Subarea(s) for review and approval by DPD. Review and approval by DPD is intended to assure that specific development components substantially conform with the Planned Development (PD) and to assist the City in monitoring ongoing development. Subarea Site Plan Approval Submittals (Section 17-13-0800) need only include that portion of the Property for which approval is being sought by the Applicant. If the Applicant is seeking approval for development of a portion of the Property that represents less than an entire Subarea, the Applicant shall also include a site plan for that area of the Property which is bounded on all sides by either public Rights-of-Way or the boundary of the nearest Subarea. The site plan provided shall include all dimensioned and planned street Rights-of-Way.

No Part II Approval for any portion of the Property shall be granted until Site Plan approval has been granted. Following approval by DPD, the approved Subarea Site Plan Approval Submittals,

supporting data and materials shall be made part of the main file and shall be deemed to be an integral part of the PD.

After approval of the Subarea Site Plan, changes or modifications may be made pursuant to the provisions of Statement TBD. In the event of any inconsistency between approved plans and the terms of the PD, the terms of the PD shall govern. Any Sub Area Site Plan Approval Submittals shall, at a minimum, provide the following information:

- fully-dimensioned site plan (including a footprint of the proposed improvements);
- fully-dimensioned building elevations;
- fully-dimensioned landscape plan(s); and,
- statistical information applicable to the subject Subarea, including floor area, the applicable floor area ratio, uses to be established, building heights and setbacks.

Sub Area Site Plan Approval Submittals shall include all other information necessary to illustrate substantial conformance to the PD.

16. The Applicant acknowledges and agrees that the rezoning of the Property from Planned Development Number 44, as amended, to the B3-2 Community Shopping District, and then to Planned Development Number 44, as amended, triggers the requirements of Section 2-45-115 of the Municipal Code of Chicago (Affordable Requirements Ordinance or ARO). Any developer of a residential housing project within the meaning of the ARO must: (i) set aside 10% of the housing units in the residential housing project (the Required Units) as affordable units, or with the Commissioner of the Department of Planning and Development's approval, provide the Required Units in an approved off-site location; (ii) pay a fee in lieu of the development of the Required Units; or, (iii) any combination of (i) and (ii); provided, however, that residential housing projects with 20 or more units must provide at least 25% of the Required Units on-site or off-site. If the developer elects to provide affordable units off-site, the off-site affordable units must be located within a two-mile radius from the residential housing

project and in the same or a different higher income area or downtown district. The Property is located in a higher income area, within the meaning of the ARO, and the Subarea B-1 project has a total of 297 units. As a result, the Applicant's affordable housing obligation is 30 affordable units (10% of 297 rounded up), 7 of which are Required Units (25% of 30, rounded down). Applicant has agreed to satisfy its affordable housing obligation by providing 30 affordable units in the rental building to be constructed in the PD, as set forth in the Affordable Housing Profile Form attached hereto as Exhibit A. Additionally, the Applicant will voluntarily provide an additional 29 affordable units in the rental building such that 20% of the total units are affordable. The Applicant agrees that

the ARO Units must be affordable to households earning no more than 60% of the Chicago Primary Metropolitan Statistical Area Median Income (AMI), as updated annually by the City of Chicago. If the Applicant subsequently reduces (or increases) the number of ARO Units in the Planned Development, the Applicant shall update and resubmit the Affordable Housing Profile Form to the Department of Housing for review and approval, and DOH may adjust the number of required ARO Units without amending the Planned Development. Prior to the issuance of any building permits for any residential building in the Planned Development, including, without limitation, excavation or foundation permits, the Applicant must execute and record an affordable housing agreement in accordance with Section 2-44-080(L). The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against Subarea B -2 of the Planned Development, and will constitute a lien against such property. The Commissioner of DOH may enforce remedies for any breach of this Statement 16, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

17. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority and Women-owned Business Enterprises ("M/WBEs") and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the city in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the city approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The city encourages goals of (i) 26% MBE and 6% WBE participation (measured against the total construction budget for the project or any phase thereof)-and (ii) 50% city resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the Applicant's proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the

Applicant's submission for Part II permit review for the project or any phase thereof, the Applicant must submit to DPD (a) updates (if any) to the Applicant's preliminary outreach plan, (b) a description of the Applicant's outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor

associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the Applicant's outreach efforts, and (d) updates (if any) to the applicant's M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the forgoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

18. The Applicant acknowledges the importance of the CTA Blue Line Station located near the Property and acknowledges the City's goal of encouraging convenient access to public transportation. Accordingly, the Applicant agrees to cooperate with adjacent land owners to permit pedestrian access from the CTA Station to the Property. Additionally, the applicant agrees to improve the current path located within the IDOT rights-of-way to increase pedestrian safety and comfort. To that end, the Applicant, in cooperation with adjacent land owners, has established a pedestrian access easement from the CTA Blue Line Station, which provides pedestrian access across the southern perimeter of the Property, as depicted on the Pedestrian Access Path Exhibit. The Applicant has constructed and installed a pedestrian path within the access easement ("Pedestrian Path"). The Applicant agrees (1) to maintain the condition of the Pedestrian Path in order to promote pedestrian safety and comfort, and (2) to use reasonable efforts to cooperate in good faith with adjacent land owners to implement measures to enhance the condition of the Pedestrian Path, to the extent practicable.

19. This Planned Development shall be governed by Section 17-13-0612. Should this

Planned Development ordinance lapse as to Subarea B, the Commissioner of DPD shall initiate a zoning map amendment to rezone the Property to the pre-existing Planned Development Number 44, as approved by the City Council on December 10, 2014, and as later amended administratively by the Subarea B Site Plan Approval issued August 9, 2017.
