Proposed Zoning: RM-6 Residential Multi-Unit District Lot Area: 8,640

Proposed Land Use: The subject property is presently improved with three (3) three-story and one (1) four-story multi-unit residential buildings, which are conjoined, and - together, comprise a single unified housing complex. Original construction of the subject buildings dates back to 1906. There is presently a total of twenty-nine (29) dwelling units contained within the housing complex - between the four (4) buildings. The property and improvements, therefore, are non-conforming under the current Zoning Ordinance. The Applicant is seeking a zoning change in order to permit the rehabilitation and renovation of the existing housing complex, and each unit located therein. All of the proposed rehabilitation work will be to the existing facades and/or to the interior of the existing buildings. The rehabilitation plan does NOT call for the physical alteration or expansion of the existing buildings. The zoning change is required in order to bring the existing nonconforming buildings into compliance, under the current Zoning Ordinance. There is, and will remain, zero (0) off-street vehicular parking, at the site. The existing buildings are, and will remain, masonry in construction, with the tallest of the four (4) conjoined buildings measuring 45 feet-5 inches in height.
