Proposed Zoning: B3-5 Neighborhood Mixed-Use District

Lot Area: 7,391 square feet

*Proposed Land Use: The Applicant is seeking to amend the previously approved Type I Rezoning, in order to correct a typographical error in the original Type I Application (Narrative). Toward that end, and correctly stated, the Applicant is seeking a zoning change in order to permit the rehabilitation of the existing four-story' building, and the erection of a new five-story addition - on the adjacent vacant lots, in order to locate and establish a new hotel, with retail tenancy, at the subject property. The rehabilitation plan, for the existing (vacant) four-story building, calls for the build-out and location of a hotel lobby (1,762 square feet) and a single retail space (1,476 square feet) - at grade level, and twenty-one (21) hotel rooms (units) - above (Floors 2 thru 4). The new five-story addition will contain a single retail space (2,336 square feet) and hotel vestibule (275 square feet) - at grade level, and thirty-two hotel rooms - above (Floors 2 thru 5), for a total of fifty-three hotel rooms, at the site. As part of the plan, the Applicant also intends to erect a roof deck, above the 4th Floor of the existing building and above the 5th Floor of the new addition, which will be available for use by guests of the hotel and the retail tenants. No onsite parking is required or intended for the proposed building, with new addition. The newly rehabbed building, with five-story addition, will measure 76 feet-2 inches in height and be masonry and glass in construction. *Please note that there have been NO changes to the architectural drawings (plans) submitted and approved, pursuant to the original Type I Zoning Map Reclassification.*
