Figure 1 consists of four sub-diagrams, (a), (b), (c), and (d), each showing a set of four nodes on the left and a set of four nodes on the right. The nodes on the left are labeled N, U, J, and X, and the nodes on the right are labeled U, J, Z, and O. The connections between the nodes are as follows:

- (a) N is connected to U, U is connected to J, J is connected to X, and X is connected to O. There is also a direct connection from N to O.
- (b) N is connected to U, U is connected to J, J is connected to X, and X is connected to O. There is also a direct connection from N to O.
- (c) N is connected to U, U is connected to J, J is connected to X, and X is connected to O. There is also a direct connection from N to O.
- (d) N is connected to U, U is connected to J, J is connected to X, and X is connected to O. There is also a direct connection from N to O.

Figure 1 consists of four diagrams arranged in a 2x2 grid. Each diagram shows a sequence of elements: a label (N LU or N UJ), a circle with a number (0 or 1), a circle with a letter (X or O), a label (LU or Z), and a circle with a letter (O). The diagrams illustrate the evolution of a system over time, with the top row showing the initial state and the bottom row showing the final state.
