A number of the questions in the City of Chicago's Economic Disclosure Statement and Affidavit (the "EDS Statement") appear intended to solicit information from smaller organizations where all of the knowledge of that organization's activities resides among a handful of people rather than to a large publicly-traded corporation like Norfolk Southern Corporation ("NSC"), which owns Norfolk Southern Railway Company ("NSR,") and together with NSC and NSC's other subsidiaries, "Norfolk Southern") ("Continued on Attachment V.B.11)

If the letters "NA," the word "None," or no response appears on the lines above, it will be conclusively presumed that the Disclosing Party certified to the above statements.

ATTACHMENT V.B.I 1

Norfolk Southern has thousands of employees and business operations in 22 states and the District of Columbia. NSR along with its consolidated rail subsidiaries ("NS Rail") is engaged primarily in the transportation of freight by rail. NS Rail operates approximately 21,000 miles, primarily in the east and Midwest, including approximately 861 miles in Illinois and 36 in Chicago. NSR and NSC used their best efforts to gather as much of the requested information as reasonably possible and without undue effort and expense, but, because of their large size, all responses given in all of the EDS Statement are only to the best of the reasonable knowledge of NSC and NSR, are at the risk of not having knowledge of certain information, and the executive officer signing the EDS Statement does so based on actual knowledge or information supplied to that executive officer. Due to the scope of its operations and the number of employees and contractors, Norfolk Southern makes no representations as to parties other than NSR, NSC and their respective executive officers and directors. Additional information about Norfolk Southern Corporation can be found at the website, www.nscorp.com <<http://www.nscorp.com>>, including its Annual Report for the fiscal year ended December 31, 2017, and at NSC's filings with the U.S. Securities and Exchange Commission ("US SEC"), where are found at <<http://www.sec.tzov>>.

The following two paragraphs are responsive to Certification V.B.I I. on page 7

Norfolk Southern is subject to extensive applicable federal, state, and local environmental laws and regulations. Norfolk Southern is, from time to time, investigated by these and other regulatory agencies in the ordinary course of business. Norfolk Southern cooperates with all government agency investigations. Due to the scope of its operations and the number of employees, however, Norfolk Southern cannot provide information regarding all such investigations without undue effort or expense, if at all. The list of certain investigations found attached in Table V.B.3.e is that information that Norfolk Southern was able to identify without undue effort or expense.

In addition to the regulation described in the preceding paragraph, Norfolk Southern is also subject to commercial regulation by the United States Surface Transportation Board, and its operations are regulated extensively by the United States Department of Transportation, including the Federal Railroad Administration, and the Department of Homeland Security and the Operational Safety and Health Administration, some of which in some cases has a preemptive effect. In addition, Norfolk Southern's operations are subject to extensive federal, state, and local environmental, labor and employment and other laws and regulations. Norfolk Southern is, from time to time, alleged to be in violation of administrative, statutory or regulatory provisions in the ordinary course of business. Norfolk Southern cooperates with all government agencies in seeking to resolve such alleged violations. Due to the scope of its operations and the number of employees, Norfolk Southern cannot provide detailed information regarding all such violations without undue effort or expense, if at all.

However, in addition to that material information which may be found at the noted US SEC website, also attached in Table V.B.1.e is that information which can be secured without undue effort or expense.

ATTACHMENT V.B.I 1

Norfolk Southern has thousands of employees and business operations in 22 states and the District of Columbia. NSR along with its consolidated rail subsidiaries ("NS Rail") is engaged primarily in the transportation of freight by rail. NS Rail operates approximately 21,000 miles, primarily in the east and Midwest, including approximately 861 miles in Illinois and 36 in Chicago. NSR and NSC used their best efforts to gather as much of the requested information as reasonably possible and without undue effort and expense, but, because of their large size, all responses given in all of the EDS Statement are only to the best of the reasonable knowledge of NSC and NSR, are at the risk of not having knowledge of certain information, and the executive officer signing the EDS Statement does so based on actual knowledge or information supplied to that executive officer. Due to the scope of its operations and the number of employees and contractors, Norfolk Southern makes no representations as to parties other than NSR, NSC and their respective executive officers and directors. Additional information about Norfolk Southern Corporation can be found at the website, www.nscorp.com <<http://www.nscorp.com>>, including its Annual Report for the fiscal year ended December 31, 2017, and at NSC's filings with the U.S. Securities and Exchange Commission ("US SEC"), where are found at <<http://www.scc.aov>>.

The following two paragraphs are responsive to Certification V.B. 1 1. on page 7

Norfolk Southern is subject to extensive applicable federal, state, and local environmental laws and regulations. Norfolk Southern is, from time to time, investigated by these and other regulatory agencies in the ordinary course of business. Norfolk Southern cooperates with all government agency investigations. Due to the scope of its operations and the number of employees, however, Norfolk Southern cannot provide information regarding all such investigations without undue effort or expense, if at all. The list of certain investigations found attached in Table V.B.3.e is that information that Norfolk Southern was able to identify without undue effort or expense.

In addition to the regulation described in the preceding paragraph, Norfolk Southern is also subject to commercial regulation by the United States Surface Transportation Board, and its operations are regulated extensively by the United States Department of Transportation, including the federal Railroad Administration, and the Department of Homeland Security and the Operational Safety and Health Administration, some of which in some cases has a preemptive effect. In addition, Norfolk Southern's operations are subject to extensive federal, state, and local environmental, labor and employment and other laws and regulations. Norfolk Southern is, from time to time, alleged to be in violation of administrative, statutory or regulatory provisions in the ordinary course of business. Norfolk Southern cooperates with all government agencies in seeking to resolve such alleged violations. Due to the scope of its operations and the number of employees, Norfolk Southern cannot provide detailed information regarding all such violations without undue effort or expense, if at all.

However, in addition to that material information which may be found at the noted US SEC website, also attached in table V.B.1.e is that information which can be secured without undue effort or expense.
