line at the 95th Street terminal;
- Route 112, which serves locations along Vincennes Avenue north of IIIth Street, and provides service west to the Metra Rock Island line and Pulaski Avenue, and north and east to the Metra Rock Island line and the CTA Red Line at the 95th Street terminal;
- Route 115, which serves Marshfield Plaza and locations along Ashland Avenue and 115th Street, and provides service to the Pullman Historic District, the Metra Electric and South Shore lines, and the CTA Red Line at the 95th Street terminal; and
- Route 119, which serves locations along 119th Street, and provides service to the Metra Rock Island line, Roseland Hospital, and the CTA Red Line at the 95th Street terminal.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 Redevelopment Plan Amendment No. 1

The combination of CTA and Metra service provides good access to mass transportation within the 119th/I-57 RPA as Amended.

Section 3: Eligibility of the Project Area for Designation as a Blighted Area

Under Section 3, replace the section heading, Eligibility of the Project Area for Designation as a Blighted Area with the following text:

Eligibility Findings

Under Section 3, before the first paragraph, insert the following subsection heading:

Eligibility of the Original Project Area for Designation as a Blighted Area

Under Section 3, under the subsection Eligibility of the Original Project Area for Designation as a Blighted Area, in paragraphs one, two, three and four, replace the phrases "Project Area" and "Area" with the following:

"Original Project Area"

Under Section 3, following the subsection Eligibility of the Original Project Area for Designation as a Blighted Area, insert the following text under a new subheading:

Eligibility of the Expansion Area for Designation as a Conservation Area

The Expansion Area, on the whole, has not been subject to significant growth and development through private investment. Based on the conditions present, the Expansion Area is not likely to be comprehensively or effectively developed without the adoption of the Plan. SB Friedman conducted a series of analyses and a field survey completed in December 2014 to determine the eligibility of the Expansion Area for designation as a "conservation area" or "blighted area" in accordance with the requirements of the Act. Based upon the conditions found within the Expansion Area at the completion of SB Friedman's research, it has been determined that the Expansion Area meets the eligibility requirements of the Act as a "conservation area" for improved land.

For improved property to qualify as a "conservation area," more than 50% of the buildings within the area must be 35 years of age or older, and there must be at least three of the 13 conditions set forth in the Act. These factors must be meaningfully present and reasonably distributed within the area. Taking into account information obtained from the Cook County Assessor's Office, SB Friedman has established that 3,187 of the 3,581 buildings within the Expansion Study Area (89.0%) are 35 years of age or older. Of the 13 factors cited in the Act for improved property, four were present within the Expansion Area.

The following factors were found to be present to a major extent within the Expansion Area:

- Lack of Growth in Equalized Assessed Value ("EAV") (affecting all tax blocks within the Expansion Area)

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 Redevelopment Plan Amendment No. 1

- Lack of Community Planning (affecting all tax blocks)
- Deleterious Land Use or Layout (affecting 66.0% of tax blocks)
- Deterioration (affecting 89.5% of tax blocks)

Based on the presence of these factors, the Expansion Area meets the requirements of a "conservation area" for improved land under the Act. For more detail on the basis for determining the eligibility of the Expansion Area, refer to the Expansion Study Area Eligibility Study in Appendix E.

Under Section 3, replace the subheading. Need for Public Intervention, with the following text:

Need for Public Intervention: Original Project Area

Under Section 3, under the subsection Need for Public Intervention: Original Project Area, in paragraphs one, two and three, replace the phrase "Project Area" with the following:

"Original Project Area"

Under Section 3, under the subsection Need for Public Intervention: Original Project Area, in paragraphs one, two and three, replace the phrase "Plan" with the following:

"Original Plan"

Under Section 3, following the section, Need for Public Intervention, insert the following text under a new subheading:

Need for Public Intervention: Expansion Area

The City is required to determine that the Expansion Area has not been subject to growth and development from private investment through private enterprise prior to establishing or amending a TIF district. The Expansion Area's parcels have declined in EAV for four of the last five year-to-year periods, and have lagged behind CPI growth in four of the last five year-to-year periods. In addition, growth in EAV for the Expansion Area lagged behind growth in EAV in the balance of the City and behind CPI over the period. The overall Compound Annual Growth Rate (CAGR) for the Expansion Area was -6.9%, compared with -6.4% for the balance of the city and 1.1% growth in CPI. Lack of growth in EAV is one of the strongest indicators that an area is suffering from decline and a lack of private investment.

Building permit activity over the past five years indicates some investment in the Expansion Area, generally for minor improvements, such as re-roofing a residential structure or conducting repairs to existing structures. In general, there has been a lack of private investment in new construction activity in the Expansion Area over the same period. Table IA summarizes building permit activity within the Expansion Area over the past five years. SB Friedman has identified three private more substantial recent investments in the Expansion Study Area that have occurred in recent years:

- According to the City's building permit data, a small industrial structure that is part of the Exelon City Solar array on 119th Street was constructed at a cost of approximately

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 Redevelopment Plan Amendment No. 1

\$834,000 in 2011. Installation of the 10-megawatt 41-acre solar photovoltaic array was completed in 2010 upon land leased from the City. According to information provided by the City's Department of Planning and Development, the terms of Exelon Solar Chicago LLC's ground lease with the City reflect a lease rate approximately 40% below the appraised market lease rate. In addition, the City invested in remediating environmental contamination from earlier manufacturing uses prior to execution of the lease agreement. Though the project represents a significant investment within the Expansion Study Area, it is likely that the project would not have occurred without public assistance, including the City's below-market lease rate, environmental remediation of the site, a loan guarantee from the U.S. Department of Energy, and federal investment tax credits. Under the terms of the City lease, Exelon Solar Chicago LLC is required to install additional solar photovoltaic power systems on the rooftops of public schools, non-profit facilities, and/or low-income apartment or condominium buildings in the neighborhood, and provide educational visits to the site.

- The Mifab distribution facility at 1321 W. 119th Street, which was constructed in 2006, according to the City of Chicago data portal and Cook County property records, was rehabilitated under two building permits issued in 2010 and 2011, each for \$100,000, as shown in Table IA below. Both permits were related to interior alterations and the relocation of equipment within the building. The scope of reinvestment in this building was relatively minor.
- According to City of Chicago data portal data, \$3.5 million in building permits were issued in 2012 and 2013 for expansion of the Maruichi Leavitt Pipe & Tube industrial facility at 1900 West 119th Street. Building permits associated with the project indicate construction of a building addition and preparation of new foundations for industrial equipment.

Table IA. Expansion Area Building Permit Activity, 2010 - 2014 [1]

Estimated Project Cost 2010	2011	2012	2013	2014		Total	
New Construction Industrial	\$873,970		\$0	\$1,000,000	\$2,500,000	\$0	\$4,373,970
Major Renovations (\$50,000 or more)	Commercial			\$0	\$275,000	\$0	\$330,000
\$0 \$55,000 Industrial	\$100,000	\$100,000		\$0	\$0	\$0 Residential	\$200,000
\$0 \$127,300	\$0	\$158,500	\$167,845				\$453,645
Minor Repairs and Renovations (Primarily Residential)				\$10,000 - \$50,000	\$286,302		\$1,257,976
\$327,019	\$107,546	\$284,049	\$253,060	Less than \$10,000	\$144,908	\$70,138	\$512,132
\$85,407	\$71,441	\$140,238					
Total Private Investment per Parcel	\$312	\$200	\$265	\$669	\$137 [2]		\$1.581

Source: City of Chicago Data Portal, SB Friedman Development Advisors. [1] Excludes building permit activity undertaken by public entities. [2] Out of 4,508 non-right-of-way PINs.

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 Redevelopment Plan Amendment No. 1

Despite these investments, the majority of building permit activity within the past five years consisted of relatively minor repairs and renovations to existing structures. On a per-parcel basis, the total private investment in new construction, repairs and renovations over the past five years totals approximately \$1,600. This reflects a minimal level of private investment, and almost no new private development. In addition, this level of investment has not been significant enough to reverse the trends of declining property values.

Foreclosure activity within the vicinity of the Expansion Area may further underscore a lack of private investment

in properties within the area. As of December 2014, the foreclosure rate in the 60643 zip code, which encompasses the Expansion Area and the Original RPA, was 0.35%, compared with 0.16% for the City as a whole, according to RealtyTrac data. Pre-foreclosures accounted for 28.6% of all foreclosures within this zip code, compared with 25.2% of all foreclosures citywide. This may indicate that the foreclosure rate will rise in the future in this zip code as the foreclosure process proceeds.

The Woodstock Institute compiles foreclosure data by community area in the City, providing insight into trends in foreclosures during and after the recession. The Expansion Area includes portions of the Morgan Park and West Pullman community areas. Within both community areas, new foreclosure filings have fluctuated over the past five years, generally mirroring citywide trends. However, RealtyTrac data indicate that new foreclosure filings in the 60643 zip code increased 27% from December 2013 to December 2014, and declined 9% citywide during the same period. Therefore, there appears to be a degree of instability, as well as a relatively high foreclosure rate within the areas around the Expansion Area. During the course of identifying . owner of record information within the Expansion Area, SB Friedman's subconsultant identified 33 properties within the area that were owned by financial institutions as a result of foreclosure, as of January 2015. A high rate of foreclosure activity within and around the Expansion Area may indicate a lack of private investment and may also discourage future development activity.

The lack of growth and private investment within the Expansion Area is likely to continue as problems of deterioration, deleterious land use and layout, and lack of community planning remain. Without the support of public resources, the area-wide improvements and development assistance needed to redevelop and revitalize the Expansion Area are unlikely to occur. Tax increment financing would provide the City with a source of funds to pay for infrastructure improvements and attract private investment to the Expansion Area.

Section 4: Redevelopment Plan Goals and Objectives

Under Section 4, under the subheading Redevelopment Objectives, at the end of the subsection insert the following text:

- Address the impacts of residential foreclosures within the RPA as Amended.
- Encourage the rehabilitation of existing residential and commercial properties.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Redevelopment Plan Amendment No. 1

Section 5: Redevelopment Plan

Under Section 5, under the subheading Property Assembly, Site Preparation and Environmental Remediation, delete the entire subsection and replace with the following:

To meet the goals and objectives of this Plan, the City may acquire and assemble property throughout the RPA as Amended. Land assemblage by the City may be by purchase, exchange, donation, lease, eminent domain,

through the Tax Reactivation Program or other programs and may be for the purpose of (a) sale, lease or conveyance to private developers, or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Furthermore, the City may require written redevelopment agreements with developers before acquiring any properties. As appropriate, the City may devote acquired property to temporary uses until such property is scheduled for disposition and development.

Figure 4, Acquisition Map (see Appendix A), indicates the parcels currently proposed to be acquired for redevelopment in the RPA as Amended. Table 9 in Appendix A provides a list of the properties proposed for acquisition under this Plan by Parcel Identification Number and street address.

In connection with the City exercising its power to acquire real property not currently identified on Figure 4, including the exercise of the power of eminent domain, under the Act in implementing the Plan, the City will follow its customary procedures of having each such acquisition recommended by the Community Development Commission (or any successor commission) and authorized by the City Council of the City. Acquisition of such real property as may be authorized by the City Council does not constitute a change in the nature of this Plan.

For properties described on Figure 4: (1) the acquisition of occupied properties by the City shall commence within four years from the date of the publication of the ordinance approving the Plan; (2) the acquisition of vacant properties by the City shall commence within 10 years from the date of publication of the ordinance authorizing the acquisition. In either case, acquisition shall be deemed to have commenced with the sending of an offer letter. After the expiration of the applicable period, the City may acquire such property pursuant to this Plan under the Act according to its customary procedures, as described in preceding paragraph.

Under Section 5, under the subheading Intergovernmental and Redevelopment Agreements, delete the entire subsection and replace with the following:

The City may enter into redevelopment agreements or intergovernmental agreements with private entities or public entities to construct, rehabilitate, renovate or restore private or public improvements on one or several parcels (collectively referred to as "Redevelopment Projects").

Under Section 5, following the Intergovernmental and Redevelopment Agreements subsection, insert the following text under a new subheading:

Affordable Housing

The City requires that developers who receive TIF assistance for market-rate housing set aside 20% of the units to meet affordability criteria established by the City's Department of Planning

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 Redevelopment Plan Amendment No. 1

and Development or any successor agency. Generally, this means the affordable for-sale units should be priced at a level that is affordable to persons earning no more than 100% of the area median income, and affordable rental units should be affordable to persons earning no more than 60% of the area median income.

Under Section 5, under the subheading Relocation, delete all instances of the phrase "Project Area" and replace with the following:

"119th/I-57 RPA as Amended" Section 6: Redevelopment

Project Description

Under Section 6, delete the third paragraph and replace with the following text:

Based on this assessment, the goals of the redevelopment projects to be undertaken in the Project Area are to: 1) redevelop or rehabilitate older, outdated industrial properties; 2) redevelop older, smaller-scale, deteriorated industrial and business property in primarily residential areas for residential uses; 3) encourage infill residential development on scattered vacant lots within existing residential areas; 4) encourage the redevelopment of older, deteriorated residential or commercial development near Interstate 57 traffic for more compatible forms of residential or commercial development; 5) support the rehabilitation of residential and commercial properties to prevent further decline; and 6) promote new industrial development or reinvestment in existing industrial properties. The major physical improvement elements anticipated as a result of implementing the proposed Plan are outlined below.

Under Section 6, before the subheading Commercial Redevelopment, insert the following text under a new subheading:

Industrial Redevelopment

The Plan seeks to promote new industrial development or redevelopment of existing industrial property in the area indicated by future industrial uses in Figure 5, generally east of S. Loomis Street between 118th Street and 122nd Street, and west of Interstate 57.

Under Section 6, under the subheading Commercial Redevelopment, insert the following text at the end of paragraph one:

The Plan seeks to promote commercial redevelopment in appropriate areas, as indicated in Figure 5.

Under Section 6, under the subheading Residential Redevelopment, delete the first paragraph and replace with the following text:

Residential redevelopment is proposed for the vacant, deteriorated and obsolete industrial and commercial property south of 122nd Street and west of S. Loomis Street. A mix of single-family, townhouse and low-rise multi-family housing is seen as appropriate for this location. Widespread residential infill development and building rehabilitation is needed within many of

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Redevelopment Plan Amendment No. 1

the existing residential areas of the RPA. A mix of single-family and townhouse development is appropriate for infill development of vacant lots throughout much of the area, and low-rise multi-family residential development is appropriate in areas zoned for higher-density residential.

Under Section 6, under the subheading Public Improvements, delete the first bullet point and replace with the following

text:

- Improvement of streetscape conditions along Vincennes Avenue, Ashland Avenue, Monterey Avenue, IIIth Street, 115th Street, 119th Street, and other streets, as appropriate, to support commercial and residential redevelopment.

Section 7: General Land Use Plan and Map

Under Section 7, in the first paragraph, delete the first paragraph and replace with the following text:

Figure 5, in Appendix A, identifies land use policies to be pursued in the implementation of the Plan. The future land use plan allows for a prudent level of flexibility in land use policy to respond to future market forces. The land use plan is intended to serve as a guide for future land use improvements and developments within the RPA as Amended. The following land use categories are planned for the RPA as Amended:

- Residential;
- Commercial;
- Industrial;
- Private Institutional (private non-profit, philanthropic and/or religious organizations);
- Public Institutional (governmental uses and facilities, including schools, parks, libraries and public service facilities);
- Mixed Use: Residential/Commercial;
- Mixed Use: Residential/Commercial/Institutional; and
- Mixed Use: Industrial/Commercial.

Under Section 7, in the second sentence of the second paragraph, delete the word "two."

Under Section 7, in the fifth sentence of the second paragraph, delete the words "The other area" and replace with the following text:

Another area

Under Section 7, add the following text at the end of the second paragraph:

The 2014 Zoning Ordinance Map indicates several parcels along the south side of 115th Street, between S. May Street and S. Morgan Street as small MI-1 districts. These areas are designated in the future land use plan as Mixed Use: Residential/Commercial/Institutional Uses, given the relatively small size of the districts and the residential and commercial character of this section of the Project Area. Similarly, several parcels north of 118th Street between S. Elizabeth Street

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 Redevelopment Plan Amendment No. 1

and S. Racine Avenue are zoned B3-1 and M2-2, but are designated for residential uses in the Plan. The parcels are currently residential and are expected to remain so in the future.

Under Section 7, under the subheading Residential Use, delete the first paragraph and replace with the following text:

Residential use is proposed in several portions of the RPA as Amended. On the west side of Interstate 57, residential is proposed in the area located between Vincennes Avenue and 1-57 from 107th Street south to Chelsea Place, and along Waseca Place south to 119th Street. On the east side of 1-57, residential is proposed between 1-57 and Racine Avenue from 107th Place south to 110th Place; from 111th Place south to 114th Place between 1-57 and the vacated Pittsburgh, Cincinnati, Chicago and St. Louis railroad right-of-way; from just south of 115th Street to 119th Street and from Justine Street east to the RPA boundary; and for portions of the area between 120th Street south to 123rd Street from Ashland Avenue east to Halsted Street. On the whole, the areas of proposed residential use are consistent with existing land use. One exception is the area south of 122nd Street in the Original Project Area, which consisted of vacant land and deteriorated industrial and business uses at the time the Original Plan was approved.

Under Section 7, before the subheading Commercial Use, insert the following text under a new subheading:

Industrial Use

The industrial designation is applied to existing industrial areas west of 1-57 between 115th Street and 119th Street, and from Loomis Street east to Halsted Street, in selected areas between 118th Street and 122nd Street.

Under Section 7, under the subheading Mixed-Use: Residential/Commercial/Institutional, after the first sentence insert the following text:

This designation is also applied to the frontage along 115th Street east of 1-57, from Ashland Avenue to the vacated Pittsburgh, Cincinnati, Chicago and St. Louis railroad right-of-way (east of Morgan Street), and to the east side of Ashland Avenue from 115th Street south to 118th Street.

Under Section 7, replace the subheading Institutional with the following text:

Private Institutional

Under Section 7, under the subheading Private Institutional, add the following text at the end of the first paragraph:

The designation is also applied to places of worship along 119th Street east of Ashland Avenue, at 117th Street between Elizabeth Street and Racine Avenue, and at 112th Street and Bishop Street, as well as Kroc Park at 117th Street and Aberdeen Street.

Under Section 7, replace the subheading Public with the following text:

Public Institutional

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 Redevelopment Plan Amendment No. 1

Under Section 7, under the subheading Public Institutional, delete the third sentence of the first paragraph and replace with the following text:

There are several public institutional uses within the RPA as Amended, including Shoop Elementary School (at 111th Street and Bishop Street), Foundations College Prep (at 109th Place and Racine Avenue), Whistler Elementary School (at 115th Street and Ada Street), Higgins Elementary Community Academy (at 117th Street and Morgan Street), Edward H. White Career Academy at 112nd Street and May Street, Ada Park (at 112th Place and Racine Avenue), Blackwelder Park (at 115th Street and Homewood Avenue), Cooper Park (at 117th Street, east of Loomis Street), Morgan Field Park (at Morgan Street and 117th Street), White Park (at 122nd Street and Aberdeen Street), and a City of Chicago Streets and Sanitation facility at 120th Street and Peoria Street.

Public institutional uses are shown in Figure 6: Community Facilities in Appendix A.

Section

8: Redevelopment Plan Financing

Under Section 8, delete the first five paragraphs and replace with the following text:

The various redevelopment expenditures that are eligible for payment or reimbursement under the Act are reviewed below. Following this review is a list of estimated redevelopment project costs that are deemed to be necessary to implement this Plan (the "Redevelopment Project Costs").

In the event the Act is amended after the date of the approval of this Plan (as defined on page 2 of Amendment No. 1) by the City Council of Chicago to (a) include new eligible redevelopment project costs, or (b) expand the scope or increase the amount of existing eligible redevelopment project costs (such as, for example, by increasing the amount of incurred interest costs that may be paid under 65 ILCS 5/II-74.4-3(q)(II)), this Plan shall be deemed to incorporate such additional, expanded or increased eligible costs as Redevelopment Project Costs under the Plan, to the extent permitted by the Act. In the event of such amendment(s) to the Act, the City may add any new eligible redevelopment project costs as a line item in Table 2 or otherwise adjust the line items in Table 2 without amendment to this Plan, to the extent permitted by the Act. In no instance, however, shall such additions or adjustments result in any increase in the total Redevelopment Project Costs without a further amendment to this Plan.

Under Section 8, under the Eligible Project Costs subheading, delete the entire subsection and replace with the following text:

Redevelopment project costs include the sum total of all reasonable or necessary costs incurred, estimated to be incurred, or incidental to this Plan pursuant to the Act. Such costs may include, without limitation, the following:

- a) Costs of studies, surveys, development of plans and specifications, implementation and administration of the Plan, including but not limited to, staff and professional service costs for architectural, engineering, legal, financial, planning or other services (excluding lobbying

expenses), provided that no charges for professional services are based on a percentage of the tax increment collected;

- b) The costs of marketing sites within the RPA as Amended to prospective businesses, developers and investors;
- c) Property assembly costs, including but not limited to, acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;
- d) Costs of rehabilitation, reconstruction, or repair or remodeling of existing public or private buildings, fixtures and leasehold improvements; and the costs of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment, including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification;
- e) Costs of the construction of public works or improvements, including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification subject to the limitations in Section II-74.4-3(q)(4) of the Act;
- f) Costs of job training and retraining projects including the cost of "welfare to work" programs implemented by businesses located within the RPA as Amended;
- g) Financing costs including, but not limited to, all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued thereunder, including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for a period not exceeding 36 months following completion and including reasonable reserves related thereto;
- h) To the extent the City by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the Plan;
- i) An elementary, secondary or unit school district's increased costs attributable to assisted housing units will be reimbursed as provided in the Act;
- j) Relocation costs to the extent that the City determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law or by Section 74.4-3(n)(7) of the Act (see "Relocation" section);
- k) Payment in lieu of taxes, as defined in the Act;

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 Redevelopment Plan Amendment No. 1

- l) Costs of job training, retraining, advanced vocational education or career education, including but not limited to, courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs: (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in the RPA as Amended; and (ii) when incurred by a taxing district or

taxing districts other than the City, are set forth in a written agreement by or among the City and the taxing district or taxing districts, which agreement describes the program to be undertaken including but not limited to, the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act, 110 ILCS 805/3-37, 805/3-38, 805/3-40 and 805/3-40.1, and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of the School Code, 105 ILCS 5/10-22.20a and 5/10-23.3a;

m) Interest costs incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

1. such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
2. such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
3. if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this provision, then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
4. the total of such interest payments paid pursuant to the Act may not exceed 30% of the total: (i) cost paid or incurred by the redeveloper for such redevelopment project; (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by the City pursuant to the Act; and
5. up to 75% of the interest cost incurred by a redeveloper for the financing of rehabilitated or new housing for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act;

n) Instead of the eligible costs provided for in (m) 2, 4 and 5 above, the City may pay up to 50% of the cost of construction, renovation and/or rehabilitation of all low- and very low-income housing units (for ownership or rental) as defined in Section 3 of the Illinois Affordable Housing Act. If the units are part of a residential redevelopment project that includes units not affordable to low- and very low-income households, only the low- and very low-income units shall be eligible for benefits under the Act;

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/I-57 Redevelopment Plan Amendment No. 1

o) The costs of daycare services for children of employees from low-income families working for businesses located within the RPA as Amended and all or a portion of the cost of operation of day care centers established by RPA as Amended businesses to serve employees from low-income families working in businesses located in the RPA as Amended. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the City, county or regional median income as determined from time to time by the United States Department of Housing and

Urban Development;

- p) Unless explicitly provided in the Act, the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost; and
- q) If a special service area has been established pursuant to the Special Service Area Tax Act, 35 ILCS 235/0.01 et seq., then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act may be used within the RPA as Amended for the purposes permitted by the Special Service Area Tax Act as well as the purposes permitted by the Act.

Under Section VIII, replace the Estimated Project Costs subheading with the following subheading: Estimated

Redevelopment Project Costs

Under Section 8, under the Estimated Redevelopment Project Costs subheading, delete the entire subsection and replace with the following text:

The estimated eligible costs of this Redevelopment Plan and Project are shown in Table 2 on the following page.

SB FRIEDMAN | DEVELOPMENT ADVISORS

City of Chicago

119th Street/1-57 Redevelopment Plan Amendment No. 1

TABLE 2: ESTIMATED REDEVELOPMENT PROJECT COSTS

Eligible Expense	Estimated Cost
Professional and Administrative	\$ 750,000
Marketing	500,000
Property Assembly and Site Preparation	6,500,000
Rehabilitation of Existing Buildings	15,250,000
Construction of Public Facilities and Improvements ¹¹¹	20,250,000
Job Training	1,500,000
Financing Costs	2,000,000
Relocation Costs	1,000,000
Interest Costs	4,000,000
Affordable Housing Construction	7,750,000
Day Care Services	500,000
TOTAL REDEVELOPMENT COSTS ¹²¹¹³¹	\$ 60,000,000¹⁴¹

¹This category may also include paying for or reimbursing (i) an elementary, secondary or unit school district's increased costs attributed to assisted housing units, and (ii) capital costs of taxing districts impacted by the redevelopment of the Project Area. As permitted by the Act, to the extent the City by written agreement accepts and approves the same, the City may pay, or reimburse all, or a portion of a taxing district's capital costs resulting from a redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the Plan.

²Total Redevelopment Project Costs represent an upper limit on expenditures that are to be funded using tax increment revenues and exclude any additional financing costs, including any interest expense, capitalized interest and costs associated with optional redemptions. These costs are subject to prevailing market conditions and are in addition to Total Redevelopment Project Costs. Within this limit, adjustments may be made in line items without amendment to this Plan, to the extent permitted by the Act.

⁴The amount of the Total Redevelopment Project Costs that can be incurred in the RPA as Amended will be reduced by the amount of redevelopment project costs incurred in contiguous redevelopment project areas, or those separated from the Project Area only by a public right-of-way, that are permitted under the Act to be paid, and are paid, from incremental property taxes generated in the Project Area, but will not be reduced by the amount of redevelopment project costs incurred in the RPA as Amended which are paid from incremental property taxes generated in contiguous redevelopment project areas or those separated from the RPA as Amended only by a public right-of-way. ⁴

All costs are in 2015 dollars and may be increased by five percent (5%) after adjusting for inflation reflected in the Consumer Price Index (CPI) for All Urban Consumers for All Items for the Chicago-Gary-Kenosha, IL-IN-WI CMSA, published by the U.S. Department of Labor. Additional funding from other sources such as federal, state, county, or local grant funds may be utilized to supplement the City's ability to finance Redevelopment Project Costs identified above.

119th Street/1-57 Redevelopment Plan Amendment No. 1

Under Section 8, replace the Sources of Funds subheading with the following text:

Sources of Funds to Pay Redevelopment Project Costs

Under Section 8, under the Sources of Funds to Pay Redevelopment Project Costs subheading, delete the entire subsection and replace with the following text:

Funds necessary to pay for Redevelopment Project Costs and secure municipal obligations issued for such costs are to be derived primarily from incremental property taxes. Other sources of funds that may be used to pay for Redevelopment Project Costs or secure municipal obligations are land disposition proceeds, state and federal grants, investment income, private financing, and other legally permissible funds the City may deem appropriate. The City may incur redevelopment project costs that are paid for from funds of the City other than incremental taxes, and the City may then be reimbursed from such costs from incremental taxes. Also, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers. Additionally, the City may utilize revenues, other than State sales tax increment revenues, received under the Act from one redevelopment project area for eligible costs in another redevelopment project area that is either contiguous to, or is separated only by a public right-of-way from, the redevelopment project area from which the revenues are received.

The RPA as Amended may become contiguous to or separated by only a public right-of-way from other redevelopment project areas created under the Act. The City may utilize net incremental property taxes received from the RPA as Amended to pay eligible redevelopment project costs, or obligations issued to pay such costs, in other contiguous redevelopment project areas or project areas separated only by a public right-of-way, and vice versa. The amount of revenue from the RPA as Amended, made available to support such contiguous redevelopment project areas, or those separated only by a public right-of-way, when added to all amounts used to pay eligible Redevelopment Project Costs within the RPA as Amended, shall not at any time exceed the total Redevelopment Project Costs described in this Plan.

The RPA as Amended may become contiguous to, or be separated only by a public right-of-way from, redevelopment project areas created under the Industrial Jobs Recovery Law (65 ILCS 5/11-74.6-1, et seq.). If the City finds that the goals, objectives and financial success of such contiguous redevelopment project areas or those separated only by a public right-of-way are interdependent with those of the RPA as Amended, the City may determine that it is in the best interests of the City and the furtherance of the purposes of the Plan that net revenues from the RPA as Amended be made available to support any such redevelopment project areas, and vice versa. The City therefore proposes to utilize net incremental revenues received from the RPA as Amended to pay eligible redevelopment project costs (which are eligible under the Industrial Jobs Recovery Law referred to above) in any such areas and vice versa. Such revenues may be transferred or loaned between the RPA as Amended and such areas. The amount of revenue from the Project Area so made available, when added to all amounts used to pay eligible Redevelopment Project Costs within the RPA as Amended or other areas as described in the preceding paragraph, shall not at any time exceed the total Redevelopment Project Costs described in Table 2 of this Plan.

Under Section 8, under the Nature and Term of Obligations to be Issued subheading, delete the subheading and replace with the following text:

Issuance of Obligations

Under Section 8, under the Most Recent Equalized Assessed Valuation subheading, delete the entire subsection and insert the following text:

Original Project Area

The initial equalized assessed valuation ("EAV") as certified by the Cook County Clerk of the Original 119th/I-57 RPA is \$16,097,672. This total EAV amount by PIN is summarized in Appendix D.

Expansion Area

The purpose of identifying the most recent EAV of the Expansion Area is to provide an estimate of the initial EAV which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV and incremental property taxes of the Project Area. The 2013 EAV of all taxable parcels in the 119th/I-57 RPA Expansion Area is approximately \$101,753,683. This total EAV amount by PIN is summarized in Appendix D. The EAV is subject to verification by the Cook County Clerk. After verification, the final figure shall be certified by the Cook County Clerk, and shall become the Certified Initial EAV from which all incremental property taxes in the RPA as Amended will be calculated by Cook County. If the 2014 EAV shall become available prior to the date of adoption of Amendment No. 1 by the City Council, the City may update the Plan by replacing the 2013 EAV with the 2014 EAV without further City Council action.

Under Section 8, under the Anticipated Equalized Assessed Valuation subheading, delete the entire subsection and insert the following text:

In 2026, the EAV for the RPA as Amended is projected to be approximately \$185 million. This estimate is based on several key assumptions, including an inflation factor of 2.0% per year on the EAV of all properties within the RPA as Amended, with its cumulative impact occurring in each triennial reassessment year, and an equalization factor of 2.6621 (2013).

Under Section 8, under the Financial Impact on Taxing Districts subheading, delete the entire subsection and replace with the following text:

The Act requires an assessment of any financial impact of the RPA as Amended on, or any increased demand for services from, any taxing district affected by the Plan (as defined on page 2 of Amendment No. 1) and a description of any program to address such financial impacts or increased demand. The City intends to monitor development in the RPA as Amended and with the cooperation of the other affected taxing districts will attempt to ensure that any increased needs are addressed in connection with any particular development.

The following taxing districts presently levy taxes on properties located within the RPA as Amended:

119th Street/I-57 Redevelopment Plan Amendment No. 1

- County of Cook
- Forest Preserve District of Cook County
- o City of Chicago
- City of Chicago Library Fund
- City of Chicago School Building and Improvement Fund
- Chicago Community College District 508
- Board of Education
- Chicago Park District
- Chicago Park District Aquarium and Museum Bonds
- Metropolitan Water Reclamation District of Greater Chicago
- South Cook County Mosquito Abatement District

Development of vacant sites with active and more intensive uses may result in additional moderate demands on services and facilities provided by the districts. At this time, no special programs are proposed for these taxing districts. Should demand increase, the City will work with the affected taxing districts to determine what, if any, program is necessary to provide adequate services.

This Plan is expected to have short- and long-term financial impacts on the affected taxing districts. During the period when tax increment financing is utilized, real estate tax increment revenues from the increases in EAV over and above the Certified Initial EAV (established at the time of adoption of the Plan) may be used to pay eligible redevelopment project costs for the RPA as Amended. At the time when the RPA as Amended is no longer in place as a TIF district under the Act, the real estate tax revenues resulting from the redevelopment of the RPA as Amended will be distributed to all taxing districts levying taxes against property located in the RPA as Amended. These revenues will then be available for use by the affected taxing districts. Successful implementation of the Plan is expected to result in new development and private investment on a scale sufficient to overcome blighted and conservation area conditions and substantially improve the long-term economic value of the RPA as Amended.

Section 9: Housing Impact Study

Under Section 9, delete the entire first paragraph and replace with the following text:

As set forth in the Act, if the redevelopment plan for a redevelopment project area would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and a municipality is unable to certify that no displacement will occur, the municipality must prepare a housing impact study and incorporate the study in the redevelopment project plan.

The Original Project Area contained 694 inhabited residential units at the time the Original Redevelopment Plan and Project was adopted. The Expansion Area contains 3,547 inhabited residential units. The Plan (as defined on page 2 of Amendment No. 1) provides for the development or redevelopment of several portions of the RPA as Amended that may contain occupied residential units. As a result, it is possible that by implementation of this Plan, the displacement of residents from inhabited residential units from the Original Project Area and/or

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 Redevelopment Plan Amendment No. 1

the Expansion Area could occur. A housing impact study has therefore been prepared for both the Original Project Area and, separately, the Expansion Area.

The results of the housing impact study for the Original Project Area are provided below. The results of the housing impact study for the Expansion Area are described in a separate report, which presents certain factual information required by the Act. The report, prepared by SB Friedman, is entitled "119th/I-57 Expansion Area Housing Impact Study," and is attached as Appendix F to this Plan.

Under Section 9, prior to the new fourth paragraph that begins "This Housing Impact Study", insert the following subheading:

HOUSING IMPACT STUDY: ORIGINAL PROJECT AREA

Under Section 9, under the HOUSING IMPACT STUDY: ORIGINAL PROJECT AREA subheading, in the first paragraph, replace the phrase "Project Area" with the following text:

"Original Project Area"

Under Section 9, under the HOUSING IMPACT STUDY: ORIGINAL PROJECT AREA subheading, in the first paragraph, replace the phrase "Plan" with the following text:

"Original Plan"

Under Section 9, under the PART I - HOUSING SURVEY subheading, replace all instances of the phrase "Project Area" with the following text:

"Original Project Area"

Under Section 9, under the PART I - HOUSING SURVEY subheading, in Tables 4 and 5, replace the phrase "Project Area" with the following text:

"Original Project Area"

Under Section 9, under the PART II - POTENTIAL HOUSING IMPACT subheading, replace all instances of the phrase "Project Area" with the following text:

"Original Project Area"

Under Section 9, under the PART II - POTENTIAL HOUSING IMPACT subheading, replace all instances of the phrase "Plan" with the following text:

"Original Plan"

Under Section 9, under the PART II - POTENTIAL HOUSING IMPACT subheading in the last paragraph, replace "119th Street/1-57 Redevelopment Project Area" with the following text:

"Original 119th/I-57 RPA"

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Redevelopment Plan Amendment No. 1

Section 10: Provisions for Amending the Plan

No changes.

Section 11: City of Chicago Commitment to Fair Employment Practices and Affirmative Action

Under Section 11, delete the entire section and replace with the following text:

The City is committed to and will affirmatively implement the following principles with respect to this Plan:

- A. The assurance of equal opportunity in all personnel and employment actions, with respect to the Redevelopment Project, including, but not limited to hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, sex, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income, or housing status.

Redevelopers must meet the City's standards for participation of 24% Minority Business Enterprises and 4% Woman Business Enterprises and the City Resident Construction Worker Employment Requirement as required in redevelopment agreements. This commitment to affirmative action and nondiscrimination will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.

- D. Redevelopers will meet City standards for any applicable prevailing wage rate as ascertained by the Illinois Department of Labor to all project employees.

The City shall have the right in its sole discretion to exempt certain small businesses, residential property owners and developers from the above.

APPENDICES

APPENDIX A: FIGURES 1-6 AND TABLE 9

Under Appendix A, under Figure 1: Project Area Boundary Map, delete the figure and replace with the enclosed new Figure 1: Project Area Boundary Map.

Under Appendix A, under Figure 2: Existing Land Use- North Area, change the name of the Figure to:

Figure 2: Existing Land Use: Original Project Area - North Area Under Appendix A, under Figure 2: Existing Land

Use- South Area, change the name of the Figure to:

Figure 2: Existing Land Use: Original Project Area - South Area

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 Redevelopment Plan Amendment No. 1

Under Appendix A, immediately following Figure 2: Existing Land Use: Original Project Area - South Area, insert the enclosed new Figure 2A: Existing Land Use: Expansion Area.

Under Appendix A, under Figure 3: Existing Zoning, change the name of the Figure to:

Figure 3: Existing Zoning: Original Project Area

Under Appendix A, replace Figure 4: Acquisition Map- North Area with the enclosed new Figure 4: Acquisition Map.

Under Appendix A, delete Figure 4: Acquisition Map- South Area.

Under Appendix A, replace Figure 5: Land Use Plan- North Area with the enclosed new Figure 5: Land Use Plan.

Under Appendix A, delete Figure 5: Land Use Plan- South Area.

Under Appendix A, under Figure 5: Land Use Plan, insert the following new figure:

Figure 6: Community Facilities

Under Appendix A, under Figure 6: Housing Impact Study Area Map - North Area, change the name of the Figure to:

Figure 7: Housing Impact Study Area Map - North Area

Under Appendix A, under Figure 6: Housing Impact Study Area Map - South Area, change the name of the Figure to:

Figure 7: Housing Impact Study Area Map - South Area

Under Appendix A, delete Table 9: Land Acquisition by Parcel Identification Number and Address and replace with the enclosed new Table 9: Land Acquisition by Parcel Identification Number and Address.

APPENDIX B: LEGAL DESCRIPTION

Under Appendix B, delete the entire appendix and replace with the enclosed Appendix B: Legal Description.

APPENDIX C: ORIGINAL PROJECT AREA ELIGIBILITY STUDY

No changes.

APPENDIX D: INITIAL EQUALIZED ASSESSED VALUE (EAV)

Under Appendix D, delete the entire appendix and replace with the enclosed Appendix D: Initial Equalized Assessed Value (EAV).

- 4) THENCE EAST ALONG SAID EASTERLY EXTENSION AND ALONG THE LINE 8 FEET NORTH OF AND PARALLEL WITH THE NORTH LINE OF LOT I IN MAPLE PARK COURT RESUBDIVISION AND ALONG THE EASTERLY EXTENSION THEREOF TO THE WESTERLY LINE OF THE PENN CENTRAL RAIL ROAD RIGHT-OF-WAY;
- 5) THENCE SOUTHEASTERLY ALONG SAID WESTERLY LINE OF THE PENN CENTRAL RAIL ROAD RIGHT -OF-WAY TO THE CENTER LINE OF 117th STREET;
- 6) THENCE WEST ALONG SAID CENTER LINE OF 117th STREET TO THE NORTHERLY EXTENSION OF THE CENTER LINE OF THE 16 FOOT ALLEY LYING EAST AND ADJOINING THE EAST LINE OF LOTS 12 THROUGH 35, INCLUSIVE, IN BLOCK 1 IN THE RESUBDIVISION OF THE EAST HALF OF ORIGINAL BLOCKS 8 AND 11 AND ALL OF THAT PART OF BLOCK 7, LYING WEST OF THE RIGHT OF WAY OF THE PITTSBURGH, CINCINNATI, CHICAGO & St. LOUIS RAILROAD IN ORIGINAL SUBDIVISION OF THE EAST HALF OF THE SOUTHEAST QUARTER OF SECTION 20, TOWNSHIP 37 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;
- 7) THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND ALONG SAID CENTER LINE OF THE 16 FOOT ALLEY AND ALONG THE SOUTHERLY EXTENSION THEREOF TO THE CENTER LINE OF 118th STREET;
- 8) THENCE EAST ALONG SAID CENTER LINE OF 118th STREET TO THE NORTHERLY EXTENSION OF THE EAST LINE OF THE ALLEY LYING EAST OF AND ADJOINING THE EAST LINE OF LOTS 1 THROUGH 15, INCLUSIVE, IN BLOCK 2 IN SAID RESUBDIVISION OF THE EAST HALF OF ORIGINAL BLOCKS 8 AND 11 AND ALL OF THAT PART OF BLOCK 7, LYING WEST OF THE RIGHT OF WAY OF THE PITTSBURGH, CINCINNATI, CHICAGO & St. LOUIS RAILROAD IN ORIGINAL SUBDIVISION OF THE EAST HALF OF THE SOUTHEAST QUARTER OF SECTION 20, TOWNSHIP 37 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;
- 9) THENCE SOUTH ALONG SAID NORTHERLY EXTENSION AND ALONG THE EAST LINE OF THE ALLEY LYING EAST OF AND ADJOINING THE EAST LINE OF LOTS 1 THROUGH 15, INCLUSIVE, IN BLOCK 2 IN SAID RESUBDIVISION AND ALONG THE SOUTHERLY EXTENSION THEREOF TO THE CENTER LINE OF THE ALLEY LYING SOUTH OF AND ADJOINING THE SOUTH LINE OF LOT 15 IN SAID BLOCK 2 IN THE RESUBDIVISION OF THE EAST HALF OF ORIGINAL BLOCKS 8 AND 11 AND ALL OF THAT PART OF BLOCK 7, LYING WEST OF THE RIGHT OF WAY OF THE PITTSBURGH, CINCINNATI, CHICAGO & St. LOUIS RAILROAD IN ORIGINAL SUBDIVISION OF THE EAST HALF OF THE SOUTHEAST QUARTER OF SECTION 20, TOWNSHIP 37 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;
- 10) THENCE WEST ALONG THE CENTER LINE OF SAID ALLEY LYING SOUTH OF AND ADJOINING THE SOUTH LINE OF LOT 15 IN BLOCK 2 IN SAID RESUBDIVISION TO THE CENTER LINE OF SANGAMON STREET;

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 RPA Amendment No. 1 Legal Description

- 11) THENCE NORTH ALONG SAID CENTER LINE OF SANGAMON STREET TO THE EASTERLY EXTENSION OF THE CENTER LINE OF THE ALLEY LYING NORTH OF AND ADJOINING THE NORTH LINE OF LOTS 19, 20 AND 21 IN BLOCK 3 IN SAID RESUBDIVISION OF THE WEST HALF OF BLOCKS 8 & 11 AND ALL OF BLOCKS 9 & 10, EXCEPT LOTS 19, 22, AND 23 OF BLOCK 10 OF THE ORIGINAL SUBDIVISION OF THE EAST HALF OF THE SOUTHEAST QUARTER OF SECTION 20, TOWNSHIP 37 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN;
- 12) THENCE WEST ALONG SAID CENTER LINE OF THE ALLEY LYING NORTH OF AND ADJOINING THE

- NORTH LINE OF LOTS 19, 20 AND 21 IN BLOCK 3 IN SAID RESUBDIVISION TO THE NORTHERLY EXTENSION OF THE WEST LINE OF SAID LOT 21 IN BLOCK 3 IN SAID RESUBDIVISION;
- 13) THENCE NORTH ALONG SAID NORTHERLY EXTENSION OF THE WEST LINE OF SAID LOT 21 TO THE SOUTH LINE OF LOT 18 IN BLOCK 3 IN SAID RESUBDIVISION;
- 14) THENCE WEST ALONG SAID SOUTH LINE OF LOT 18 AND ALONG THE WESTERLY EXTENSION THEREOF AND ALONG THE SOUTH LINE OF LOT 22 IN BLOCK 3 IN SAID RESUBDIVISION TO THE EAST LINE OF MORGAN STREET;
- 15) THENCE SOUTH ALONG SAID EAST LINE OF MORGAN STREET TO THE NORTH LINE OF 119th STREET;
- 16) THENCE EAST ALONG SAID NORTH LINE OF 119th STREET TO THE EAST LINE OF PEORIA STREET;
- 17) THENCE SOUTH ALONG SAID EAST LINE PEORIA STREET TO THE WESTERLY EXTENSION OF THE NORTHERLY LINE OF LOT 1 IN BLOCK 1 OF FIRST ADDITION TO WEST PULLMAN IN THE NORTHEAST QUARTER OF SECTION 29;
- 18) THENCE EASTERLY ALONG SAID WESTERLY EXTENSION OF THE NORTHERLY LINE OF LOT 1 IN BLOCK 1 OF FIRST ADDITION TO WEST PULLMAN TO THE NORTHWEST CORNER OF SAID LOT 1;
- 19) THENCE SOUTHERLY ALONG THE WESTERLY LINE OF LOTS 1 THROUGH 11, INCLUSIVE, IN SAID BLOCK 1 OF FIRST ADDITION TO WEST PULLMAN SUBDIVISION TO THE NORTH LINE OF 120th STREET;
- 20) THENCE SOUTHERLY TO THE NORTHWEST CORNER OF LOT 1 IN BLOCK 8 OF SAID FIRST ADDITION TO WEST PULLMAN SUBDIVISION;
- 21) THENCE SOUTHERLY ALONG THE WESTERLY LINE OF LOTS 1 THROUGH 18, INCLUSIVE, IN SAID BLOCK 8 TO THE SOUTHWEST CORNER OF SAID LOT 18;
- 22) THENCE SOUTHERLY A DISTANCE OF 25.00 FEET ALONG THE PROLONGATION OF THE LAST DESCRIBED COURSE;
- 23) THENCE 141 FEET, MORE OR LESS, WESTERLY TO THE EAST LINE OF VACATED GREEN STREET;
- 24) THENCE SOUTHERLY ALONG SAID EAST LINE OF VACATED GREEN STREET TO THE NORTHERLY RIGHT-OF-WAY LINE OF ILLINOIS CENTRAL RAILROAD;
- 25) THENCE WEST ALONG SAID NORTHERLY RIGHT-OF-WAY LINE OF ILLINOIS CENTRAL RAILROAD TO THE EAST LINE OF PEORIA STREET;
- 26) THENCE SOUTH ALONG SAID EAST LINE OF PEORIA STREET TO THE SOUTHERLY RIGHT-OF-WAY LINE OF THE ILLINOIS CENTRAL RAILROAD;
- 27) THENCE EAST ALONG SAID SOUTHERLY RIGHT-OF-WAY LINE OF THE ILLINOIS CENTRAL RAILROAD TO THE CENTER LINE OF THE ALLEY LYING WEST OF AND PARALLEL WITH HALSTED STREET;
- 28) THENCE SOUTH ALONG SAID CENTER LINE OF THE ALLEY LYING WEST OF AND PARALLEL WITH HALSTED STREET TO THE CENTER LINE OF W. 123rd STREET;

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/1-57 RPA Amendment No. 1 Legal Description

- 29) THENCE WEST ALONG SAID CENTER LINE OF W. 123rd STREET TO THE CENTER LINE OF S. ASHLAND AVENUE;
- 30) THENCE NORTH ALONG SAID CENTER LINE OF S. ASHLAND AVENUE TO THE CENTER LINE OF W. 119th STREET;
- 31) THENCE WEST ALONG SAID CENTER LINE OF W. 119th STREET TO THE WESTERLY PROPERTY LINE OF THE CHICAGO ROCK ISLAND AND PACIFIC RAILROAD COMPANY;
- 32) THENCE SOUTHWESTERLY ALONG SAID WESTERLY PROPERTY LINE TO THE SOUTHERLY RIGHT-OF-WAY LINE

- OF W. 119TH STREET;
- 33) THENCE CONTINUING SOUTHWESTERLY ALONG SAID WESTERLY PROPERTY LINE 482.86 FEET MORE OR LESS;
- 34) THENCE NORTHWESTERLY PERPENDICULAR TO THE LAST DESCRIBED COUSE, 305 FEET, MORE OR LESS;
- 35) THENCE NORTHEASTERLY, 448 FEET (MORE OR LESS) TO A POINT BEING 318.80 FEET WEST OF THE INTERSECTION OF THE WESTERLY PROPERTY LINE OF SAID CHICAGO ROCK ISLAND AND PACIFIC RAILROAD COMPANY AND THE SOUTHERLY LINE OF W. 119TH STREET;
- 36) THENCE CONTINUING NORTHEASTERLY AFOREMENTIONED CENTERLINE OF W. 119TH STREET;
- 37) THENCE WESTERLY ALONG SAID CENTER LINE OF W. 119TH STREET TO THE WESTERLY LINE OF THE CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD RIGHT-OF-WAY LINE;
- 38) THENCE NORTHERLY ALONG SAID WESTERLY LINE OF THE CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD RIGHT-OF-WAY LINE TO THE NORTH LINE OF SECTION 19, TOWNSHIP 37, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN,
- 39) THENCE EAST ALONG SAID NORTHERLY LINE OF SECTION 19 TO THE EASTERLY LINE OF THE CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD RIGHT-OF-WAY LINE;
- 40) THENCE SOUTHERLY ALONG SAID EASTERLY LINE OF THE CHICAGO, ROCK ISLAND AND PACIFIC RAILROAD RIGHT-OF-WAY LINE TO THE NORTH LINE OF W. 115TH STREET;
- 41) THENCE EAST ALONG SAID NORTH LINE OF W. 115TH STREET TO THE WEST LINE OF VINCENNES AVENUE;
- 42) THENCE NORTHERLY ALONG SAID WEST LINE OF VINCENNES AVENUE TO THE SOUTHERLY LINE OF W. 107TH STREET;
- 43) THENCE EASTERLY ALONG SAID SOUTHERLY LINE OF W. 107TH STREET TO THE EASTERLY LINE OF THE 1-57, DAN RYAN EXPRESSWAY;
- 44) THENCE SOUTHERLY ALONG SAID EASTERLY LINE OF THE 1-57, DAN RYAN EXPRESSWAY TO THE CENTERLINE OF W. 107TH PLACE;
- 45) THENCE EAST ALONG SAID CENTERLINE OF W. 107TH PLACE TO THE CENTERLINE OF RACINE AVENUE;
- 46) THENCE SOUTH ALONG SAID CENTERLINE OF RACINE AVENUE TO THE CENTERLINE OF W. IIITH STREET;
- 47) THENCE EAST ALONG SAID NORTH LINE OF W. IIITH STREET TO THE WESTERLY LINE OF THE PENN CENTRAL RAIL ROAD RIGHT-OF-WAY;
- 48) THENCE SOUTHEASTERLY ALONG SAID WESTERLY LINE OF THE PENN CENTRAL RAIL ROAD RIGHT-OF-WAY TO CENTERLINE OF W. 115TH STREET;
- 49) THENCE WEST ALONG SAID CENTERLINE OF W. 115TH STREET TO THE POINT OF BEGINNING, ALL IN COOK COUNTY, ILLINOIS.
- 50) EXCEPTING THEREFROM THAT PART DESCRIBED AS FOLLOWS: BEGINNING AT THE INTERSECTION OF THE NORTH LINE OF W. 119TH STREET, SAID NORTH LINE BEING A LINE 50

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/1-57 RPA Amendment No. 1 Legal Description

- FEET NORTH AND PARALLEL WITH THE CENTERLINE OF W. 119TH STREET AND THE EAST LINE OF S. RACINE AVENUE;
- 51) THENCE WEST ALONG SAID NORTH LINE TO THE WEST LINE OF S. RACINE AVENUE;
- 52) THENCE SOUTH ALONG SAID WEST LINE OF S. RACINE AVENUE TO THE NORTH LINE OF W. 119TH STREET, SAID NORTH LINE BEING A LINE 33 FEET NORTH AND PARALLEL WITH THE CENTERLINE OF W. 119TH STREET;
- 53) THENCE WEST ALONG SAID NORTH LINE OF W. 119TH STREET TO THE EAST LINE OF S. LOOMIS STREET;
- 54) THENCE NORTH ALONG SAID EAST LINE OF S. LOOMIS STREET TO THE SOUTH LINE OF W. 118TH STREET;
- 55) THENCE EAST ALONG SAID SOUTH LINE OF W. 118TH STREET TO A POINT BEING 111.91 FEET EAST OF THE

EAST RIGHT-OF-WAY LINE OF S. ELIZABETH STREET AS MEASURED ALONG SAID SOUTH LINE OF W. 118TH STREET, SAID POINT ALSO BEING ON THE WESTERLY RIGHT-OF-WAY LINE OF AN ABANDONED RAILROAD RIGHT-OF-WAY;

- 56) THENCE NORTHEASTERLY ALONG SAID WESTERLY RIGHT-OF-WAY OF AN ABANDONED RIGHT-OF-WAY TO A POINT ON THE EAST LINE OF A 16 FOOT WIDE ALLEY IN BLOCK 42 OF FREDERICK H. BARTLETT'S GREATER CALUMET SUBDIVISION OF CHICAGO, FIRST ADDITION, BEING A SUBDIVISION OF PART OF THE EAST EIGHTH OF THE SOUTHWEST QUARTER OF SECTION 20;
- 57) THENCE SOUTH ALONG SAID EAST LINE OF THE 16 FOOT WIDE ALLEY IN BLOCK 42 AFORESAID TO THE NORTH LINE OF 118TH STREET;
- 58) THENCE EAST ALONG SAID NORTH LINE OF W. 118TH STREET TO THE EAST LINE OF SAID ABANDONED RAILROAD RIGHT-OF-WAY;
- 59) THENCE SOUTH ALONG SAID EAST LINE OF THE ABANDONED RAILROAD RIGHT-OF-WAY TO THE SOUTH LINE OF W. 118TH STREET;
- 60) THENCE EAST ALONG SAID SOUTH LINE OF W. 118TH STREET TO THE EAST LINE OF S. RACINE AVENUE EXTENDED;
- 61) THEN NORTH ALONG SAID EAST LINE EXTENDED, 46.00 FEET;
- 62) THENCE EAST ALONG A LINE BEING PARALLEL WITH THE NORTH LINE OF W. 118TH STREET TO THE EAST LINE OF A 16 FOOT PUBLIC ALLEY IN BLOCK 29 OF FREDERICK H. BARTLETT'S GREATER CALUMET SUBDIVISION RECORDED AUGUST 21, 1925 AS DOCUMENT 9013114;
- 63) THENCE SOUTHERLY ALONG SAID EAST LINE TO THE EASTERLY EXTENSION OF THE SOUTH LINE OF LOT 3 IN SAID BLOCK 29;
- 64) THENCE WEST ALONG SAID EASTERLY EXTENSION AND THE SOUTH LINE OF SAID LOT 3 TO THE SOUTHWEST CORNER OF SAID LOT 3 BEING ALSO THE EAST LINE OF S. RACINE AVENUE;
- 65) THENCE SOUTH ALONG SAID EAST LINE OF S. RACINE AVENUE TO THE POINT OF BEGINNING, ALL IN THE CITY OF CHICAGO, COOK COUNTY, ILLINOIS.

SB FRIEDMAN [DEVELOPMENT ADVISORS

APPENDIX E

119th Street and 1-57 Redevelopment Project Area

Expansion Study Area Eligibility Study

Introduction

To induce redevelopment, pursuant to the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended from time to time (the "Act"), the City Council of the City of Chicago adopted three ordinances on November 6, 2002, approving the 119th Street/I-57 Redevelopment Project Area Tax Increment Financing Redevelopment Plan & Project (the "Original Plan"). This action designated the 119th/I-57 Redevelopment Project Area (the "Original Project Area" or the "Original 119th/I-57 RPA") as a redevelopment project area under the Act, and adopted tax increment allocation financing for the Original Project Area. The Original Plan was initially completed in August 2002 and revised in October 2002.

In order to address concerns about high rates of foreclosure and vacant land surrounding the Original 119th/I-57 RPA, as well as problems of deterioration and lack of development along commercial corridors, in 2014, the City of Chicago (the "City") began considering the expansion of the Original Project Area. Later that year, SB Friedman Development Advisors ("SB Friedman") was engaged by the City to conduct a study of certain properties adjacent to the Original 119th/I-57 RPA to determine whether these properties would qualify as a "blighted area" or a "conservation area" under the Act, in order

to be incorporated into the Original 119th/I-57 RPA. This Eligibility Study (or "report") details the eligibility factors found within the expanded study area (the "Expansion Study Area") in support of its designation as a "conservation area" as defined by the Act, and in support of its addition into the Original 119th/I-57 RPA. The proposed Expansion Study Area includes a mix of residential, commercial, industrial, institutional and vacant land uses (Map 1).

This report summarizes the analyses and findings of SB Friedman's work, which is the responsibility of SB Friedman. SB Friedman has prepared this report with the understanding that the City would rely: 1) on the findings and conclusions of this report in proceeding with the designation of the Expansion Study Area as a redevelopment project area under the Act; and 2) on the fact that SB Friedman has obtained the necessary information to conclude that the Expansion Study Area can be designated as a redevelopment project area in compliance with the Act.

Provisions of the Illinois Tax increment Redevelopment Act

Based upon the conditions found within the Expansion Study Area at the completion of SB Friedman's research, it has been determined that the Expansion Study Area meets the eligibility requirements of the Act as a "conservation area" for improved land. The following outlines the provisions of the Act to establish eligibility.

Under the Act, two primary avenues exist to establish eligibility for an area to permit the use of Tax Increment Financing for area redevelopment: declaring an area as a "blighted area" and/or a "conservation area."

"Blighted areas" are those improved or vacant areas with blighting influences that are impacting the public safety, health, morals or welfare of the community, and are substantially impairing the growth of the tax base in the area. "Conservation areas" are those improved areas that are deteriorating and declining and soon may become blighted if the deterioration is not abated.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

Map 1. Expansion Study Area

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

The statutory provisions of the Act specify how an area can be designated as a "conservation area" and/or "blighted area" district, based upon an evidentiary finding of certain eligibility factors listed in the Act.

According to the Act, "blighted areas" for improved land must have a combination of five (5) or more eligibility factors acting in concert, which threaten the health, safety, morals or welfare of the proposed district. "Conservation areas" must have a minimum of 50% of the total structures within the area aged 35 years or older, plus a combination of three (3) or more additional eligibility factors that are detrimental to public safety, health, morals or welfare, and which could result in such an area becoming a blighted area.

Factors for Improved Land

As stated, "blighted areas" must have a combination of five (5) or more of the eligibility factors listed below, and "conservation areas" must have a minimum of 50% of the total structures within the area aged 35 years or older, plus a combination of three (3) or more additional eligibility factors.

Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required, or the defects are so serious and so extensive that the buildings must be removed.

Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components, such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

Presence of Structures below Minimum Code Standards. All structures that do not meet the standards of zoning, subdivision, building, fire and other governmental codes applicable to property, but not including housing and property maintenance codes.

Illegal Use of Individual Structures. The use of structures in violation of the applicable federal, state or local laws, exclusive of those applicable to the "Presence of Structures below Minimum Code Standards."

Excessive Vacancies. The presence of buildings that are unoccupied or underutilized and that represent an adverse influence on the area because of the frequency, extent or duration of the vacancies.

Lack of Ventilation, Light or Sanitary Facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke or other noxious airborne materials. Inadequate natural light and ventilation means

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

the absence of skylights or windows for interior spaces or rooms, and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

Inadequate Utilities. Underground and overhead utilities, such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area; (ii) deteriorated, antiquated, obsolete or in disrepair; or (iii) lacking within the redevelopment project area.

Excessive Land Coverage and Overcrowding of Structures and Community Facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or

located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety; and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

Deleterious Land Use or Layout. The existence of incompatible land use relationships, buildings occupied by inappropriate mixed uses, or uses considered to be noxious, offensive or unsuitable for the surrounding area.

Environmental Clean-Up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by state or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

Lack of Community Planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan, or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning. .

Lack of Growth in Equalized Assessed Value. The total equalized assessed value of the proposed redevelopment project area has declined for three of the last five calendar years prior to the year in which the redevelopment project area is designated; or is increasing at an annual rate

SB FRIEDMAN | DEVELOPMENT ADVISORS 119th Street/I-57 Expansion Study Area Eligibility Study

that is less than the balance of the municipality for three of the last five calendar years for which information is available; or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for three of the last five calendar years prior to the year in which the redevelopment project area is designated.

Methodology Overview and Determination of Eligibility

Analysis of the eligibility factors was conducted through research involving: an exterior survey of the Expansion Study Area completed on December 23, 2014; review of building and property records, City of Chicago data portal records of building permits and code violations within the Expansion Study Area from 2010 through 2014, and equalized assessed value data from the Cook County Assessor's Office; and conversations with City staff. Our survey of the area established that there are a total of 4,678 parcels and 3,581 primary structures within the Expansion Study Area. Ancillary structures, such as garages, sheds and outbuildings, are not included in this total. The Expansion Study Area includes 172 tax blocks; excluding blocks located entirely within rights-of-way, there are 162 tax blocks in the Expansion Study Area.

The Expansion Study Area was examined for qualification factors consistent with either "blighted area" or "conservation area" requirements of the Act. SB Friedman concluded that the properties within the Expansion Study Area qualify for designation as a "conservation area" for improved land, based upon the presence to a meaningful extent of the eligibility

criteria as defined by the Act.

To arrive at this designation, SB Friedman analyzed the presence of eligibility factors on a building-by-building and/or parcel-by-parcel basis, and analyzed the distribution of factors on a block-by-block basis. When appropriate, we calculated the presence of eligibility factors on infrastructure and ancillary structures associated with the primary structures. The eligibility factors were correlated to buildings and/or parcels using aerial maps, Geographic Information Systems (GIS) data from the City and Cook County, parcel-level GIS files created from field observations, and record searches. This information was then graphically plotted on a tax parcel map of the Expansion Study Area to establish the distribution of eligibility factors, and to determine which factors were present to a major extent.

Conservation Area Findings

As required by the Act, in order to be designated as a "conservation area," at least 50% of the buildings within the Expansion Study Area must be 35 years old or older, and at least three (3) of 13 improved land eligibility factors must be found present to a meaningful extent, and reasonably distributed throughout the Expansion Study Area.

Based on information obtained from the Cook County Assessor's Office, SB Friedman has established that 3,187 of the 3,581 buildings within the Expansion Study Area (89.0%) are 35 years of age or older. Map 2 illustrates the spatial distribution of parcels on which buildings 35 years of age or older were identified.

In addition, SB Friedman's research indicates that the following four (4) factors for improved property are present to a major extent:

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/I-57 Expansion Study Area Eligibility Study

1. Lack of Growth in Equalized Assessed Value ("EAV")
2. Lack of Community Planning
3. Deleterious Land Use or Layout
4. Deterioration

Based on the presence of these factors, the Expansion Study Area meets the requirements of a "conservation area" for improved land under the Act.

Maps 3A through 3D on the following pages illustrate the presence and distribution of those eligibility factors found to be present to a major extent by highlighting each block where the respective factors were found to be present to a meaningful degree. The following sections summarize our field research as it pertains to each of the identified conservation area eligibility factors found within the Expansion Study Area.

Map_3D. Deterioration**119"1 Street/I-57 Expansion Study Area Eligibility Study****1. LACK OF GROWTH IN EQUALIZED ASSESSED VALUE**

The total equalized assessed value ("EAV") is a measure of the property value in a specified area. In order to qualify under this eligibility factor, the total EAV of the parcels in the Expansion Study Area, for at least three of the last five year-to-year periods prior to the year in which the amendment to the Original Plan is made, must have:

1. Increased at an annual rate that is less than the growth rate for the balance of the municipality;
2. Increased at an annual rate that is less than the Consumer Price Index (CPI) for All Urban Consumers; or
3. Declined.

The EAV history of all tax parcels in the Expansion Study Area was tabulated for the last six years (five year-to-year periods) for which assessed values and EAV are available. The most recent assessment year for which final information is available is 2013.

A lack of growth in EAV has been found for the Expansion Study Area in that EAV has declined during four of the last five year-to-year periods. The basis for this finding is summarized in Table 1. In addition, the growth rate in four of the past five year-to-year periods has been slower than the rate of growth for the Consumer Price Index (CPI). Lack of growth in EAV is one of the strongest indicators that an area as a whole has been falling into a state of decline. Therefore, this factor is found to be meaningfully present and reasonably distributed throughout the Expansion Study Area.

Table 1. Percent Change in Annual EAV and Qualifying Periods [1]

Source: Cook County Assessor's Office, Bureau of Labor Statistics, SB Friedman Development Advisors.

2. LACK OF COMMUNITY PLANNING

Lack of community planning is an area-wide factor not necessarily attributable to any one parcel. According to the Act, to demonstrate a lack of community planning, both of the following two conditions must be met:

- The area must have been developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan, or that the plan was not followed at the time of the area's development.
- This factor must be documented by evidence of adverse or incompatible land use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

contemporary development standards, or other evidence demonstrating an absence of effective community planning.

The Expansion Study Area meets the first condition described above. The Expansion Study Area lies within the Morgan Park community area north of 115th Street and the West Pullman community area south of 115th Street. Morgan Park was initially incorporated as the Village of Morgan Park in 1882, and much of the area was developed prior to its annexation by the City of Chicago in 1914. West Pullman was initially settled in the 1830s and was subject to rapid growth following the opening of the Illinois Central and Michigan Central Railroad station and the development of the Pullman Palace Car Works in the 1850s. The City has not been able to provide a comprehensive plan for the Village of Morgan Park, and did not adopt a zoning ordinance outlining appropriate land uses until 1923. Therefore, the initial subdivision and development of the Expansion Study Area occurred without the benefit or guidance of a comprehensive or other community plan.

A lack of community planning continued to impact the Expansion Study Area through the twentieth century, and no community plan currently serving the area has been identified. The lack of community planning within the Expansion Study Area is documented by evidence including inadequate street layout, improper subdivision and incompatible land use relationships.

Inadequate Street Layout. The construction of at-grade railroads throughout the Expansion Study Area, as well as the construction of Interstate 57 ("I-57") in the 1960s, disrupted the established street grid, creating a series of barriers to movement within and through the Expansion Study Area, causing isolation in the residential neighborhoods, and resulting in inadequate street layout throughout the Expansion Study Area. The large industrial and institutional parcels along W. 119th Street and W. 120th Street further disrupt the street grid and restrict the flow of traffic through the Expansion Study Area.

Improper Subdivision. Many (166, or 3.5%) parcels within the Expansion Study Area are actually in the I-57 right-of-way. These parcels were originally subdivided as residential parcels. Following the construction of I-57, they have not been re-platted to align with the rights-of-way, which results in disrupted and partial blocks of residential development.

Incompatible Land Use Relationships. The prevalence of railroad and interstate rights-of-way throughout the Expansion Study Area, and the presence of industrial uses within and adjacent to residential neighborhoods, constitute an incompatible land use relationship and disrupt the primarily residential neighborhoods within the Expansion Study Area.

Therefore, this factor is found to be meaningfully present and reasonably distributed throughout the Expansion Study Area.

3. DELETERIOUS LAND USE OR LAYOUT

According to the Act, deleterious land use or layout consists of the existence of any of the following conditions:

- Incompatible land use relationships;
- Buildings occupied by inappropriate mixed uses; or
- Uses considered to be noxious, offensive or unsuitable for the surrounding area.

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th Street/I-57 Expansion Study Area Eligibility Study

Based on the field survey and City of Chicago data portal Code Violation data, SB Friedman has identified the following conditions of deleterious land use or layout within the Expansion Study Area.

Incompatible Land Use Relationships. As outlined above, the Expansion Study Area has a number of incompatible land use relationships, including an interstate highway and several railroad rights-of-way that bisect and disrupt residential neighborhoods. In addition, a number of industrial properties, including a solar panel array, located south of 119th Street, create barriers within the neighborhood and are not compatible with the adjacent residential uses. This is a condition that 72 out of 162 non-right-of-way blocks within the Expansion Study Area (44.4%).

Uses Considered to be Noxious, Offensive or Unsuitable for the Surrounding Area. SB

Friedman's field survey and Code Violation data from the City of Chicago indicate the presence of offensive uses or uses unsuitable for the surrounding residential area throughout the Expansion Study Area, including illegal dumping of litter and trash, abandoned properties, the presence of junk cars or cars parked illegally on unpaved surfaces, and other offensive uses. Based on this data, SB Friedman found that the presence of uses considered to be noxious, offensive or unsuitable impacts 68 out of 162 non-right-of-way tax blocks within the Expansion Study Area (42.0%). For the purposes of this study, a block is considered to be affected by uses considered noxious, offensive or unsuitable if such uses are present on two or more parcels on that block.

Overall, evidence of deleterious land use or layout was documented on 107 of 162 non-right-of-way tax blocks (66.0%) within the Expansion Study Area, and is therefore present to a meaningful extent. This factor is reasonably distributed throughout the Expansion Study Area.

4. DETERIORATION

According to the Act, deterioration is present under the following conditions:

- With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia.
- With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

SB Friedman conducted a field survey of parcels within the Expansion Study Area. The survey, completed on December 23, 2014, identified the presence of deterioration of buildings, private surfaces and storage areas (including sheds and

garages), and public surfaces throughout the Expansion Study Area. We found that 141 out of 162 tax blocks (87.0%) are affected by deterioration of property improvements, including vertical structures and surfaces. In addition, 129 out of 162 tax blocks (79.6%) are affected by deterioration of public infrastructure, including roadways, alleys, curbs, gutters and sidewalks. For the purposes of this study, a block is considered to be affected by deterioration if two or more parcels on that block show signs of deterioration. In total, 145 out of 162 tax blocks (89.5%) exhibited signs of deterioration of either on-site improvements or adjacent rights-of-way.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119" Street/I-57 Expansion Study Area Eligibility Study

Therefore, this factor is found to be meaningfully present and reasonably distributed throughout the Expansion Study Area.

Other Required Findings and Tests

In addition to establishing eligibility, per the Act, the City is required to make a series of other findings. LACK OF

GROWTH AND PRIVATE INVESTMENT

The City is required to determine that the Expansion Study Area has not been subject to growth and development from private investment through private enterprise prior to establishing or amending a TIF district. As outlined in the preceding sections and shown in Table 2, the Expansion Study Area's parcels have declined in EAV for four of the last five year-to-year periods, and have lagged behind CPI growth in four of the last five year-to-year periods. In addition, growth in EAV for the Expansion Study Area lagged CPI and citywide EAV growth over the period. The overall Compound Annual Growth Rate (CAGR) for the Expansion Area was -6.9%, compared with -6.4% for the balance of the city and 1.1% growth in CPI. Lack of growth in EAV is one of the strongest indicators that an area is suffering from decline and a lack of private investment.

Table 2. Percent Change in Annual EAV

	Year-to-Year Period 2009 - 2010 20: 2012 - 2013			
	2011 2011 - 2012			
Amendment Area Parcels	-2.7%	-9.9%	-18.4%	-5.7%
Consumer Price Index (-1.2%)	1.4%	2.7%	1.5%	1.1%
Decline in EAV	NO	YES	YES	YES
Slower Growth than CPNO	YES	YES	YES	YES

[1] Consumer Price Index for the Chicago-Gary-Kenosha, IL-IN-WI Metropolitan Area

Source: Cook County Assessor's Office, Bureau of Labor Statistics, SB Friedman Development Advisors.

Building permit activity over the past five years indicates some investment in the Expansion Study Area, generally for minor improvements, such as re-roofing a residential structure or conducting repairs to existing structures. In general, there has been a lack of private investment in new construction activity in the Expansion Area over the same period. Table 3 summarizes building permit activity within the Expansion Area over the past five years. SB Friedman has identified three private more substantial recent investments in the Expansion Study Area that have occurred in recent years:

- According to the City's building permit data, a small industrial structure that is part of the Exelon City Solar array on 119th Street was constructed at a cost of approximately \$834,000 in 2011. Installation of the 10-megawatt 41-acre solar photovoltaic array was completed in 2010 upon land leased from the City. According to information provided by the City's Department of Planning and Development, the terms of Exelon Solar Chicago LLC's ground lease with the City reflect a lease rate approximately 40% below the appraised market lease rate. In addition, the City invested in remediating environmental contamination from earlier manufacturing uses prior to execution of the lease agreement. Though the project represents a significant investment within the Expansion Study Area, it is likely that the project would not have occurred without public assistance, including the City's below-market lease rate, environmental remediation of

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

the site, a loan guarantee from the U.S. Department of Energy, and federal investment tax credits. Under the terms of the City lease, Exelon Solar Chicago LLC is required to install additional solar photovoltaic power systems on the rooftops of public schools, non-profit facilities, and/or low-income apartment or condominium buildings in the neighborhood, and provide educational visits to the site.

- The Mifab distribution facility at 1321 W. 119th Street, which was constructed in 2006, according to the City of Chicago data portal and Cook County property records, was rehabilitated under two building permits issued in 2010 and 2011, each for \$100,000, as shown in Table 3 below. Both permits were related to interior alterations and the relocation of equipment within the building. The scope of reinvestment in this building was relatively minor.
- According to City of Chicago data portal data, \$3.5 million in building permits were issued in 2012 and 2013 for expansion of the Maruichi Leavitt Pipe & Tube industrial facility at 1900 West 119th Street. Building permits associated with the project indicate construction of a building addition and preparation of new foundations for industrial equipment.

Despite these investments, the majority of building permit activity within the past five years consisted of relatively minor repairs and renovations to existing structures. On a per-parcel basis, the total private investment in new construction, repairs and renovations over the past five years totals approximately \$1,600. This reflects a minimal level of private investment, and almost no new private development. In addition, this level of investment has not been significant enough to reverse the trends of declining property values.

Table 3. Expansion Study Area Building Permit Activity, 2010 - 2014 [1]

Estimated Project Cost	2010	2011	2012	2013	2014	Total
New Construction Industrial		\$873,970		\$0	\$1,000,000	\$2,500,000
Renovations (\$50,000 or more)						
Commercial				\$0	\$275,000	\$0
\$0 \$55,000 Industrial		\$100,000	\$100,000	\$0	\$0	\$0
\$0 \$127,300	\$0	\$158,500	\$167,845			
Minor Repairs and Renovations (Primarily Residential)				\$10,000 - \$50,000	\$286,302	
\$327,019	\$107,546	\$284,049	\$253,060	Less than \$10,000	\$144,908	\$70,138
\$85,407	\$71,441	\$140,238				
Total Private Investment per Parcel		\$312	\$200	\$265	\$669	\$137 [2]
						\$1,581

Source: City of Chicago Data Portal, SB Friedman Development Advisors. [1] Excludes building permit activity undertaken by public entities. [2] Out of 4,508 non-right-of-way parcels.

Foreclosure activity within the vicinity of the Expansion Study Area may further underscore a lack of private investment in properties within the area. As of December 2014, the foreclosure rate in the 60643 zip code, which encompasses the Expansion Study Area and the Original RPA, was 0.35%,

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

compared with 0.16% for the City as a whole, according to RealtyTrac data. RealtyTrac presents the overall foreclosure rate as a combination of foreclosure filings, auctions and real-estate owned (REO) transactions. Pre-foreclosures accounted for 28.6% of all foreclosures within this zip code, compared with 25.2% of all foreclosures citywide. This may indicate that the foreclosure rate will rise in the zip code in the future as the foreclosure process proceeds.

The Woodstock Institute compiles foreclosure data by community area in the City, providing insight into trends in foreclosures during and after the recession. The Expansion Study Area includes portions of the Morgan Park and West Pullman community areas. Within both community areas, new foreclosure filings have fluctuated over the past five years, generally mirroring citywide trends. RealtyTrac data indicate that new foreclosure filings in the 60643 zip code increased 27% from December 2013 to December 2014, and declined 9% citywide during the same period. Therefore, there appears to be a degree of instability, as well as a relatively high foreclosure rate within the areas around the Expansion Study Area. During the course of identifying owner of record information within the Expansion Study Area, SB Friedman's subconsultant identified 33 properties within the area that were owned by financial institutions as a result of foreclosure, as of January 2015. A high rate of foreclosure activity within and around the Expansion Study Area may indicate a lack of private investment and may also discourage future development activity.

"BUT FOR" ANALYSIS

The City is required to find that, but for the designation of the redevelopment project area and the use of Tax Increment Financing, the Expansion Study Area would not reasonably be anticipated to be developed by private investment.

The overall lack of growth and private investment within the Expansion Study Area is likely to continue as problems of lack of growth in property values, deterioration, deleterious land use and layout, and lack of community planning remain. Without the support of public resources, the area-wide improvements and development assistance needed to prevent blight, and redevelop and revitalize the Expansion Study Area are unlikely to occur. Tax Increment Financing would provide the City with a source of funds to pay for infrastructure improvements and attract private investment to the Expansion Study Area.

CONFORMANCE TO THE PLANS OF THE VILLAGE

Under the Act, future land uses identified in the Redevelopment Project and Plan must conform to the comprehensive plan for the City, conform to the strategic economic development plans, or include land uses that have been approved by the Chicago Plan Commission.

The amended Redevelopment Plan and Project is expected to propose land uses that will be approved by the Chicago Plan Commission prior to its adoption by the City Council.

CONTIGUITY OF PARCELS AND BENEFIT FROM TIF DISTRICT DESIGNATION

The City must also find that the redevelopment project area includes only those contiguous parcels that are expected to substantially benefit from the designation of a TIF district.

All parcels within the Expansion Study Area are contiguous with the Original 119th Street/I-57 Redevelopment Project Area. Expansion of the Original 119th/I-57 RPA will provide additional funding

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th Street/I-57 Expansion Study Area Eligibility Study

sources to the City to address the factors qualifying the area for "conservation area" designation, including deleterious land use and layout, deterioration, and the lack of community planning. Four eligibility factors for improved land were found to be reasonably distributed throughout the Expansion Study Area; expansion of the Original 119th/I-57 RPA and the amended Redevelopment Plan and Project is expected to benefit all parcels in the proposed Expansion Study Area.

Conclusions

Based on the research and analyses described above, SB Friedman concludes that the Expansion Study Area would qualify for TIF designation under the Act as an "improved conservation area." Eligibility of the Expansion Study Area is based on the fact that over 50% of the buildings are 35 years of age or older, and the following factors are meaningfully present and reasonably distributed throughout the Expansion Study Area:

- Lack of Growth in EAV;
- Lack of Community Planning;
- Deleterious Land Use or Layout; and
- Deterioration.

SB FRIEDMAN | DEVELOPMENT ADVISORS

APPENDIX F

119th Street and I-57 Redevelopment Project Area

119 /I-57 Expansion Area Housing Impact Study

Introduction

SB Friedman Development Advisors {"SB Friedman"} conducted a housing impact study for the 119ⁿ Street/I-57 RPA Expansion Area as set forth in the Tax Increment Allocation Redevelopment Act 65 ILCS 5/74.4-1 et seq. (the "Act"). The Act, as amended, states that, if the redevelopment plan for a redevelopment project area would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and the City is unable to certify that no displacement of residents will occur, the municipality shall prepare a housing impact study and incorporate the study in the separate feasibility report required by subsection (a) of Section 11-74.4-5(A), which for the purposes hereof shall also be called the "119th Street/I-57 Redevelopment Project and Plan, as Amended," or the "Redevelopment Plan."

The primary goals of the Redevelopment Plan include encouraging new commercial development, improving public facilities and amenities, and encouraging development or rehabilitation of affordable and market-rate housing. It is not the City's intent to displace existing residential units, and it is unlikely that any inhabited residential units will be removed. However, since the 119th Street/I-57 RPA Expansion Area (the "Expansion Area") contains more than 75 inhabited residential units and future redevelopment activity could conceivably result in the removal of inhabited residential units over the remaining 12-year life of the RPA (as amended), a housing impact study is required.

Components of the Housing Impact Study

PART I: HOUSING SURVEY

As set forth in the Act at 65 ILCS 5/11-74.4-3(N)(5), Part I of the housing impact study shall include:

- i) Data as to whether the residential units are single-family or multi-family units;
- ii) The number and type of rooms within the units, if that information is available;
- iii) Whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 of the Act is passed; and
- iv) Data as to the racial and ethnic composition of the residents in the inhabited residential units, which data requirement shall be deemed to be fully satisfied if based on data from the most recent federal census.

PART II: POTENTIAL HOUSING IMPACT

Part II of the housing impact study identifies the inhabited residential units in the proposed redevelopment project area

that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify:

- i) The number and location of those units that will be or may be removed;
- ii) The municipality's plans for relocation assistance for those residents in the proposed

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

redevelopment project area whose residencies are to be removed;

- iii) The availability of replacement housing for those residents whose residences are to be removed, and identification of the type, location and cost of the replacement housing; and
- iv) The type and extent of relocation assistance to be provided.

Part I: Housing Survey

(I) NUMBER AND TYPE OF RESIDENTIAL UNITS

The number and type of residential buildings in the Expansion Area was identified during the building condition and land use survey, conducted as part of the eligibility analysis for the Expansion Area. This survey, completed on December 23, 2014, indicated that the 119th Street/I-57 RPA Expansion Area contains 3,519 residential buildings comprising a total of 3,675 residential units. The number of existing residential units by building type is illustrated in Table 1 below.

Table 1. Residential Units within the Expansion Area [1]

Residential Buildings		Units
Single-Family	3,427	3,427
Two-, Three- and Four-Unit	92	248
Multi-Unit Buildings (5+ Unit)	0	0
Single-Room Occupancy	0	0
Total	3,519	3,675

Source: SB Friedman Development Advisors. [1] As of December 23, 2014.

(II) NUMBER AND TYPE OF ROOMS WITHIN UNITS

In order to describe the distribution of residential units by number and type of rooms within the Expansion Area, SB Friedman analyzed 2013 American Community Survey five-year estimates for census tracts that overlap the Expansion Area. These estimates show the distribution of units by the number of rooms within each unit and by the number of bedrooms within each unit. The distribution of apartment sizes and bedroom types within these census tracts was then applied to the total number of units in the Expansion Area identified by the survey. This is a reasonable estimate of the actual housing units within the Expansion Area, particularly due to the limited redevelopment and new construction within the Expansion Area in recent years. The estimated distribution of units by number of rooms and number of bedrooms is

summarized in Table 2 and Table 3 on the following page.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

Table 2. Housing Units by Number of Rooms

1 room	43	1.2%
2 rooms	36	1.0%
3 rooms	53	1.4%
4 rooms	256	7.0%
5 rooms	900	24.5%
6 rooms	1,083	29.5%
7 rooms	636	17.3%
8 rooms	325	8.8%
9+ rooms	344	9.4%
Total [1]	3,675	100.0%

Table 3. Housing Units by Number of Bedrooms

. Number of ' Units		! Percent
No bedroom	43	1.2%
1 bedroom	164	4.5%
2 bedrooms	682	18.6%
3 bedrooms	1,824	49.6%
4 bedrooms	753	20.5%
5+ bedrooms	209	5.7%
Total [1]	3,675	100.0%

Source: 2013 American Community Survey Estimates, SB Friedman Development Advisors. [1] Total may not equal sum of components due to rounding.

(III) NUMBER OF INHABITED UNITS

According to the survey completed by SB Friedman on December 23, 2014, the Expansion Area contains an estimated 3,675 residential units, of which 128 (3.5%) were abandoned, boarded up, or appeared to be vacant, and 3,547 appeared to be occupied or the occupancy status could not be verified visually based on exterior conditions. As required by the Act, this information was ascertained as of December 23, 2014, which is a date not less than 45 days prior to the date that the resolution required by subsection (a) of Section 11-74.4-5 of the

Act was, or will be, passed (the resolution setting the public hearing and Joint Review Board meeting dates). According to 2013 American Community Survey (ACS) estimates, the census tracts that overlap the Expansion Area have an overall residential vacancy rate of 13.7%. Based on the ACS estimate, there are approximately 505 vacant units and 3,170 total inhabited units within the Expansion Area.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

(IV) RACE AND ETHNICITY OF RESIDENTS

According to Esri, a national provider of demographic data, there were an estimated 10,008 residents living within the boundaries of the Expansion Area in 2014. The racial and ethnic composition of these residents is described in Table 4, per Esri estimates.

Table 4. Race and Ethnicity of Residents in the Expansion Area, 2014

Black Alone	9,688	96.8%
White Alone	83	0.8%
American Indian/Alaska Native Alone	20	0.2%
Asian Alone	11	0.1%
Pacific Islander Alone	4	0.0%
Other Race	63	0.6%
Two or More Races	139	1.4%
Total, All Races [1]	10,008	100.0%
Hispanic Origin (Any Race)	180	1.8%

Source: Esri Business Analyst, SB Friedman Development Advisors. [1] Total
may not equal sum of components due to rounding.

In addition, the distribution of moderate-, low-, very low- and extremely low-income households residing in the Expansion Area was estimated using data provided by Esri. As determined by the United States Department of Housing and Urban Development ("HUD"), the definitions of the above-mentioned income categories, adjusted for family size, are as follows:

- An extremely low-income household has an adjusted income of less than 30% of the Area Median Income ("AMI");
- A very low-income household earns between 30% and 50% of the AMI;
- A low-income household earns between 50% and 80% of the AMI; and
- A moderate-income household earns between 80% and 120% of the AMI.

The estimated distribution of households by income category is summarized in Table 5 on the following page.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

Table 5. Income Level of Households within the Expansion Area, 2014

	Number of Households	Percent of Households	Household Income Range (3-Person Household) [1]
Extremely Low (up to 30% AMI)	735	21.9%	\$0 - \$19,560
Very Low (30% - 50% AMI)	640	19.0%	\$19,561 - \$32,600
Low (50%-80% AMI)	729	21.7%	\$32,601 - \$52,150
Moderate (80% -120% AMI)	667	19.8%	\$52,151 - \$79,500
Over 120% AMI	592	17.6%	\$79,501 +
Total	3,363

[1] Based on typical household size and 2014 area median income from Chicago Housing Authority.

Part II: Potential Housing Impact

(I) NUMBER AND LOCATION OF UNITS TO BE REMOVED

The primary goals of the Redevelopment Plan include encouraging new commercial development, improving public facilities and amenities, and increasing affordable housing. Thus, it is unlikely that displacement of inhabited residential units will take place. However, it is conceivable that during the remaining 12-year life of the RPA, some displacement may occur that is not anticipated at this time. Therefore, SB Friedman employed the following three-step methodology to estimate the number of inhabited units that could potentially be removed due to redevelopment or new development over the remaining 12-year life of the 119th Street/I-57 RPA, as amended.

1. Step one counts all inhabited residential units identified on any acquisition lists or maps that are included in the Expansion Area. The acquisition list included in the 119th/I-57 Redevelopment Plan and Project includes only vacant land. Therefore, it was assumed that no inhabited residential units are likely to be removed due to City acquisitions.
2. Step two counts the number of inhabited residential units located in buildings that are dilapidated or seriously deteriorated, as defined by the Act. A survey of the Expansion Area completed in December 2014 identified no inhabited buildings that were dilapidated or seriously deteriorated. Therefore, it is assumed that no residential units may be removed due to demolition or rehabilitation of dilapidated or seriously deteriorated buildings.
3. Step three counts the number of inhabited residential units that exist where the future land use indicated by the Redevelopment Plan will not include residential uses. The future land use plan for the Expansion Area does not

anticipate any land use changes in existing residential areas. Therefore, the number of inhabited residential units that may be removed due to future land use change is zero.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

SB Friedman has identified all of the inhabited units that meet the criteria described above in order to arrive at a reasonable projection of the total number of inhabited residential units that may be removed as a result of redevelopment projects that are undertaken in accordance with the Redevelopment Plan. Though the analysis described above suggests that no inhabited residential units are likely to be removed, not all future development activity through 2026 can be anticipated. Therefore, SB Friedman has conducted the remainder of Part II of the housing impact study, though no inhabited residential units are expected to be removed.

Based on the income distributions in the Expansion Area, it is reasonable to assume that approximately 82.4% of households that may be displaced from the Expansion Area during the remaining life of the RPA are of moderate, low, very low, or extremely low income. However, it is possible that up to 100% of potentially displaced households lie within these income brackets. Part II, subpart (III) of this section discusses in detail the availability of replacement housing for households with moderate to extremely low incomes.

II) RELOCATION PLAN

The City's plan for relocation assistance for those qualified residents in the Expansion Area whose residences may be removed shall be consistent with the requirements set forth in Section 11-74.4-3(N)(7) of the Act. The terms and conditions of such assistance are described in subpart (IV) below. No specific relocation plan has been prepared by the City as of the date of this report.

III) REPLACEMENT HOUSING

In accordance with Subsection 11-74.4-3(N)(7) of the Act, the City shall make a good faith effort to ensure that affordable replacement housing located in or near the Expansion Area is available for any qualified displaced residents.

To promote development of affordable housing, the Redevelopment Plan requires that developers who receive Tax Increment Financing assistance for market-rate housing are to set aside at least 20% of the units to meet affordability criteria established by the City's Department of Planning and Development. Generally, this means that income-restricted rental units should be affordable to households earning no more than 60% of the Area Median Income (adjusted for family size), and for-sale units should be affordable to households earning no more than 100% of Area Median Income. If, during the remaining 12-year life of the 119th Street/I-57 RPA (as amended), the acquisition plans change, the City shall make every effort to ensure that appropriate replacement housing will be found in the Redevelopment Project Area or the surrounding Morgan Park, West Pullman, Roseland, Washington Heights and Beverly community areas.

In order to determine the availability of replacement housing for those residents who may potentially be displaced by redevelopment activity, SB Friedman examined several data sources, including vacancy data from the American Community Survey, and housing sales and rental listings data from the Multiple Listing Service ("MLS") of Northern Illinois, Craigslist, and Apartments.com <<http://Apartments.com>>.

Vacancy Data

According to the 2013 American Community Survey (ACS) five-year estimates, the five census tracts surrounding and encompassing the Expansion Area (the "Expansion Area Census Tracts") contained

SB FRIEDMAN | DEVELOPMENT ADVISORS

119th/I-57 RPA Amendment No. 1

7,892 housing units, of which 1,084 (13.7%) were vacant. According to the ACS data, approximately 191 of these vacant units were for-sale or for-rent, and 154 were rented or sold but unoccupied. Table 6 shows the distribution of vacant residential units in the Expansion Area by vacancy status, using the ACS distribution data, compared to the vacancy rates in the City of Chicago as a whole.

The overall rate of residential vacancy in the Expansion Area Census Tracts is slightly lower than that of the City. Approximately 2.4% of units within the Expansion Area Census Tracts (88 units) are vacant and awaiting rental or sale, suggesting that a sufficient supply of replacement rental and for-sale housing exists in the census tracts surrounding the Expansion Area. An additional 9.4% of units (345 units) labeled as Other Vacant in the ACS data may have been undergoing renovation, repair or foreclosure at the time of the ACS estimate, and could also be available for occupancy in the future.

Table 6. Vacant Units by Vacancy Status

	Expansion Area Census Tracts	City of Chicago
Total Units	3,675	1,192,790
Vacant Units	505	164,044
Vacancy Status as a Percent of Total Units:		
For Rent	1.1%	3.9%
For Sale	1.3%	1.4%
Rented/Sold, not Occupied	2.0%	0.8%
Seasonal/Recreational/Occasional/Migrant	0.0%	1.0%
Other Vacant	9.4%	6.6%
Overall Vacancy Rate	13.7%	13.8%

Source: 2013 American Community Survey Estimates, SB Friedman Development Advisors.

Replacement Rental Housing

According to information from the City of Chicago, there are no current projects located within the Expansion Area that will result in a loss of housing units. However, the possibility remains that some existing units may be removed in the future as a result of redevelopment activity over the remaining 12-year life of the RPA. Therefore, SB Friedman has defined a sample of possible replacement rental housing units located within the Morgan Park, West Pullman, Roseland, Washington Heights and Beverly community areas. This sample is based on MLS data for January 2015, including active listings and units rented within the past 12 months, as well as active listings found on Craigslist and Apartments.com <<http://Apartments.com>>. Table 7 summarizes these residential rental listings as well as the City of Chicago maximum affordable monthly rents for 2014.

Source: MLS of Northern Illinois, Craigslist, Apartments.com <<http://Apartments.com>>, Chicago Housing Authority, SB Friedman Development Advisors.

Overall, the sample indicates that there is an inventory of available rental housing that is affordable to very-low, low- and moderate-income households of varying sizes. However, market-rate rental units within these community areas may not be affordable to extremely low-income households without additional rental assistance.

To evaluate the availability of housing affordable to extremely low-income households within and around the Expansion Area, SB Friedman considered the presence of subsidized and income-restricted housing developments in this area. According to data provided by the Illinois Housing Development Authority ("IHDA"), there are at least 1,503 units of income-restricted housing in the community areas adjacent to the Expansion Area, including at least 165 family units, 880 units of supportive housing for low-income adults, and 458 affordable age-restricted units. In addition, Section 8 vouchers appear to be accepted at many of the market-rate apartments identified in Table 7 and Table 8, based on information in rental listings.

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

Replacement For-Sale Housing

In order to determine the availability of replacement for-sale housing for those homeowners who may potentially be displaced, SB Friedman reviewed MLS of Northern Illinois data, which lists many of the currently active for-sale properties in the Northern Illinois region, as well as historical data on housing sales within the region. Table 9 summarizes housing sales for detached and attached (condominium and townhome) residential units within the Morgan Park, West Pullman, Roseland, Washington Heights and Beverly community areas over the past 24 months. The number of units recently sold in or near the Expansion Area may indicate that there is sufficient market activity to accommodate potentially displaced homeowners.

Table 9. Completed Sales of Single-Family Housing in/near the Expansion Study Area

Completed Sales, Past 24 Months		Detached	Attached
Number of Sales	2,162	89	
Median Sale Price	\$51,980	\$34,000	

Source: MLS of Northern Illinois, SS Friedman Development Advisors.

In addition, SB Friedman compiled MLS data on properties that are currently listed for sale in the same community areas identified above. Table 10 summarizes these active listings and their asking prices.

Table 10. Active Listings of For-Sale Single-Family Housing in/near the Expansion Area

Price Range	: Currently Active Properties	
	[I] Detached	Attached
Less than \$50,000	124	10
\$50,000 - \$99,999	131	10

\$100,000-\$149,999	105	10
\$150,000 - \$199,999	54	5
\$200,000 - \$249,999	19	4
\$250,000 or more	63	1
Total	496	40

Source: MLS of Northern Illinois, SB Friedman Development Advisors. [1] As of January 12, 2015.

Based on the available data, it appears that there is a wide range of for-sale housing options available at a variety of price points in the vicinity of the Expansion Area. Therefore, it can be reasonably assumed that the rental and for-sale residential markets for the community areas in and around the Expansion Area should be adequate to furnish needed replacement housing for those residents that may potentially be displaced because of redevelopment activity within the Expansion Area.

There are no planned redevelopment projects that will reduce the number of residential units within the Expansion Area, and there may be new affordable and market-rate residential development projects in accordance with the Redevelopment Plan. Therefore, it is assumed that any displacement caused by activities as part of the Redevelopment Plan could potentially occur simultaneously with the

SB FRIEDMAN | DEVELOPMENT ADVISORS
119th/I-57 RPA Amendment No. 1

development of new housing, either rental or for-sale. As a result, there could potentially be a net gain of residential units within the Expansion Area. Furthermore, it is likely that any displacement of units would occur incrementally over the remaining 12-year life of the RPA as individual development projects are initiated.

(IV) RELOCATION ASSISTANCE

In the event that the implementation of the Redevelopment Plan results in the removal of residential housing units in the Expansion Area occupied by low-income households or very low-income households, or the displacement of low-income households or very low-income households from such residential housing units, such households shall be provided affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. The City shall make a good faith effort to ensure that this affordable housing is located in or near the Expansion Area.

As used in the above paragraph, "low-income households," "very low-income households" and "affordable housing" have the meanings set forth in Section 3 of the Illinois Affordable Housing Act, 310 ILCS 65/3 et seq., as amended. As of the date of this study, these statutory terms are defined as follows:

- "Low-income household" means a single person, family, or unrelated persons living together whose adjusted income is more than 50% but less than 80% of the median income of the area of residence, adjusted for family size, as such adjusted income and median income are determined from time to time by the United States Department of Housing and Urban Development ("HUD") for purposes of Section 8 of the United States Housing Act of 1937.
- "Very low-income household" means a single person, family, or unrelated persons living together whose adjusted income is not more than 50% of the median income of the area of residence, adjusted for family size, as so determined by HUD.

- "Affordable housing" means residential housing that, so long as the same is occupied by low-income households or very low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than 30% of the maximum allowable income for such households, as applicable.

The City of Chicago will make a good faith effort to relocate these households to affordable housing located in or near the Expansion Area, and will provide relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Policies Act of 1970.

1. INTRODUCTION

This document presents a Tax Increment Financing Redevelopment Plan and Project (hereinafter referred to as the "Plan") pursuant to the Tax Increment Allocation Redevelopment Act (65 ILCS 5/11-74.4-1 et seq.) as amended, (the "Act") for the 119th Street/I-57 Redevelopment Project Area (the "Project Area") located in the City of Chicago, Illinois (the "City"). The Project Area boundaries are delineated on Figure 1 in Appendix A. The Project Area boundaries are irregular, generally extending west from Interstate 57 along 107th Street to Vincennes Avenue, then south to 115th Street, then west to the Rock Island Railroad tracks, then south to 119th Street, then east to Watkins Avenue, then north to 115th Street, then east to the railroad tracks, then south to 119th Street, then east to Ashland Avenue, then south to the alley south of 120th Street, then east to Laflin Street, then south to 122nd Street, then west to Ashland Avenue, then south to 123rd Street, then east to the Illinois Central Railroad tracks, then northeasterly to Loomis Street, then north to 120th Street, then east to a parcel line east of Ada Street, then north to 119th Street, then west to Loomis Street, then north to the alley north of 119th Street, then west to the alley east of Ashland Avenue, then north to 118th Street, then west to I-57, then north to 112th Street, then east to Bishop Street, then north to the alley south of IIIth Street, then east to Racine Avenue, then north to the alley north of 111th Street, then west to I-57, then north back to 107th Street. The Plan responds to problem conditions within the Project Area and reflects a commitment by the City to improve and revitalize the Project Area.

The Plan presents research and analysis undertaken to document the eligibility of the Project Area for designation as a "blighted area" tax increment financing ("TIF") district. The need for public intervention, goals and objectives, land use policies, and other policy materials are presented in the Plan. The results of a study documenting the eligibility of the Project Area as a blighted area are presented in Appendix C, Eligibility Study (the "Study").

Tax Increment Financing

In adopting the Act, the Illinois State Legislature pursuant to Section 5/11-74.4-2(a) found that:

and pursuant to Section 5/11-74.4-2(b) also found that:

August 27, 2002 Revised October 29,2002

In order to use the tax increment financing technique, a municipality must first establish that the proposed redevelopment project area meets the statutory criteria for designation as a "blighted area," "conservation area" or "industrial park conservation area." A redevelopment plan must then be prepared pursuant to Sections 65 ILCS 5/11-74.4-3, et seq. of the Act, which describes the development or redevelopment program intended to be undertaken to reduce or eliminate those conditions which qualified the redevelopment project area as a "blighted area," "conservation area," or combination thereof, or "industrial park conservation area," and thereby enhance the tax base of the taxing districts which extend into the redevelopment project area.

In order to be adopted, a Plan must meet the following conditions pursuant to Section 5/11-74.4-3(n) of the Act:

(1) The redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not be reasonably anticipated to be developed without the adoption of the redevelopment plan; (2) the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality; (3) the redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs (which dates shall not be later than December 31 of the year in which the payment to the municipal treasurer as provided in Section 8(b) of the Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year after the year in which the ordinance approving the redevelopment project area is adopted); (4) in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area; and (5) if any incremental revenues are being utilized under Section 8a(1) or 8a(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986 the municipality finds (i) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (ii) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

Redevelopment projects are defined as any public or private development projects undertaken in furtherance of the objectives of the redevelopment plan.

The City authorized an evaluation to determine whether a portion of the City, to be known as the 119th Street/I-57 Redevelopment Project Area, qualifies for designation as a blighted area

August 27, 2002 Revised October 29,2002

pursuant to the provisions contained in the Act. If the Project Area so qualified, the City requested the preparation of a redevelopment plan for the Project Area in accordance with the requirements of the Act.

119th Street/I-57 Redevelopment Project Area

The Project Area is approximately 315 acres in size and includes 1,261 contiguous parcels and public rights-of-way. It should be noted that this number includes 29 parcels which are contained in tax blocks comprised

entirely of railroad or Interstate 57 rights-of-way. Future references in this Plan to the number of parcels will refer to the parcels on non-right-of-way tax blocks, which total 1,232. The Project Area is comprised largely of residential property; however, a significant amount of commercial, industrial and institutional uses are also present within the Project Area. Much of the Project Area is characterized by:

- Deterioration
- Presence of structures below minimum code standards
- Excessive vacancies
- Lack of community planning
- Deleterious land use or layout
- Stagnant or declining equalized assessed value
- Obsolescence
- Dilapidation

As a result of these conditions, the Project Area is in need of redevelopment, rehabilitation and/or revitalization. In recognition of the unrealized potential of the Project Area, the City is taking action to facilitate its revitalization.

The Project Area, as a whole, has not been subject to growth and development by private enterprise and would not reasonably be anticipated to be developed without the adoption of the Plan. The Study, attached hereto as Appendix C, concluded that property in this area is experiencing deterioration and disinvestment. The analysis of conditions within the Project Area indicates that it is appropriate for designation as a blighted area in accordance with the Act.

The purpose of the Plan is to create a mechanism to allow for the development of new commercial and public facilities on existing vacant and underutilized land; the redevelopment and/or expansion of existing businesses; the redevelopment of obsolete land uses; and the improvement of the area's physical environment and infrastructure. The redevelopment of the Project Area is expected to encourage economic revitalization within the community and the surrounding area.

The Plan summarizes the analyses and findings of the consultant's work, which unless otherwise noted, is solely the responsibility of Camiros, Ltd. and its subconsultants. The City is entitled to rely on findings and conclusions of the Plan in designating the Project Area a redevelopment project area under the Act. Camiros, Ltd. has prepared this 119th Street/I-57 Redevelopment Plan and Project and the related Study with the understanding that the City would rely: (i) on the findings and conclusions of the Plan and the related Study in proceeding with the designation of the Project Area and the adoption and implementation of the Plan; and (ii) on the fact that Camiros, Ltd. has obtained the necessary information so that the Plan and the related Study will comply with the Act.

August 27, 2002 Revised October 29,2002

The Plan has been formulated in accordance with the provisions of the Act. This document is a guide to all proposed public and private actions in the Project Area.

August 27, 2002 Revised October 29,2002

2. PROJECT AREA DESCRIPTION

The land to be designated as the 119th Street/I-57 Redevelopment Project Area is shown in Figure 1, Redevelopment Project Area Boundary Map (see Appendix A). The Project Area is approximately 315 acres in size, including public rights-of-way. A legal description of the Project Area is included as Appendix B of this document. The Project Area includes only those contiguous parcels that are anticipated to be substantially benefited by the proposed redevelopment project improvements and, which, collectively qualify for designation as a "blighted area."

The general area has been the subject of three planning studies in recent years. The Vincennes Corridor Improvement Plan, completed in 1998, establishes a broad vision for improving the area. The plan addressed the area roughly between Interstate 57 and Vincennes Avenue from 103rd Street to Monterey Avenue. The plan recommended the redevelopment of blighted residential areas, new commercial development along major arterials and infill residential development on vacant land. Following the completion of this plan, the Vincennes Corridor Redevelopment Area was prepared and adopted in 1999. In 2001, the 119th and I-57 Redevelopment Area (not to be confused with the present study) was prepared and adopted, addressing redevelopment needs within an irregular area both east and west of Interstate 57. On the west, the area extended from Edmaire Street on the north to 119th Street on the south and from Interstate 57 on the east to the Metra railroad tracks on the west. The portion of this Redevelopment Area located on the east side of Interstate 57 includes the Ashland Avenue and 119th Street frontages on the block to the northeast of the 119th Street and Ashland Avenue intersection as well as an arc-shaped area extending from 120th Street and Ashland Avenue to Loomis Street to 123rd Street and Ashland Avenue.

Community Background

The Project Area lies primarily within the Morgan Park Community Area. Since only a very small portion of the Project Area extends into the West Pullman Community Area, this description of the community background will focus solely on the Morgan Park Community Area.

The first settlers arrived in Morgan Park in the 1830s, attracted by the high ground of the Blue Island Ridge, a prominent geological feature surrounded by low-lying marshlands. However, Morgan Park did not experience significant growth until the 1880s when nearby railroads and industries were established and successive waves of settlers and new residents arrived -beginning in 1900 and continuing as late as the 1970s.

August 27, 2002 Revised October 29,2002

In 1882, Morgan Park was incorporated as a village and, in 1914, was annexed into the City of Chicago. From its beginnings, physical development in Morgan Park focused primarily on residential use, although some industries developed along the railroad, including the Chicago Bridge and Iron Company facility at 107th Street and Vincennes Avenue.

Morgan Park's population evidenced an African-American component from early in the 20th century - documented as far back as 1915, making it an integrated community from a very early stage. By 1920 African-Americans constituted 12% of the area's population, with a variety of European ethnic groups comprising the majority. In the late 1920's, Morgan Park's population began to rise significantly and the proportion of African-Americans increased to 35%. For the last twenty years, the racial composition of the community has remained stable, with African-Americans representing 65% of the population. According to 2000 Census data, the population of the Morgan Park Community Area is 25,226.

Land use and development activity suggest subtle, but important, trends are affecting the community. While most of the residential areas remain strong and stable, little new housing construction has occurred. This is in sharp contrast to the housing boom affecting large parts of the city. Other important trends include the decline of industrial and, to a lesser extent, commercial use within the community. Significant industrial uses occupying large sites have moved to suburban locations, leaving unfulfilled opportunities for redevelopment. Traditional commercial shopping districts have also declined, especially in qualitative terms. These trends suggest the Morgan Park community, while still an attractive place to live, is stagnant in terms of new development and reinvestment.

Current Land Use and Zoning

The current land use within the Project Area consists of residential, commercial, industrial, institutional, public and mixed-use property. A large amount of vacant land is also present. Residential use is dispersed throughout the Project Area. Commercial use is primarily concentrated along 111th Street and Monterey Avenue. Industrial use is concentrated along the railroad and Interstate 57. Institutional/public uses take the form of places of worship, a public school and a park, which for the most part, are located on main arterials-Vincennes Avenue, 111th Street and 119th Street. The current configuration of land use is represented in Figure 2, Existing Land Use (see Appendix A).

Current zoning within the Project Area generally reflects the pattern of existing land use. Business and commercial zoning exists along 111th Street, Monterey Avenue, portions of Vincennes Avenue and in small pockets at the intersections of major streets. It is important to note one area of land use/zoning inconsistency. The area immediately south of 107th Street is currently used for residential purposes but is zoned for manufacturing. This zoning may have reflected policy to reinforce the industrial reuse of the Chicago Bridge and Iron Company site to the north. However, manufacturing zoning in a residential area is a disincentive for reinvesting in property and this policy may merit reevaluation. The current zoning is shown in Figure 3, Existing Zoning (see Appendix A).

August 27, 2002 Revised October 29, 2002

Conditions within the Project Area include a series of improvement challenges. The Project Area contains a high proportion of vacant lots and buildings, distributed throughout the Project Area. Approximately 29% of the land parcels within the Project Area are vacant lots and/or vacant buildings. The construction of Interstate 57 in the 1960s created significant discontinuities within the local street system. This is particularly true of the area from 107th Street south to Monterey Avenue, where many streets are dead-ends and access to land parcels can be difficult. The construction of Interstate 57 also fragmented many land parcels, resulting in parcels that are difficult or inefficient to develop.

Transportation Characteristics

Transportation facilities within or adjacent to the Project Area include one freight rail line, two commuter rail lines, the local street system and mass transportation. One railroad line, adjacent to the southeastern portion of the Project Area, accommodates Metra's electric rail commuter service between Chicago and Blue Island; the closest station is located just outside the Project Area at 124th Street and Ashland Avenue. This is a commuter-only line and carries no freight service. The Metra Rock Island Suburban Line (from Chicago to Joliet) also abuts the Project Area, with a stop at 119th Street, adjacent to the southwestern part of the Project Area. The Metra Rock Island Main Line (from Chicago to Joliet) parallels Interstate 57 through much of the Project Area, although no stops are located in or adjacent to the Project Area.

Vincennes Avenue is the primary north-south route through the neighborhood, while 107th Street, 111th Street, 115th Street and 119th Street are important east-west arterials. Circulation on local streets consists of a combination of two-way and one-way traffic. Interchanges for Interstate 57 are located in the Project Area at 111th Street and 119th Street.

Mass transportation serving the Project Area includes three Chicago Transit Authority ("CTA") bus lines. Route 111 runs from the 95th/Dan Ryan Red Line station east along 95th Street to Cottage Grove Avenue, then south to 115th Street, then west to Vincennes Avenue, then north to 111th Street, then east to just past Cottage Grove

Avenue. Route 112 also begins at the 95th/Dan Ryan Red Line station, traveling west along 95th Street to Vincennes Avenue, south to Monterey Avenue, west a short distance along Monterey Avenue, and then west along 111th Street to Pulaski Avenue (this bus route provides access to the Metra Rock Island Main Line stations at 95th Street and 103rd Street). Finally, Route 119 extends from the 95th/Dan Ryan Red Line station south down Michigan Avenue to 119th Street, and then west to Western Avenue. The combination of CTA and Metra service provides good transportation to the Project Area.

August 27, 2002 Revised October 29, 2002

3. ELIGIBILITY OF THE PROJECT AREA FOR DESIGNATION AS A BLIGHTED AREA

The Project Area, on the whole, has not been subject to significant growth and development through investment by private enterprise. Based on the conditions present, the Project Area is not likely to be comprehensively or effectively developed without the adoption of the Plan. In April and May of 2002, a series of studies were undertaken to establish whether the proposed Project Area is eligible for designation as a blighted area in accordance with the requirements of the Act. This analysis concluded that the Project Area so qualifies.

For improved property, the presence of five of the 13 conditions set forth in the Act is required for designation as a blighted area. These factors must be meaningfully present and reasonably distributed within the Project Area. Of the 13 factors cited in the Act for improved property, eight factors are present within the Project Area. Six of these factors are present to a major extent, while two factors are present to a minor extent.

The following factors were found to be present to a major extent within the Area:

- Deterioration (affecting 72% of all tax blocks*)
- Presence of structures below minimum code standards (affecting 74% of all tax blocks*)
- Excessive vacancies (affecting 79% of all tax blocks*)
- Lack of community planning (affecting 46% of all tax blocks*)
- Deleterious land use or layout (affecting 56% of all tax blocks*)
- Stagnant or declining equalized assessed value (affecting all tax blocks*)

The following factors were found to be present to a minor extent within the Area:

- Obsolescence (affecting 11% of all tax blocks*)
- Dilapidation (affecting 25% of all tax blocks*)

For more detail on the basis for eligibility, refer to the Study in Appendix C.

* Note: The Study Area contains a total of 66 tax blocks. However, five tax blocks are comprised entirely of either railroad or Interstate 57 rights-of-way. References in the Plan to "tax blocks" refer to the 61 non-right-of-way tax blocks.

August 27, 2002 Revised October 29, 2002

Need for Public Intervention

The analysis of conditions within the Project Area included an evaluation of construction activity between 1997 and 2001. Table 1, Building Permit Activity (1997-2001), summarizes construction activity within the Project Area by year and project type.

Table 1
BUILDING PERMIT ACTIVITY (1997-2001)

				Total	
Construction Value					
Total					
				\$159,104	\$235,121
# of Permits Issued					
				5	7
				8	8
				3	2
				1	2
Total	21	20		20	117

Source: City of Chicago, Dept. of Buildings

During this five-year period, a total of 117 building permits were issued for property within the Project Area. In analyzing the building permit activity, it should be recognized that a certain level of activity occurs merely to address basic maintenance needs, which appears to account for nearly half of the construction activity. Fifty-five permits were issued for rehabilitation and repairs, representing 47% of the total number of permits issued, and 22 permits, or 19%, were issued for demolition. Between 1997 and 2001, only eight projects were undertaken in the Project Area that had a construction value of more than \$100,000. Of these projects, two were churches, accounting for \$8.2 million in construction value. Since churches do not represent market-oriented investment, the value of this construction cannot be considered when evaluating the need for public intervention. Deducting these two projects from the five-year construction value reduces the total investment to approximately \$1.5 million, or an average of roughly \$300,000 per year. This level of investment is equivalent to the construction of two modest houses per year. Given the 1,232 parcels within the Project Area, this represents negligible private-sector investment. It should be noted that most of the permits issued for new construction were for garages or fences. New residential construction between 1997 and 2001 consisted of only six single-family houses.

Despite the lack of private sector investment, equalized assessed value (EAV) within the Project Area grew from approximately \$14.5 million in 1997 to \$15.9 million in 2001. However, for this period, the EAV of the Project Area grew at a slower rate (10%) than that of the City (36%). The growth in EAV could be the result of one or more factors, including improvements to a small number of properties, normal growth due to inflation and/or reassessment (which took place throughout the entire City of Chicago in 1997 and 2000). The increase in EAV is not the result of widespread private reinvestment through construction activity. Given the blighting factors that have been documented, the overall redevelopment of the Project Area would not reasonably be expected to occur without public intervention and the adoption of the Plan.

August 27, 2002 Revised October 29, 2002

4. REDEVELOPMENT PLAN GOALS AND OBJECTIVES

The proposed Redevelopment Plan and Project is consistent with City plans for the area. The land uses conform to those approved by the Chicago Plan Commission and to recent City-sponsored plans for the area. The following goals and objectives are provided to guide development in the Project Area.

General Goals

- Reduce or eliminate deleterious conditions.
- Provide for the orderly transition from obsolete land uses to more appropriate land use patterns.
- Increase affordable housing (for-sale and rental), including at least 20% market-rate housing set aside to meet affordability criteria.
- Create an attractive environment that encourages new commercial development.
- Employ residents within and surrounding the Project Area in jobs generated by area development.
- Improve public facilities and amenities.
- Enhance the tax base of the Project Area.

Redevelopment Objectives

- Encourage private investment, especially new development on the numerous vacant lots within the Project Area.
- Direct development activities to appropriate locations within the Project Area in accordance with the land use plan and general land use strategies.
- Encourage rezoning of obsolete zoning classifications to facilitate development of underutilized property for uses that have demonstrated market support.
- Provide opportunities for business and commercial development where there is demonstrated market support.
- Encourage development of affordable for-sale and rental housing, as defined by the City's Department of Housing, including for-sale housing for persons earning no more than 120% of the area median income and rental housing for persons earning no more than 80% of area median income.
- Encourage development of market-rate housing as part of an overall program to create a mixed-income neighborhood.

August 27, 2002 Revised October 29, 2002

- Address the problems of the discontinuous street system, dead end streets and irregular lot shapes caused by the construction of I-57 by developing new streets, infrastructure and replatting of property to support in-fill residential development.
- Establish job readiness and job training programs to provide residents within and surrounding the Project Area with the skills necessary to secure jobs in the Project Area and in adjacent redevelopment project areas.
- Promote hiring of local residents, including graduates of the Project Area's job readiness and job training programs.
- Improve recreational amenities within the Project Area.

Design Objectives

- Establish design standards for commercial and residential redevelopment to ensure compatible high-quality development.
- Enhance the appearance of major thoroughfares such as Vincennes Avenue, Ashland Avenue, Monterey Avenue, 119th Street and 111th Street through streetscape improvements.
- Encourage increased use of public transit facilities through pedestrian-friendly design, while also improving vehicular movement.

August 27, 2002 Revised October 29, 2002

5. REDEVELOPMENT PLAN

The City proposes to achieve the Plan's goals through the use of public financing techniques, including tax increment financing, and by undertaking some or all of the following actions:

Property Assembly, Site Preparation and Environmental Remediation

To meet the goals and objectives of the Plan, the City may acquire and assemble property throughout the Project Area. Land assemblage by the City may be by purchase, exchange, donation, lease, eminent domain or through the Tax Reactivation Program, and may be for the purpose of (i) sale, lease or conveyance to private developers, or (ii) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Furthermore, the City may require written redevelopment agreements with developers before acquiring any properties. As appropriate, the City may devote acquired property to temporary uses until such property is scheduled for disposition and development.

Figure 4, Acquisition Map (see Appendix A), identifies the properties proposed to be acquired for redevelopment in the Project Area. This map identifies the properties included on the existing acquisition maps from the two existing underlying Redevelopment Area Designations, the Vincennes Corridor Redevelopment Area Designation (adopted in 1999) and the 119th and 1-57 Redevelopment Area Designation (adopted in 2001). In addition, this map identifies additional properties to be acquired, most of which are properties located within those portions of the Project Area not covered by the two existing Redevelopment Area Designations.

The additional properties to be acquired by virtue of this Plan represent prudent and necessary additions to the Acquisition Map. Most of these additional properties to be acquired are vacant lots within portions of the Project Area not located within existing underlying Redevelopment Area Designations. However, additional properties have also been added to the Acquisition Map within areas covered by the two existing Redevelopment Area Designations. The most significant of these properties include the following:

1. The large parcel on the northwest corner of Interstate 57 and 119th Street is an obsolete and vacant industrial property that has been the subject of significant commercial redevelopment interest.

August 27, 2002 Revised October 29, 2002

2. The property on the northwest corner of 119th Street and Vincennes Avenue has recently become vacant land, as has the parcel at Loomis and the Illinois Central railroad tracks.
3. The parcels on the southeast corners of Monterey/Vincennes and Pryor/Vincennes are obsolete, but occupied, commercial properties that are the subject of redevelopment interest.
4. The property on the corner of 123rd Street and Ashland Avenue is an occupied car repair use and outdoor storage use zoned for residential use that is the subject of residential redevelopment interest.
5. The parcels located on the block between Vincennes Avenue and Church Street south of 118th Street are vacant lots.

6. The parcels located on the block between Monterey and Pryor Street east of Ashland Avenue consist of vacant lots and occupied properties, including a liquor store and some severely deteriorated residential buildings.
7. The parcels along Glenroy Avenue and Loomis Street south of 107th Street include vacant lots and occupied properties consisting of deteriorated residential buildings on lots of obsolete platting and on substandard streets.

Table 9, Land Acquisition by Parcel Identification Number and Address (see Appendix A), provides a list of the properties proposed for acquisition under the existing underlying Redevelopment Area Designations and the properties proposed for acquisition under this Plan.

In connection with the City exercising its power to acquire real property not currently on the Acquisition Map, including the exercise of the power of eminent domain, under the Act in implementing the Plan, the City will follow its customary procedures of having each such acquisition recommended by the Community Development Commission (or any successor commission) and authorized by the City Council of the City. Acquisition of such real property as may be authorized by the City Council does not constitute a change in the nature of the Plan. The acquisition of such property can be paid for using TIF funds.

For properties described in Figure 4, Acquisition Map, the acquisition of occupied properties by the City shall commence within four years from the date of the publication of the ordinance approving the Plan. Acquisition shall be deemed to have commenced with the sending of an offer letter. After the expiration of this four-year period, the City may acquire such property pursuant to the Plan under the Act according to its customary procedures as described in the preceding paragraph.

Intergovernmental and Redevelopment Agreements

The City may enter into redevelopment agreements or intergovernmental agreements with private entities or public entities to construct, rehabilitate, renovate or restore private or public improvements on one or several parcels (collectively referred to as "Redevelopment

August 27, 2002 Revised October 29, 2002

Projects"). Such redevelopment agreements may be needed to support the rehabilitation or construction of allowable private improvements, in accordance with the Plan; incur costs or reimburse developers for other eligible redevelopment project costs as provided in the Act in implementing the Plan; and provide public improvements and facilities which may include, but are not limited to utilities, street closures, transit improvements, streetscape enhancements, signalization, parking and surface right-of-way improvements.

Terms of redevelopment as part of this redevelopment project may be incorporated in the appropriate redevelopment agreements. For example, the City may agree to reimburse a developer for incurring certain eligible redevelopment project costs under the Act. Such agreements may contain specific development controls as allowed by the Act.

The City requires that developers who receive TIF assistance for market-rate housing set aside at least 20% of the units to meet affordability criteria established by the City's Department of Housing or any successor agency. Generally, this means the affordable for-sale units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be

affordable to persons earning no more than 80% of the area median income.

Job Training

To the extent allowable under the Act, job training costs may be directed toward training activities designed to enhance the competitive advantages of the Project Area and to attract additional employers to the Project Area. Working with employers and local community organizations, job training and job readiness programs may be provided that meet employers' hiring needs, as allowed under the Act.

A job readiness/training program is a component of the Plan. The City expects to encourage hiring from the community that maximizes job opportunities for Chicago residents.

Relocation

Relocation assistance may be provided to facilitate redevelopment of portions of the Project Area and to meet other City objectives. Businesses or households legally occupying properties to be acquired by the City may be provided with relocation advisory and financial assistance as determined by the City.

In the event that the implementation of the Plan results in the removal of residential housing units in the Project Area occupied by low-income households or very low-income households, or the displacement of low-income households or very low-income households from such residential housing units, such households shall be provided affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. The City shall make a good faith effort to ensure that this affordable housing is located in or near the Project Area.

August 27, 2002 Revised October 29, 2002

As used in the above paragraph, "low-income households," "very low-income households," and "affordable housing" shall have the meanings set forth in Section 3 of the Illinois Affordable Housing Act, 310 ILCS 65/3. As of the date of this Plan, these statutory terms are defined as follows: (i) "low-income household" means a single person, family or unrelated persons living together whose adjusted income is more than 50 percent but less than 80 percent of the median income of the area of residence, adjusted for family size, as such adjusted income and median income are determined from time to time by the United States Department of Housing and Urban Development ("HUD") for purposes of Section 8 of the United States Housing Act of 1937; (ii) "very low-income household" means a single person, family or unrelated persons living together whose adjusted income is not more than 50 percent of the median income of the area of residence, adjusted for family size, as so determined by HUD; and (iii) "affordable housing" means residential housing that, so long as the same is occupied by low-income households or very low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than 30 percent of the maximum allowable income for such households, as applicable.

Analysis, Professional Services and Administrative Activities

The City may undertake or engage professional consultants, engineers, architects, attorneys, and others to conduct various analyses, studies, administrative or legal services to establish, implement and manage the Plan.

Provision of Public Improvements and Facilities

Adequate public improvements and facilities may be provided to service the Project Area. Public improvements and facilities may include, but are not limited to, street closures to facilitate assembly of development sites, upgrading streets, signalization improvements, provision of streetscape amenities, parking improvements and utility improvements.

Financing Costs Pursuant to the Act

Interest on any obligations issued under the Act accruing during the estimated period of construction of the redevelopment project and other financing costs may be paid from the incremental tax revenues pursuant to the provisions of the Act.

Interest Costs Pursuant to the Act

Pursuant to the Act, the City may allocate a portion of the incremental tax revenues to pay or reimburse developers for interest costs incurred in connection with redevelopment activities in order to enhance the redevelopment potential of the Project Area.

August 27, 2002 Revised October 29,2002

6. REDEVELOPMENT PROJECT DESCRIPTION

The Plan seeks to address the obsolete pattern of land use and street system incongruities resulting from the development of Interstate 57 within an existing neighborhood. In some cases, the original land uses have been affected by the impacts of the interstate highway and should be replaced by more compatible uses. In other cases, older land uses do not take full advantage of the development potential offered by proximity to the highway. The Plan also seeks to encourage redevelopment of residential areas where the local street system has been severed by the highway and no longer provides suitable access to residential property. For those areas not impacted by Interstate 57, the Plan seeks to encourage residential in-fill development on vacant land as well as older, deteriorated commercial and industrial property. The construction of new infrastructure and the enhancement of major thoroughfare rights-of-way is seen as an essential part of needed redevelopment.

The Plan recognizes that new investment in residential and commercial property is needed to improve the Project Area. In certain cases, attracting new private investment may require the redevelopment of existing properties. Proposals for infrastructure improvements will stress projects that serve and benefit the surrounding residential, commercial and institutional uses. A comprehensive program of aesthetic enhancements will include streetscape improvements, facade renovations and aesthetically compatible new development. The components will create the quality environment required to sustain the revitalization of the Project Area.

Based on this assessment, the goals of the redevelopment projects to be undertaken in the Project Area are to: 1) redevelop older, outdated industrial property adjacent to Interstate 57 at 119th Street for new commercial development; 2) redevelop older, small-scale, deteriorated industrial and business property near 122nd Street

and Ashland Avenue for residential use; 3) encourage infill residential development on scattered vacant lots within existing residential areas; and 4) encourage the redevelopment of older, deteriorated residential property negatively affected by Interstate 57 traffic for more compatible forms of residential or commercial development near the 111th Street interchange area. The major physical improvement elements anticipated as a result of implementing the proposed Plan are outlined below.

Commercial Redevelopment

The Plan recognizes that attractive new commercial redevelopment will help promote investment in residential property. The Plan seeks to promote the redevelopment of obsolete industrial property at Interstate 57 and 119th Street for new commercial development. The plan also seeks

August 27, 2002 Revised October 29,2002

to promote commercial redevelopment, where appropriate, of deteriorated residential property near the 111th Street interchange area, both east and west of the highway.

Residential Redevelopment

Residential redevelopment is proposed for the vacant, deteriorated and obsolete industrial and commercial property south of 122nd Street. A mix of single-family, townhouse and low-rise multi-family housing is seen as appropriate for this location. Widespread residential infill development and building rehabilitation is needed within most of the existing residential areas. Single-family residential is most suitable for infill development on vacant lots along local side streets.

Public Improvements

Improvements to public infrastructure and facilities are needed to complement and attract private sector investment. Infrastructure improvements may include:

- Improvement of streetscape conditions along Vincennes Avenue, Ashland Avenue, Monterey Avenue, 119th Street and 111th Street to support commercial and residential redevelopment.
- Replatting and construction of new streets to provide adequate access to residential redevelopment areas.
- Improvement of other public facilities that meet the needs of the community.

August 27, 2002 Revised October 29, 2002

7. GENERAL LAND USE PLAN AND MAP

Figure 5, Land Use Plan (see Appendix A), identifies land use policies to be pursued in the implementation of the Plan. The land use categories planned for the Project Area are: 1) residential; 2) commercial; 3) mixed-use: residential/commercial; 4) mixed-use: residential/ commercial/institutional; 5) institutional; and 6) public use. The Land Use Plan allows for a prudent level of flexibility in land use policy to respond to future market forces. This is accomplished through the two mixed-use land use categories. The "residential/commercial" category allows for both residential and commercial uses, while the "residential/commercial/institutional" category allows for residential, commercial and institutional uses. The "institutional" land use category is limited to private non-profit, philanthropic and/or religious organizations. The "public" land use category is limited to governmental uses and facilities, including schools, parks, libraries and public service facilities. The Land Use Plan is intended to serve as a guide for future land use improvements and developments within the Project Area.

The land uses proposed for the Project Area are consistent with the redevelopment goals of this Plan. While proposed land uses for the Project Area are generally consistent with existing zoning, there are two important exceptions. The 2001 Zoning Ordinance Map identifies the northwest corner of Interstate 57 and 119th Street as an MI-1 district, while the Land Use Plan calls for commercial use. Given the site's exposure and access to Interstate 57 at the 119th Street interchange, commercial represents the highest and best use of this site. The other area is located on the south side of 107th Street on Glenroy Avenue and Loomis Street. This area is zoned MI-1 but is designated for residential use. Given the relocation of industry out of the Chicago Bridge and Iron Company site immediately to the north, and the potential for residential reuse of this site, residential use is the appropriate land use policy for this area.

The Land Use Plan is intended to serve as a broad guide for land use and redevelopment policy. The plan is general in nature to allow adequate flexibility to respond to shifts in the market and private investment. A more specific discussion of the proposed uses within the Project Area is outlined below.

Residential Use

Residential use is proposed in three distinct portions of the Project Area. One area is located between Vincennes Avenue and Interstate 57 from 107th Street south to Chelsea Place. Another area is located along Waseca Place south to 119th Street on the west side of Interstate 57. The third area is located along the northerly frontage of 119th Street and then south of 120th Street. On the whole,

August 27, 2002 Revised October 29,2002

the areas of proposed residential use are consistent with existing land use. One exception to this is the area south of 122nd Street, which is currently vacant land and deteriorated industrial and business uses, and has been proposed for residential redevelopment.

Commercial Use

Commercial use is proposed for the area between Interstate 57 and the railroad tracks immediately to the west. This is an area of existing obsolete industrial use that has been proposed for commercial redevelopment. Small, freestanding commercial uses are also located on the north side of 119th Street both east and west of Interstate 57.

Mixed-Use: Residential/Commercial

The residential/commercial mixed-use designation is applied to locations along major streets such as 111th Street (east of Interstate 57), and at certain locations on Ashland Avenue, Vincennes Avenue and 119th Street. This designation allows for the redevelopment of deteriorated residential and commercial property along these major streets and allows for flexibility in establishing edges between residential and commercial uses.

Mixed-Use: Residential/Commercial/Institutional

This land use designation applies to the area from 111th Street to Monterey Avenue west of Interstate 57, where there is an existing mix of residential, commercial and institutional (places of worship) uses. This category will allow for the conservation of all three of these uses as well as the redevelopment of deteriorated property and vacant land.

Institutional

This land use designation has been applied to places of worship in locations where the land use pattern is relatively stable. The largest of these uses is the Christ Universal Temple on the southeast corner of 119th Street and Ashland Avenue.

Public

Properties designated as public use are government-owned service facilities such as schools, parks, libraries and other such uses. Within the Project Area, these uses represent existing facilities. Shoop Elementary School at 111th Street and Bishop Street and Neighborhood Park at 115th Street and Homewood Avenue are the only two public uses within the Project Area.

These land use strategies are intended to direct development toward the most appropriate land use pattern for the various portions of the Project Area and enhance the overall development of the Project Area in accordance with the goals and objectives of the Plan. Locations of specific uses, or public infrastructure improvements, may vary from the Land Use Plan as a result of more detailed planning and site design activities. Such variations are permitted without amendment to the Plan as long as they are consistent with the Plan's goals and objectives and the land uses and zoning approved by the Chicago Plan Commission.

August 27, 2002 Revised October 29,2002

8. REDEVELOPMENT PLAN FINANCING

Tax increment financing is an economic development tool designed to facilitate the redevelopment of blighted areas and to arrest decline in areas that may become blighted without public intervention. It is expected that tax increment financing will be an important means, although not necessarily the only means, of financing

improvements and providing development incentives in the Project Area throughout its 23-year life.

Tax increment financing can only be used when private investment would not reasonably be expected to occur without public assistance. The Act sets forth the range of public assistance that may be provided.

It is anticipated that expenditures for redevelopment project costs will be carefully staged in a reasonable and proportional basis to coincide with expenditures for redevelopment by private developers and the projected availability of tax increment revenues.

The various redevelopment expenditures that are eligible for payment or reimbursement under the Act are reviewed below. Following this review is a list of estimated redevelopment project costs that are deemed to be necessary to implement this Plan (the "Redevelopment Project Costs").

In the event the Act is amended after the date of the approval of this Plan by the City Council of Chicago to (a) include new eligible redevelopment project costs, or (b) expand the scope or increase the amount of existing eligible redevelopment project costs (such as, for example, by increasing the amount of incurred interest costs that may be paid under 65 ILCS 5/11-74.4-3(q)(II)), this Plan shall be deemed to incorporate such additional, expanded or increased eligible costs as Redevelopment Project Costs under the Plan, to the extent permitted by the Act. In the event of such amendment(s) to the Act, the City may add any new eligible redevelopment project costs as a line item in Table 2 or otherwise adjust the line items in Table 2 without amendment to this Plan, to the extent permitted by the Act. In no instance, however, shall such additions or adjustments result in any increase in the total Redevelopment Project Costs without a further amendment to this Plan.

Eligible Project Costs

Redevelopment project costs include the sum total of all reasonable or necessary costs incurred, or estimated to be incurred, and any such costs incidental to the Plan. Some of the costs listed

August 27, 2002 Revised October 29, 2002

below became eligible costs under the Act pursuant to an amendment to the Act, which became effective November 1, 1999. Eligible costs may include, without limitation, the following:

1. Professional services including: costs of studies and surveys, development of plans and specifications, implementation and administration of the Plan including, but not limited to, staff and professional service costs for architectural, engineering, legal, financial, planning or other services (excluding lobbying expenses), provided however, that no charges for professional services may be based on a percentage of the tax increment collected and the terms of such contracts do not extend beyond a period of three years. Redevelopment project costs may not include general overhead or administrative costs of the City that would still have been incurred if the City had not designated a redevelopment project area or approved a redevelopment plan.
2. The cost of marketing sites within the Project Area to prospective businesses, developers and investors.
3. Property assembly costs, including, but not limited to, acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land.
4. Costs of rehabilitation, reconstruction, repair or remodeling of existing public or private buildings,

fixtures and leasehold improvements; and the cost of replacing an existing public building, if pursuant to the implementation of a redevelopment project, the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment.

5. Costs of the construction of public works or improvements, but not including the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building unless the City makes a reasonable determination, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the Plan.
6. Costs of job training and retraining projects including the cost of "welfare-to-work" programs implemented by businesses located within the Project Area, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts as provided in the Act, and such proposals featuring a community-based training program which ensures maximum reasonable opportunities for residents of the Morgan Park and West Pullman Community Areas with particular attention to the needs of those residents who have previously experienced inadequate opportunities and development of job-related skills, including residents of public and other subsidized housing and people with disabilities.

August 27, 2002 Revised October 29, 2002

7. Financing costs, including, but not limited to, all necessary and incidental expenses related to the issuance of obligations and, which may include payment of interest on any obligations issued under the Act, including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for a period not exceeding 36 months following completion and including reasonable reserves related thereto.
8. To the extent the City, by written agreement, accepts and approves all, or a portion, of a taxing district's capital costs resulting from the Redevelopment Project necessarily incurred, or to be incurred, within a taxing district in furtherance of the Plan objectives.
9. An elementary, secondary or unit school district's increased costs attributable to assisted housing units will be reimbursed as provided for in the Act.
10. Relocation costs, to the extent that the City determines that relocation costs shall be paid or is required to make payment of relocation costs by state or federal law or in accordance with the requirements of Section 74.4-3 (u)(7) of the Act (see "Relocation" section).
11. Payment in lieu of taxes, as defined in the Act.
12. Interest costs incurred by a developer related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
 - such payments in any one year may not exceed 30% of the annual interest costs incurred by the developer with regard to the redevelopment project during that year;
 - if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant

to this provision, then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

- the total of such interest payments paid pursuant to the Act may not exceed 30% of the total: (i) cost paid or incurred by the developer for such redevelopment project, plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by the City pursuant to the Act; and
- up to 75% of the interest cost incurred by a developer for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act.

13. Up to 50% of the cost of construction, renovation and/or rehabilitation of all low-income and very low-income housing units (for ownership or rental) as defined in Section 3 of the Illinois Affordable Housing Act. If the units are part of a residential redevelopment project that includes units not affordable to low-income and very low-income households, only the low-income and very low-income households shall be eligible for benefits under the Act.
14. The cost of day care services for children of employees from low-income families working for businesses located within the Project Area and all or a portion of the cost of operation of day care centers established by Project Area businesses to serve employees from low-income families working in businesses located in the Project Area. For the

August 27, 2002 Revised October 29, 2002

purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the City, county or regional median income as determined from time to time by the United States Department of Housing and Urban Development.

15. Costs of job training, retraining, advanced vocational education or career education, including but not limited to, courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs: (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in the Project Area; and (ii) when incurred by a taxing district or taxing districts other than the City, are set forth in a written agreement by or among the City and the taxing district or taxing districts, which agreement describes the program to be undertaken including but not limited to, the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40, and 3-40.1 of the Public Community College Act, 110 ILCS 805/3-37, 805/3-38, 805/3-40 and 805/3-40.1, and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of the School Code, 105 ILCS 5/10-22.20a and 5/10-23.3a.

The cost of constructing new privately-owned buildings is not an eligible redevelopment project cost, unless specifically authorized by the Act.

If a special service area has been established pursuant to the Special Service Area Tax Act, 35 ILCS 235/0.01 et seq., then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act may be used within the redevelopment project area for the purposes permitted by the Special Service Area Tax Act as well as the purposes permitted by the Act.

August 27, 2002 Revised October 29, 2002

Estimated Project Costs

A range of activities and improvements may be required to implement the Plan. The proposed eligible activities and their estimated costs over the life of the Project Area are briefly described below and shown in Table 2, Estimated Redevelopment Project Costs.

1. *Professional services including planning, legal, surveys, real estate marketing costs, fees and other related development costs. This budget element provides for studies and survey costs for planning and implementation of the project, including planning and legal fees, architectural and engineering, development site marketing, financial and special service costs. (Estimated cost: \$500,000)*
2. *Property assembly costs, including acquisition of land and other property, real or personal, or rights or interests therein, and other appropriate and eligible costs needed to prepare the property for redevelopment. These costs may include the reimbursement of acquisition costs incurred by private developers. Land acquisition may include acquisition of both improved and vacant property in order to create development sites, accommodate public rights-of-way or to provide other public facilities needed to achieve the goals and objectives of the Plan. Property assembly costs also include: demolition of existing improvements, including clearance of blighted properties or clearance required to prepare sites for new development, site preparation, including grading, and other appropriate and eligible site activities needed to facilitate new construction, and environmental remediation costs associated with property assembly which are required to render the property suitable for redevelopment. (Estimated cost: \$5,000,000)*
3. *Rehabilitation, reconstruction, repair or remodeling of existing public or private buildings and fixtures; and up to 50% of the cost of construction of low-income and very low-income housing units. (Estimated cost: \$10,000,000)*
4. *Construction of public improvements, infrastructure and facilities. These improvements are intended to improve access within the Project Area, stimulate private investment and address other identified public improvement needs, and may include all or a portion of a taxing district's eligible costs, including increased costs of the Chicago Public Schools attributable to assisted housing units within the Project Area in accordance with the requirements of the Act. (Estimated cost: \$20,000,000)*

5. *Costs of job training and retraining projects, advanced vocational education or career education, as provided for in the Act. (Estimated cost: \$500,000)*
6. *Relocation costs, as judged by the City to be appropriate or required to further implementation of the Plan. (Estimated cost: \$750,000)*
7. *Interest subsidy associated with redevelopment projects, pursuant to the provisions of the Act. (Estimated cost: \$3,000,000)*
8. *Provision of day care services as provided in the Act. (Estimated cost: \$250,000)*

August 27, 2002 Revised October 29, 2002

The estimated gross eligible project cost over the life of the Project Area is \$40 million. All project cost estimates are in 2002 dollars. Any bonds issued to finance portions of the redevelopment project may include an amount of proceeds sufficient to pay customary and reasonable charges associated with issuance of such obligations, as well as to provide for capitalized interest and reasonably required reserves. The total project cost figure excludes any costs for the issuance of bonds. Adjustments to estimated line items, which are upper estimates for these costs, are expected and may be made without amendment to the Plan.

Table 2 ESTIMATED REDEVELOPMENT PROJECT COSTS

Estimated Cost

TOTAL REDEVELOPMENT COSTS

This category may also include paying for or reimbursing (i) an elementary, secondary or unit school district's increased costs attributed to assisted housing units, and (ii) capital costs of taxing districts impacted by the redevelopment of the Project Area. As permitted by the Act, to the extent the City by written agreement accepts and approves the same, the City may pay, or reimburse all, or a portion of a taxing district's capital costs resulting from a redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the Plan.

Total Redevelopment Project Costs exclude any additional financing costs, including any interest expense, capitalized interest and costs associated with optional redemptions. These costs are subject to prevailing market conditions and are in addition to Total Redevelopment Project Costs.

"The amount of the Total Redevelopment Project Costs that can be incurred in the Project Area will be reduced by the amount of redevelopment project costs incurred in contiguous redevelopment project areas, or those separated from the Project Area only by a public right-of-way, that are permitted under the Act to be paid, and are paid, from incremental property taxes generated in the Project Area, but will not be reduced by the amount of redevelopment project costs incurred in the Project Area which are paid from incremental property taxes generated in contiguous redevelopment project areas or those separated from the Project Area only by a public right-of-way.

'increases in estimated Total Redevelopment Project Costs of more than five percent, after adjustment for inflation from the date of the Plan adoption, are subject to the Plan amendment procedures as provided under the Act.

August 27, 2002 Revised October 29, 2002

Additional funding from other sources such as federal, state, county, or local grant funds may be utilized to supplement the City's ability to finance Redevelopment Project Costs identified above.

Sources of Funds

Funds necessary to pay for redevelopment project costs and secure municipal obligations, which have been issued to pay for such costs, are to be derived principally from incremental property taxes. Additionally, the City may utilize revenues, other than State sales tax increment revenues, received under the Act from one redevelopment project are for eligible costs in another redevelopment area that is either contiguous to, or is separated only by a public right-of-way from, the redevelopment project area from which the revenues are received.

The tax increment revenue, which will be used to fund tax increment obligations and redevelopment project costs, shall be the incremental real property taxes. Incremental real property tax revenue is attributable to the increase in the current equalized assessed value of each taxable lot, block, tract or parcel of real property in the Project Area over and above the initial equalized assessed value of each such property in the Project Area. Other sources of funds, which may be used to pay for redevelopment project costs and secure obligations issued, the proceeds of which are used to pay for such costs, are land disposition proceeds, state and federal grants, investment income, private financing, and other legally permissible funds as the City may, from time to time, deem appropriate. The City may incur project costs (costs for line items listed on Table 2, Estimated Redevelopment Project Costs), which are paid for from funds of the City other than incremental taxes, and the City may then be reimbursed for such costs from incremental taxes. Also, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers.

The Project Area may be contiguous to, or be separated only by a public right-of-way from, other redevelopment project areas created under the Act. The City may utilize net incremental property taxes received from the Project Area to pay eligible project costs, or obligations issued to pay such costs, in other contiguous redevelopment project areas, or those separated only by a public right-of-way, and vice versa. The amount of revenue from the Project Area, made available to support such contiguous redevelopment project areas, or those separated only by a public right-of-way, when added to all amounts used to pay eligible redevelopment project costs within the Project Area, shall not at any time exceed the total redevelopment project costs described in the Plan.

The Project Area may become contiguous to, or be separated only by a public right-of-way from, redevelopment project areas created under the Industrial Jobs Recovery Law (65 ILCS 5/11-74.61-1 et seq.). If the City finds that the goals, objectives and financial success of such contiguous redevelopment project areas, or those separated only by a public right-of-way, are interdependent with those of the Project Area, the City may determine that it is in the best interests of the City, and in furtherance of the purposes of the Plan, that net revenues from the Project Area be made available to support any such redevelopment project areas and vice versa. The City therefore proposes to utilize net incremental revenues received from the Project Area to pay eligible redevelopment project costs (which are eligible under the Industrial Jobs Recovery Law referred to above) in any such areas, and vice versa. Such revenues may be transferred or loaned between the Project Area and such areas. The amount of revenue from the Project Area

August 27, 2002 Revised October 29, 2002

made available, when added to all amounts used to pay eligible redevelopment project costs within the Project Area, or other areas described in the preceding paragraph, shall not at any time exceed the total redevelopment project costs described in Table 2, Estimated Redevelopment Project Costs.

Development of the Project Area would not be reasonably expected to occur without the use of the incremental revenues provided by the Act. Redevelopment project costs include those eligible project costs set forth in the Act. Tax increment financing or other public sources will be used only to the extent needed to secure commitments for private redevelopment activity.

Nature and Term of Obligations to be Issued

The City may issue obligations secured by Incremental Property Taxes pursuant to Section 11-74.4-7 of the Act. To enhance the security of a municipal obligation, the City may pledge its full faith and credit through the issuance of general obligation bonds. Additionally, the City may provide other legally permissible credit enhancements to any obligations issued pursuant to the Act.

The redevelopment project shall be completed, and all obligations issued to finance redevelopment costs shall be retired, no later than December 31 of the year in which the payment to the City treasurer as provided in the Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year following the year in which the ordinance approving the Project Area is adopted (i.e., assuming City Council approval of the Project Area and Plan in 2002), by 2026. Also, the final maturity date of any such obligations which are issued may not be later than 20 years from their respective dates of issue. One or more series of obligations may be sold at one or more times in order to implement this Plan. Obligations may be issued on a parity or subordinated basis.

In addition to paying Redevelopment Project Costs, Incremental Property Taxes may be used for the scheduled retirement of obligations, mandatory or optional redemptions, establishment of debt service reserves and bond sinking funds. To the extent that Incremental Property Taxes are not needed for these purposes, and are not otherwise required, pledged, earmarked or otherwise designated for the payment of Redevelopment Project Costs, any excess Incremental Property Taxes shall then become available for distribution annually to taxing districts having jurisdiction over the Project Area in the manner provided by the Act.

Most Recent Equalized Assessed Valuation

The purpose of identifying the most recent equalized assessed valuation ("EAV") of the Project Area is to provide an estimate of the initial EAV, which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV and incremental property taxes of the Project Area. The 2001 EAV of all taxable parcels within the Project Area is \$15,932,584. This total EAV amount by Parcel Identification Number (PIN) is summarized in Appendix D. The EAV is subject to verification by the Cook County Clerk. After verification, the final figure shall be certified by the Cook County Clerk, and shall become the Certified Initial EAV from which all incremental property taxes in the Project Area will be calculated by Cook County.

August 27, 2002 Revised October 29, 2002

Anticipated Equalized Assessed Valuation

Once the redevelopment project has been completed and the property is fully assessed, the EAV of real

property within the Project Area is estimated to be \$50 million. This estimate has been calculated assuming that the Project Area will be developed in accordance with Figure 5, Land Use Plan, of the Plan.

The estimated EAV assumes that the assessed value of property within the Project Area will increase substantially as a result of new development and public improvements. Calculation of the estimated EAV is based on several assumptions, including: 1) redevelopment of the Project Area will occur in a timely manner; 2) the application of a State Multiplier of 2.2235 to the projected assessed value of property within the Project Area; and 3) an annual appreciation factor of 2%.

Financial Impact on Taxing Districts

The Act requires an assessment of any financial impact of the Project Area on, or any increased demand for services from, any taxing district affected by the Plan and a description of any program to address such financial impacts or increased demand. The City intends to monitor development in the Project Area and with the cooperation of the other affected taxing districts will attempt to ensure that any increased needs are addressed in connection with any particular development.

The following taxing districts presently levy taxes on properties located within the Project Area:

City of Chicago. The City is responsible for the provision of a wide range of municipal services, including police and fire protection; capital improvements and maintenance; water supply and distribution; sanitation service; building, housing and zoning codes, etc. The City also administers the City of Chicago Library Fund, formerly a separate taxing district from the City.

Chicago Park District. The Park District is responsible for the provision, maintenance and operation of park and recreational facilities throughout the City and for the provision of recreation programs.

Chicago School Finance Authority. The Authority was created in 1980 to exercise oversight and control over the financial affairs of the Board of Education of the City of Chicago.

Board of Education of the City of Chicago. General responsibilities of the Board of Education include the provision, maintenance and operations of educational facilities and the provision of educational services for kindergarten through twelfth grade.

Chicago Community College District 508. The Community College District is a unit of the State of Illinois' system of public community colleges, whose objective is to meet the educational needs of residents of the City and other students seeking higher education programs and services.

Cook County. The County has principal responsibility for the protection of persons and property, the provision of public health services and the maintenance of County highways.

August 27, 2002 Revised October 29, 2002

Cook County Forest Preserve District. The Forest Preserve District is responsible for acquisition, restoration and management of lands for the purpose of protecting and preserving open space in the City and County for the education, pleasure and recreation of the public.

Metropolitan Water Reclamation District of Greater Chicago. The Water Reclamation District provides the main trunk lines for the collection of wastewater from cities, villages and towns, and for the treatment and disposal thereof.

The proposed revitalization of the Project Area would be expected to create moderate demands on public services. The development of new residential property on vacant and deteriorated land would increase the demand for school services as well as parks and other population-based services. Within the land use designations on the Land Use Plan that allow for residential use, there are roughly 300 "buildable" vacant lots. Presuming that three-bedroom single-family residences were built on each vacant lot in this predominantly single-family community, approximately 220 school age children would be added to the enrollment at local schools. Total population would increase by approximately 870 persons. These projections of school age children and total population increase are based on charts produced by the Illinois School Consulting Service.

The demand for water and sewer services would increase as well. Proposed commercial development would not increase the demand for population-based services, but would increase demand for water and sewer services and similar types of infrastructure, including the Metropolitan Water Reclamation District.

Redevelopment of the Project Area may result in changes to the level of required public services. The required level of these public services will depend upon the uses that are ultimately included within the Project Area. Although the specific nature and timing of the private investment expected to be attracted to the Project Area cannot be precisely quantified at this time, a general assessment of financial impact can be made based upon the level of development and timing anticipated by the proposed Plan.

When completed, developments in the Project Area will generate property tax revenues for all taxing districts. Other revenues may also accrue to the City in the form of sales tax, business fees and licenses, and utility user fees. The costs of some services such as water and sewer service, building inspections, etc. are typically covered by user charges. However, others are not and should be subtracted from the estimate of property tax revenues to assess the net financial impact of the Plan on the affected taxing districts.

For the taxing districts levying taxes on property within the Project Area, increased service demands are expected to be negligible because they are already serving the Project Area. Upon completion of the Plan, all taxing districts are expected to share the benefits of a substantially improved tax base. However, prior to the completion of the Plan, certain taxing districts may experience an increased demand for services.

It is expected that most of the increases in demand for the services and programs of the aforementioned taxing districts, associated with the Project Area, can be adequately handled by the existing services and programs maintained by these taxing districts. However, \$3.5 million

August 27, 2002 Revised October 29, 2002

has been allocated within the Project Budget to "taxing district capital costs" to address potential demands associated with implementing the Plan.

Real estate tax revenues resulting from increases in the EAV, over and above the certified initial EAV established with the adoption of the Plan, will be used to pay eligible redevelopment costs in the Project Area. Following termination of the Project Area, the real estate tax revenues, attributable to the increase in the EAV over the certified initial EAV, will be distributed to all taxing districts levying taxes against property located in the Project Area. Successful implementation of the Plan is expected to result in new development and private investment on a scale sufficient to overcome blighted conditions and substantially improve the long-term economic value of the Project Area.

Completion of the Redevelopment Project and Retirement of Obligations to Finance Redevelopment Project Costs

The Plan will be completed, and all obligations issued to finance redevelopment costs shall be retired, no later than December 31st of the year in which the payment to the City Treasurer as provided in the Act is to be made with respect to ad valorem taxes levied in the twenty-third calendar year following the year in which the ordinance approving the Plan is adopted (by December 31, 2026).

August 27, 2002 Revised October 29, 2002

9. HOUSING IMPACT STUDY

A Housing Impact Study has been conducted for the Project Area to determine the potential impact of redevelopment on area residents. As set forth in the Act, if the redevelopment plan for a redevelopment project area would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and the City is unable to certify that no displacement of residents will occur, the municipality shall prepare a housing impact study and incorporate the study as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5 (sic) [Section 11-74.4-4.1] and in the redevelopment project plan. The Project Area contains 713 inhabited residential units. The Plan provides for the development or redevelopment of several portions of the Project Area that may contain occupied residential units. As a result, it is possible that by implementation of this Plan, the displacement of residents from 10 or more inhabited residential units could occur, and therefore, a housing impact study is required. This Housing Impact Study, which is part of the 119th Street/I-57 Redevelopment Plan, fulfills this requirement. It is also integral to the formulation of the goals, objectives, and policies of the Plan.

This Housing Impact Study is organized into two parts. Part I describes the housing survey conducted within the Project Area to determine existing housing characteristics. Part U describes the potential impact of the Plan. Specific elements of the Housing Impact Study include:

Part I - Housing Survey

- i. Type of residential unit, either single-family or multi-family.
- ii. The number and type of rooms within the units, if that information is available.
- iii. Whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 of the Act is passed.
- iv. Data as to the racial and ethnic composition of the residents in the inhabited residential units, which shall be deemed to be fully satisfied if based on data from the most recent federal census.

Part II - Potential Housing Impact

- i. The number and location of those units that will be or may be removed.
- ii. The municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed.

August 27, 2002 Revised October 29, 2002

iii. The availability of replacement housing for those residents whose residences are to be removed, and the identification of the type, location and cost of the replacement housing.

iv. **The type and extent of relocation assistance to be provided.**

PART I - HOUSING SURVEY

Part I of this study provides, as required by the Act, the number, type and size of residential units within the Project Area, the number of inhabited and uninhabited units, and the racial and ethnic composition of the residents in the inhabited residential units.

Number and Type of Residential Units

The number and type of residential units within the Project Area were identified during the building condition and land use survey conducted as part of the eligibility analysis for the area. This survey, completed on April 10, 2002, revealed that the Project Area contains 607 residential or mixed-use residential buildings containing a total of 713 units. The number of residential units by building type is outlined in Table 3, Number and Type of Residential Units.

Table 3

NUMBER AND TYPE OF RESIDENTIAL UNITS

Building Type	Total Number of Buildings	Total Number of Units
	75	
Total	607	713

Source: Camiros, Ltd.

Number and Type of Rooms in Residential Units

The distribution of the 713 residential units within the Project Area by number of rooms and by number of bedrooms is identified in tables within this section. The methodology to determine this information is described below.

Methodology

In order to describe the distribution of residential units by number and type of rooms within the Project Area, Camiros, Ltd. analyzed 1990 United States Census data by Block Group for those Block Groups encompassed by the Project Area. A Block Group, as defined by the U.S. Census, is a combination of census blocks (a census block is the smallest entity for which the Census Bureau collects and tabulates 100% data). The Block Group is the lowest level of geography for which the Census Bureau tabulates sample, or long-form, data. In this study, we have relied on 1990 federal census sample data because it is the best available information regarding the housing units within the Project Area; detailed information on housing characteristics from the 2000 Census has not yet been released. The Block Group data available for the Project Area are based on a sampling of residential units. Based on this data, a proportional projection was made of the distribution of units by the number of rooms and the number of bedrooms in each unit. The results of this survey are outlined in Table 4, Units By Number of Rooms, and in Table 5, Units By Number of Bedrooms.

Total

Source: U.S. Census Bureau

¹ As defined by the Census Bureau, for each unit, rooms include living rooms, dining rooms, kitchens, bedrooms, finished recreation rooms, enclosed porches suitable for year-round use, and lodger's rooms. Excluded are strip or Pullman kitchens, bathrooms, open porches, balconies, halls or foyers, half-rooms, utility rooms, unfinished attics or basements, or other unfinished space used for storage. A partially divided room is a separate room only if there is a partition from floor to ceiling, but not if the partition consists solely of shelves or cabinets.

Table 5

UNITS BY NUMBER OF BEDROOMS ²

1	
5213%	

18.2% ☐

Total ☐

Source: U.S. Census Bureau

- 2 As defined by the Census Bureau, number of bedrooms includes all rooms intended for use as bedrooms even if they are currently used for some other purpose. A housing unit consisting of only one room, such as a one-room efficiency apartment, is classified, by definition, as having no bedroom.

Number of Inhabited Units

A survey of inhabited dwelling units within the Project Area was conducted by Camiros, Ltd. This survey identified 713 residential units, of which 19 (2.7%) were identified as vacant. Therefore, there are approximately 694 total inhabited units within the Project Area. As required by the Act, this information was ascertained as of April 10, 2002, which is a date not less than 45 days prior to the date that the resolution required by subsection (a) of Section 11- 74.4-5 of the Act is or will be passed (the resolution setting the public hearing and Joint Review Board meeting dates).

August 27, 2002 Revised October 29,2002

Race and Ethnicity of Residents

The racial and ethnic composition of the residents within the Project Area is identified in Table 6, Race and Ethnicity Characteristics, within this section. The methodology to determine this information is described below.

Methodology

As required by the Act, the racial and ethnic composition of the residents in the inhabited residential units was determined. Population projections were made based on data from the 2000 United States Census. Camiros, Ltd. analyzed this data by Census Tract for those Census Tracts encompassed by the Project Area. The Census Tract is the lowest level of geography for which race and ethnicity characteristics have been released from the 2000 Census. Therefore, we have relied on Census Tract data because it is the best available information regarding the residents of the Project Area.

The total population for the Project Area was estimated by multiplying the number of households within the Project Area (713) by the average household size (3.1). Based on the estimated total population, a proportional projection was then made of the race and ethnicity characteristics of the residents. Multiplying these numbers, there are an estimated 2,210 residents living within the Project Area. The race and ethnic composition of these residents is indicated in Table 6, Race and Ethnicity Characteristics.

August 27, 2002 Revised October 29, 2002

PART II - POTENTIAL HOUSING IMPACT

Part LI of this study contains, as required by the Act, information on any acquisition, relocation program, replacement housing and relocation assistance.

Number and Location of Units That May Be Removed

The primary objectives of the Plan are to redevelop vacant land, correct obsolete land use patterns through redevelopment, and conserve existing housing units. While the Plan does not propose redevelopment of current residential use areas, some displacement of residential units may occur in the process of redeveloping obsolete commercial (mixed-use) buildings and through the consolidation of vacant lots.

There is a possibility that over the 23-year life of the Project Area, some inhabited residential units may be removed as a result of implementing the Plan. In order to meet the statutory requirement of defining the number and location of inhabited residential units that may be removed, a methodology was established that would provide a rough, yet reasonable, estimate. This methodology is described below.

Methodology

The methodology used to fulfill the statutory requirements of defining the number and location of inhabited residential units that may be removed involves three steps.

1. Step one counts all inhabited residential units proposed for acquisition. For this purpose, the prior acquisition maps from the two existing Redevelopment Area Designations, the Vincennes Corridor Redevelopment Area Designation (adopted in 1999) and the 119th and 1-57 Redevelopment Area Designation (adopted in 2001), were reviewed and it was determined that there are 27 inhabited residential units on current acquisition maps. The Plan's acquisition map identifies no additional properties to be acquired. Therefore, the total number of inhabited residential units that may be removed due to identified acquisition is 27.
2. Step two counts the number of inhabited residential units contained on parcels that are dilapidated as defined by the Act. From the survey conducted by Camiros, Ltd., a total of six buildings containing occupied residential units have been identified within the Project Area that can be classified as

dilapidated. Each of these buildings was identified as having one occupied dwelling unit. Therefore, the number of inhabited residential units that may be removed due to demolition or rehabilitation of dilapidated buildings is six.

3. Step three counts the number of inhabited residential units that exist where the future land use indicated by the Plan will not include residential uses. After reviewing the Land Use Plan for the Project Area, we determined that none of the inhabited residential units would be impacted by changes to the existing land use. Therefore, the number of inhabited residential units that may be removed due to future land use change is zero.

Figure 6, Housing Impact Study Map (see Appendix A), identifies the 33 inhabited residential units, which is the sum of Steps 1, 2 and 3 that could potentially be removed during the 23-year life of the 119th Street/I-57 Redevelopment Project Area.

August 27, 2002 Revised October 29, 2002

Replacement Housing

In accordance with Section 11-74.4-3 (n)(7) of the Act, the City shall make a good faith effort to ensure that affordable replacement housing for any qualified displaced resident whose residence is removed is located in or near the Project Area. To promote the development of affordable housing, the Plan requires developers receiving TIF assistance for market-rate housing to set aside at least 20% of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means the affordable for-sale units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be affordable to persons earning no more than 80% of the area median income. If, during the 23-year life of the 119th Street/I-57 Redevelopment Project Area, the acquisition plans change, the City shall make every effort to ensure that appropriate replacement housing will be found in either the Project Area or the surrounding Community Areas of Beverly, Morgan Park, Roseland and Washington Heights.

The location, type and cost of a sample of possible replacement housing units located within the surrounding Community Areas were determined through classified advertisements from the Chicago Sun-Times, Chicago Tribune and Daily Southtown, and from Internet listings on Apartments.com <<http://Apartments.com>> and HomeStore.com <<http://HomeStore.com>> during the first part of the month of May 2002. The results of this research are presented in Table 7, Survey of Available Housing Units. It is important to note that Chicago has a rental cycle where apartments turn over at a greater rate on May 1 and October 1 of each year. These times would likely reflect a wider variety of rental rates, unit sizes and locations than those available at other times throughout the year.

Since one of the key goals of the Plan is to develop infill housing on currently vacant lots and rehabilitate existing deteriorated buildings, it is assumed that displacement, if any, caused by activities as part of the Plan, will occur concurrently with the development of new housing. As a result, it is anticipated that there will be no net loss of units within the Project Area. Furthermore, there is a likelihood that any displacement of the 33 potential units would occur incrementally over the 23-year life of the Project Area as individual development projects occur. Therefore, it is not anticipated that there would be a need to relocate more than a few households, if any, in any given year during the full life of the Project Area.

Relocation Assistance

While the removal or displacement of housing units is not a goal of the Plan, it is possible that a small number of units may be removed in the process of implementing the Plan. If the removal or displacement of low-income, very low-income or very, very low-income households is required, such residents will be provided with relocation assistance in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations thereunder, including the eligibility criteria. The City shall make a good faith effort to ensure that affordable replacement housing for the aforementioned

households is located in or near the Project Area.

As used in the above paragraph, "low-income households," "very low-income households," "very, very low-income households" and "affordable housing" have the meanings set forth in Section 3 of the Illinois Affordable Housing Act, I 310 ELCS 65/3. These statutory terms have the following meanings:

August 27, 2002 Revised October 29, 2002

- a. "low-income households" means a single-person, family or unrelated persons living together whose adjusted income is more than 50 percent but less than 80 percent of the median income of the area of residence, adjusted for family size, as such adjusted income and median income are determined from time to time by the United States Department of Housing and Urban Development (HUD) for purposes of Section 8 of the United States Housing Act of 1937;
- b. "very low-income households" means a single-person, family or unrelated persons living together whose adjusted income is not more than 50 percent of the median income of the area of residence, adjusted for family size, as so determined by HUD;
- c. "very, very low-income households" means a single-person, family or unrelated persons living together whose adjusted income is not more than 30 percent of the median income of the area of residence, adjusted for family size, as so determined by HUD; and
- d. "affordable housing" means residential housing that, so long as the same is occupied by low-income households or very low-income households, requires payment of monthly housing costs, including utilities other than telephone, of no more than 30 percent of the maximum allowable income for such households, as applicable.

In order to estimate the number of moderate-, low-, very low- and very, very low-income households within the Project Area, Camiros, Ltd. used data available from Claritas, Inc., a national demographic data provider. Claritas, Inc. produced income projections, expressed in "current" dollars for the year 2001, for those Census Tracts encompassed by the Project Area. These projections are based on data from the 1990 United States Census; detailed information on income characteristics from the 2000 Census has not yet been released. We have relied on this data because it is the best available information regarding the income characteristics of the Project Area.

Based on the Claritas data, It is estimated that 13% of the households within the Project Area may be classified as very, very low-income; 12% may be classified as very low-income; 15% may be classified as low-income; and 19% may be classified as moderate-income. Applying these percentages to the 713 inhabited residential units (equivalent to households) identified during the survey completed by Camiros, Ltd. reveals that 91 households within the Project Area may be classified as very, very low-income; 84 households may be classified as very low-income; 107 households may be classified as low-income; and 139 households may be classified as moderate-income. This information is summarized in Table 8, Household Income.

August 27, 2002 Revised October 29,2002

Table 8
HOUSEHOLD INCOME

Income Category	Annual Income Range (2001 estimate)	Percentage of Households	Number of Households
Very, Very Low-Income	\$0-\$17,647	12.7%	91
Very Low- Income	\$17,648-\$29,412	11.8%	84
Low-Income	\$29,413-\$47,060	15.0%	107
Moderate-Income	\$47,061 -\$70,590	19.5%	139
Above Moderate-Income	\$70,591 or more	41.0%	292
Total		100.0%	713

Source: Claritas, Inc.

As described above, the estimates of the total number of moderate-, low-, very low- and very, very low-income households within the Project Area collectively represent 59% of the total inhabited units, and the number of households in the low-income categories collectively represent 40% of the total inhabited units. Therefore, replacement housing for any displaced households over the course of the 23-year life of the 119th Street/I-57 Redevelopment Project Area should be affordable at these income levels. It should be noted that these income levels are likely to change over the 23-year life of the Project Area as both median income and income levels within the Project Area change.

August 27, 2002 Revised October 29,2002

10. PROVISIONS FOR AMENDING THE PLAN

The Plan may be amended pursuant to the provisions of the Act.

August 27, 2002 Revised October 29,2002

11. CITY OF CHICAGO COMMITMENT TO FAIR EMPLOYMENT PRACTICES AND AFFIRMATIVE ACTION

The City is committed to and will affirmatively implement the following principles in redevelopment agreements with respect to the Plan. The City may implement various neighborhood grant programs imposing these or different requirements.

1. The assurance of equal opportunity in all personnel and employment actions, including, but not limited to: hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, religion, sex, age, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income, or housing status.
2. Redevelopers must meet the City of Chicago's standards for participation of 25 percent Minority Business Enterprises and 5 percent Woman Business Enterprises and the City Resident Construction Worker Employment Requirement as required in redevelopment agreements.
3. This commitment to affirmative action and nondiscrimination will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.
4. Redevelopers will meet City standards for any applicable prevailing wage rate as ascertained by the Illinois Department of Labor to all project employees. The city shall have the right in its sole discretion to exempt certain small business and residential property owners and developers from the above.
5. The City requires that developers who receive TIF assistance for market-rate housing set aside at least 20% of the units to meet affordability criteria established by the City's Department of Housing. Generally, this means the affordable for-sale units should be priced at a level that is affordable to persons earning no more than 120% of the area median income, and affordable rental units should be affordable to persons earning no more than 80% of the area median income.

In order to implement these principles, the City shall require and promote equal employment practices and affirmative action on the part of itself and its contractors and vendors. In particular, parties engaged by the City shall be required to agree to the principles set forth in this section.

APPENDIX C

119TH STREET/I-57 REDEVELOPMENT PROJECT AREA

ELIGIBILITY STUDY

The purpose of this study is to determine whether a portion of the City of Chicago identified as the 119th Street/I-57 Redevelopment Project Area qualifies for designation as a tax increment financing district within the definitions set forth under 65 ILCS 5/11-74.4 contained in the "Tax Increment Allocation Redevelopment

Act" (65 ILCS 5/11-74.1 et seq.), as amended. This legislation focuses on the elimination of blighted or rapidly deteriorating areas through the implementation of a redevelopment plan. The Act authorizes the use of tax increment revenues derived in a project area for the payment or reimbursement of eligible redevelopment project costs.

The area proposed for designation as the 119th Street/I-57 Redevelopment Project Area, hereinafter referred to as the "Study Area," is shown in Figure A, Study Area Boundary Map. The Study Area is approximately 315 acres in size and includes 1,232 tax parcels, all of which are considered improved, with 672 parcels containing buildings. There are 321 vacant parcels within the Study Area. It should be noted that although a significant amount of vacant land exists within the Study Area, it is scattered and under diverse ownership.

This study summarizes the analyses and findings of the consultant's work, which, unless otherwise noted, is solely the responsibility of Camiros, Ltd. and its subconsultants and does not necessarily reflect the views and opinions of potential developers or the City of Chicago. Camiros, Ltd. has prepared this report with the understanding that the City would rely 1) on the findings and conclusions of this report in proceeding with the designation of the Study Area as a redevelopment project area under the Act, and 2) on the fact that Camiros, Ltd. has obtained the necessary information to conclude that the Study Area can be designated as a redevelopment project area in compliance with the Act.

June 28, 2002

1. INTRODUCTION

The Tax Increment Allocation Redevelopment Act (the "Act") permits municipalities to induce redevelopment of eligible "blighted," "conservation" or "industrial park conservation areas" in accordance with an adopted redevelopment plan. The Act stipulates specific procedures, which must be adhered to, in designating a redevelopment project area. One of those procedures is the determination that the area meets the statutory eligibility requirements. Under 65 ILCS 5/11-74.3(p), the Act defines a "redevelopment project area" as:

"... an area designated by the municipality, which is not less in the aggregate than 1-1/2 acres, and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as a blighted area, conservation area or industrial park conservation area, or combination of both blighted and conservation areas."

In adopting the Act, the Illinois State Legislature found that:

The legislative findings were made on the basis that the presence of blight, or conditions that lead to blight, is detrimental to the safety, health, welfare and morals of the public. The Act specifies certain requirements,

which must be met, before a municipality may proceed with implementing a redevelopment project in order to ensure that the exercise of these powers is proper and in the public interest.

Before the tax increment financing ('TIF') technique can be used, the municipality must first determine that the proposed redevelopment area qualifies for designation as a "blighted area," "conservation area," or "industrial park conservation area." Based on the conditions present, this Eligibility Study (the "Study") finds that the Study Area qualifies for designation as a blighted area.

Blighted Areas

If the property under consideration is improved, a combination of five or more of the following factors must be present for designation as a blighted area:

- Obsolescence
- Dilapidation
- Deterioration
- Presence of structures below minimum code standards
- Illegal use of individual structures
- Excessive vacancies
- Lack of ventilation, light or sanitary facilities
- Inadequate utilities
- Excessive land coverage and overcrowding of structures and community facilities
- Lack of community planning
- Deleterious land use or layout
- Environmental clean-up requirements
- Stagnant or declining equalized assessed value

If the property is vacant, a combination of two or more of the following factors qualifies the area as blighted.

- Obsolete platting of vacant land
- Diversity of ownership of vacant land
- Tax or special assessment delinquencies on such land.
- Environmental clean-up requirements
- Declining or stagnant equalized assessed value
- Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land

Vacant property also qualifies as blighted if any one of the following factors is present:

- The area consists of an unused quarry or quarries
- The area consists of unused railyards, tracks or rights-of-way

- The area is subject to flooding
- The area consists of an unused disposal site containing debris from construction demolition, etc.
- The area is between 50 to 100 acres, 75 percent vacant, shows deleterious qualities and was designated as a town center before 1982, but not developed for that purpose.
- The area qualified as blighted immediately before it became vacant

The Act defines blighted areas and recent amendments to the Act also provide guidance as to when the factors present qualify an area for such designation. Where any of the factors defined in the Act are found to be present in the Study Area, they must be: 1) documented to be present to a meaningful extent so that the municipality may reasonably find that the factor is clearly present within the intent of the Act; and 2) reasonably distributed throughout the Study Area.

The test of eligibility of the Study Area is based on the conditions of the area as a whole. The Act does not require that eligibility be established for each and every property in the Study Area.

2. ELIGIBILITY STUDIES AND ANALYSIS

An analysis was undertaken to determine whether any or all of the blighting factors listed in the Act are present in the Study Area, and if so, to what extent and in which locations.

In order to accomplish this evaluation the following tasks were undertaken:

1. Exterior survey of the condition and use of each building.
2. Field survey of environmental conditions involving parking facilities, public infrastructure, site access, fences and general property maintenance.
3. Analysis of existing land uses and their relationships.
4. Comparison of surveyed buildings to zoning regulations.
5. Analysis of the current platting, building size and layout.
6. Analysis of building floor area and site coverage.
7. Review of previously prepared plans, studies, inspection reports and other data.
8. Analysis of real estate assessment data.
9. Review of available building permit records to determine the level of development activity in the area.
10. Review of building code violations

The exterior building condition survey and site conditions survey of the Study Area were undertaken in April 2002. The analysis of site conditions was organized by tax block as shown in Figure B, Tax Blocks, with the corresponding existing land use shown in Figure C, Existing Land Use.

Where a factor is described as being present to a major extent, the factor is present throughout significant portions of the Study Area. The presence of such conditions has a major adverse impact or influence on adjacent and nearby property. A factor described as being present to a minor extent indicates that the factor is present, but that the distribution of impact of the condition is more limited. A statement that the factor is not present indicates that either no information was available or that no evidence was documented as a result of the various surveys and analyses. Factors whose presence could not be determined with certainty were not considered in establishing eligibility.

Each factor identified in the Act for determining whether an area qualifies as a blighted area is discussed below and a conclusion is presented as to whether or not the factor is present in the Study Area to a degree sufficient to warrant its inclusion as a blighting factor in establishing the eligibility of the area as a blighted area under the Act. These findings describe the conditions that exist and the extent to which each factor is present.

3. PRESENCE AND DISTRIBUTION OF ELIGIBILITY FACTORS

The Act establishes different eligibility factors for improved property versus vacant land. Property within the Study Area consists primarily of developed property. Consequently, the character of property within the Study Area is predominantly improved. For this reason, the analysis of eligibility was based on factors for improved property. Improved property includes parcels that contain buildings, structures, parking or other physical improvements. Improved property may include single parcels or multiple parcels under single or common ownership. Landscaped yards, open space or other ancillary functions may also be classified as improved property for the purposes of the eligibility analysis if they are obviously accessory to an adjacent building (primary use).

In order to establish the eligibility of the improved property of a redevelopment project area under the blighted criteria established in the Act, at least five of 13 eligibility factors must be meaningfully present and reasonably distributed throughout the Study Area. This Study finds that the improved property within the Study Area meets the qualifications for designation as blighted. Eight of the conditions cited in the Act are meaningfully present within the Study Area. The six conditions present to a major extent are: deterioration, presence of structures

below minimum code standards, excessive vacancies, lack of community planning, deleterious land use or layout, and stagnant or declining equalized assessed value. The two conditions present to a minor extent are: obsolescence and dilapidation. All of these factors are well distributed throughout the Study Area, as indicated in Table B, Distribution of Blighting Factors.

run

Improved Property

Of the 61 tax blocks within the Study Area, all were characterized as improved property. While a significant number of vacant lots exist within these blocks, the vacant lots are scattered among the improved property, and the overall character of these blocks is of improved property.

Factors Present To A Major Extent Deterioration

This condition is present when there are physical deficiencies in buildings or surface improvements requiring treatment or repair. Any deficiency beyond normal maintenance qualifies as deterioration. Moderate levels of deterioration may be present in basically sound buildings having defects that can be corrected. More advanced deterioration that is not easily correctable may also be evident. Advanced deterioration is clearly a greater blighting influence. Consequently, advanced deterioration need not be widespread to qualify as being present to a major extent. Examples that indicate deterioration are buildings that are not weather-tight, loose or missing materials, defects in exterior walls, rusted support beams and columns, and deteriorated roofs requiring replacement or major repair. Such defects may involve either primary building components (foundations, walls and roofs) or major defects in secondary building components (doors, windows, porches, fascia materials, gutters and downspouts). In terms of surface improvements, including sidewalks, off-street parking and surface storage areas, deterioration may take the form of surface cracking, loose paving material, depressions, streets with pitted pavement/potholes, crumbling curbs, crumbled or heaved sidewalks and pavement, and weeds protruding through paved surfaces. Building deterioration is considered to be present to a major extent if deteriorated buildings account for at least 20% of the total number of buildings on the block.

Deterioration was found to be present within the Study Area to a major extent. Of the 672 buildings within the Study Area, 148 buildings were found to be in deteriorated condition. Evidence of deterioration included major cracks in masonry walls, deteriorated window frames, damaged doors and door frames requiring major repair or replacement, missing mortar requiring tuckpointing, and rusted gutters and downspouts. Of the 61 tax blocks of improved property within the Study Area, deterioration was present to a major extent on 27 blocks

and to a minor extent on 17 blocks. Deterioration to a major extent can also exist among a smaller number of deteriorated buildings if combined with deteriorated site conditions and/or a preponderance of buildings requiring maintenance. Extensive deterioration of surface improvements and deferred building maintenance is also present in the Study Area. The 44 blocks affected by deterioration are evenly distributed within the Study Area.

Presence of Structures Below Minimum Code Standards

This factor is present when structures do not conform to local standards of building, fire, zoning, subdivision or other applicable governmental codes, but not including housing and property maintenance codes. The principal purposes of such codes are to require that buildings be constructed in such a way that they can sustain the demands expected of a certain type of occupancy and meet safety standards for occupancy against fire and similar hazards, and/or establish minimum standards for safe and sanitary habitation. Buildings below minimum code are characterized by defects or deficiencies that threaten health and safety.

To determine the presence of structures below minimum code in the Study Area, building code violations issued over the course of the previous Five-year period were compiled, based on data from the City of Chicago. This factor was determined to be present to a major extent when the number of violations equaled 25% or more of the buildings on the block.

Presence of structures below minimum code standards was found to be present within the Study Area to a major extent. There were 164 code violations issued to property owners within the Study Area from 1997 to 2001. Of the 61 tax blocks of improved property within the Study Area, this factor was present to major extent on 26 blocks and to a minor extent on 19 blocks.

Excessive Vacancies

This condition is present when buildings are vacant, or partially vacant, and they are underutilized and have an adverse influence on the Study Area because of the frequency, extent or duration of the vacancies. Vacant lots can also indicate excessive vacancies. The presence of buildings or sites which are unoccupied or underutilized generally signifies a lack of economic viability of the property and, by extension, of the surrounding area. Excessive vacancies include abandoned properties which show no sign of occupancy or utilization. A relatively small amount of vacant property can affect the value and perceived viability of the surrounding area. Consequently, the presence of this condition would represent a significant blighting influence. This condition was considered to be present to a major extent if the number of vacant properties represented 25% or more of the total parcels on the block.

Excessive vacancies were found to be present within the Study Area to a major extent. Thirty-nine buildings and 321 parcels were identified as vacant, partially vacant or underutilized, accounting for 29% of the total number of parcels. Of the 61 tax blocks of improved property within the Study Area, this factor was present to major extent on 33 blocks and to a minor extent on 15 blocks.

Lack of Community Planning

This factor is present if the proposed redevelopment project area was developed prior to the institution of, or without the benefit and guidance of, a community plan. This means that the area was developed prior to the adoption of a comprehensive or other community plan by the municipality or that the plan was not followed at the time of the area's development. The presence of this condition must be documented by evidence of adverse or incompatible land use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet modern development standards, or other indicators demonstrating an absence of effective community planning.

In addition, this factor is present when public utilities, or plans for utility improvements, are inadequate to keep pace with the development and use identified in the municipality's comprehensive plan or zoning ordinance, or other economic development plans for the area. This factor is also present if public improvements serving the site, including streets, streetlights and other utility systems, do not meet current municipal standards. Similarly, there is a lack of community planning if private improvements, including parking lots, screening and organization of buildings within the site, do not meet accepted community development standards.

Lack of community planning was found to be present within the Study Area to a major extent. Most of the Project Area lies within the Morgan Park community. It was incorporated as the Village of Morgan Park in 1882 and later annexed into the City of Chicago in 1914. Much of the area was developed prior to annexation to the City of Chicago. No comprehensive plan, or other community plan, was identified during the research and analysis of the Study Area. Furthermore, the construction of Interstate 57 in the 1960's negatively impacted the original pattern of development. In the area from 107th Street to 111th Street, the development of Interstate 57 disrupted the local street system and severed blocks and individual lots, creating a pattern of circulation that is discontinuous and inadequate to meet current traffic patterns. It also created a pattern of land division that inhibits the rational and harmonious development of property. In addition, the development of interchanges at 111th Street and 119th Street created traffic congestion in the surrounding area. This congestion negatively impacted the original residential uses on the streets surrounding these interchanges, causing deterioration, disinvestments, and increasing land and building vacancies. Significant portions of the Study Area have not recovered from the lack of community planning and the denial of infrastructure improvements needed to address the impact of Interstate 57. Lack of community planning was found to be present to a major extent on 28 of the 61 tax blocks of improved property within the Study Area.

Deleterious Land Use and Layout

This factor is characterized by inappropriate or incompatible land use relationships, inappropriate mixed uses within buildings, or uses considered to be noxious, offensive or unsuitable for the surrounding area.

Deleterious land use or layout was found to be present within the Study Area to a major extent. Of the 61 tax blocks of improved property within the Study Area, 34 contained deleterious land use or layout. The high proportion of vacant and/or abandoned lots within these tax blocks is an indicator of deleterious land use or layout, in addition to being an indicator of another eligibility factor (excessive vacancies). Vacant property that is secured and maintained in a responsible manner might not necessarily negatively impact adjacent property or the community at large; however, the vacant lots within the Study Area clearly represents a noxious and offensive use of property when there is: 1) a general lack of maintenance; 2) the presence of litter, debris and periodic ad hoc dumping; 3) overgrown vegetation; 4) an increased threat of crime; and 5) loitering and other unauthorized uses of property. The high proportion of vacant lots within the Study Area magnifies the blighting influence of this condition. In addition to vacant property, this factor is also represented by deleterious land uses such as: 1) a poorly operated liquor store; 2) an outdoor material storage operation located in a residentially zoned area; and 3) an automobile repair facility located in residentially zoned area.

Stagnant or Declining Equalized Assessed Value

This factor is present when the Study Area can be described by one of the following three conditions: 1) the total equalized assessed value ("EAV") has declined in three of the last five years; 2) the total EAV is increasing at an annual rate that is less than the balance of the municipality for three of the last five years; or 3) the total EAV is increasing at an annual rate that is less than the Consumer Price Index for all Urban Consumers for three of the last five years.

A... • 0-7 nnni

Stagnant or declining EAV was found to be present within the Study Area to a major extent. A stagnant or declining EAV is indicative of economic and functional obsolescence. This condition relates to the lack of growth and private investment in an area resulting in economic and physical decline. Table A, Comparative Increase in Equalized Assessed Value, shows that the EAV for the Study Area has either declined or grown at a lesser rate than the City as a whole in all of the last five years.

Table A**COMPARATIVE INCREASE IN EQUALIZED ASSESSED VALUE**

	I 2001	I 2000*	I 1999	I 1998	I 1997*
Property	\$15,932,584	\$16,073,242	\$14,899,253	\$14,483,415	\$14,521,649
within the Study Area	-8.75%	7.88%	2.87%	-0.26%	4.40%
City of Chicago	<u>3.71%</u>	<u>14.50%</u>	<u>4.20%</u>	<u>1.70%</u>	<u>8.40%</u>

Factors Present to a Minor Extent Obsolescence

Obsolescence refers to the condition, or process, of a structure falling into disuse after it has become ill-suited for its original use. Obsolescence can be found in buildings limited by design to a single, or specific, purpose or use, buildings of a size that is inadequate to accommodate alternative uses, or buildings using a type of construction that limits long-term use and marketability. Site improvements such as water and sewer lines, public utility lines, roadways, parking areas, parking structures, sidewalks, curbs and gutters, and lighting may be inadequate or obsolete in relation to contemporary standards for such improvements. Functional obsolescence includes poor design or layout, improper orientation of the building on the site, inadequate loading facilities, and height or other factors that detract from the overall usefulness or desirability of the property. Inherently, functional obsolescence results in a loss of property value.

Obsolescence was found to be present within the Study Area to a minor extent. Obsolescence is considered present to a major extent when more than 25% of the buildings on a block meet the definitions described in the preceding paragraph. Of the 61 tax blocks of improved property within the Study Area, this factor was present on seven tax blocks. This condition is represented by obsolete commercial development near Monterey Avenue and Vincennes Avenue, commercial and industrial uses in residentially zoned areas, and outdated industrial development.

Dilapidation

Dilapidation exists when buildings are in an advanced state of disrepair and go without necessary repairs to the primary structural components of buildings. Either major repairs or demolition are needed to correct this condition.

Dilapidation was found to be present within the Study Area to a minor extent. Due to the blighting nature of dilapidation, this factor would be considered present to a major extent if it represents 10% or more of the buildings on a block. Of the 61 tax blocks of improved property

Alienist 97 OOCil

within the Study Area, this factor was present to a major extent on eight tax blocks and to a minor extent on seven tax blocks.

Factors Found Not To Be Present

Excessive Land Coverage and Overcrowding of Structures and Community Facilities This factor refers to the over-intensive use of property and the crowding of buildings and accessory facilities onto a site. This condition is present when buildings occupy all, or most, of the lot, leaving little or no space for off-street parking, off-street loading and open space amenities. Problem conditions include buildings that are improperly situated on the parcel, the presence of multiple buildings on a single parcel, or buildings that are located on parcels of inadequate size and shape in relation to contemporary standards of development for health or safety. Excessive land coverage is present if parcels exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of the spread of fires due to the close proximity of nearby buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service. Excessive land coverage frequently has an adverse or blighting influence on nearby development.

This factor was found not to be present within the Study Area. The presence of a high proportion of vacant land within the Study Area reduces the land coverage of the area as a whole. In addition, the high proportion of single-family land use minimizes the potential for excessive land coverage. Therefore, this factor is not present in the Study Area.

Illegal Use of Structures

This factor was found not to be present within the Study Area. There is an illegal use of a structure when structures are used in violation of federal, state or local laws. Based on the surveys conducted, no structures in the Study Area are used illegally.

Factors Whose Presence Could Not Be Determined Lack of Ventilation,

Light or Sanitary Facilities

Conditions, such as lack of indoor plumbing or lack of adequate windows or other means of providing ventilation or light, can negatively influence the health and welfare of a building's residents or users. Typical requirements for ventilation, light, and sanitary facilities include:

- Adequate mechanical ventilation for air circulation in rooms without windows, such as bathrooms, and dust, odor or smoke producing activity areas.
- Adequate natural light and ventilation by means of skylights or windows for interior rooms with proper window sizes and amounts by room area to window area ratios.
- Adequate sanitary facilities, including garbage storage, bathroom facilities, hot water and kitchens.

The presence of this factor could not be assessed to a sufficient degree through the exterior building condition survey and other available information that would warrant its inclusion as a blighting factor present within the Study Area.

Anoiict 97 7finO

Inadequate Utilities

This factor exists in the absence of one or more of the following utilities serving the site: gas, electricity, telephone, water, sanitary sewer, storm sewer or storm drainage. This factor is also present when the existing utilities are inadequate to accommodate the level of development permitted under current zoning or envisioned under the comprehensive plan, or adopted redevelopment plan, for the area.

This factor does not appear to be present within the Study Area since all property is presently served by the appropriate utilities. As it could not be determined with certainty, it is not considered to be a blighting factor present within the Study Area.

Environmental Clean-Up Requirements

This factor is considered present when property has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for the clean-up of hazardous waste, hazardous substances or underground storage tanks required by state or federal law, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for such clean-up. In order for this factor to apply, the remediation costs must constitute a material impediment to the development, or redevelopment, of the redevelopment project area.

No existing environmental surveys were found that identify sites within the Study Area as environmentally contaminated, nor were any such surveys conducted as part of this Study. Therefore, the presence of environmental contamination could not be determined.
