15. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. The Applicant shall obtain the number of points necessary to meet the requirements of the Chicago Sustainable Development Policy, in effect at the time the Part II review process is initiated for each improvement that is subject to the aforementioned Policy and must provide documentation verifying compliance.

16. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority and Women-owned Business Enterprises ("M/WBEs") and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the city in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the city approval process. First, the applicant must submit to DPD, as part of its application for planned development approval,

an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The city encourages goals of 26% MBE and 6% WBE participation (measured against the total construction budget for the project or any phase thereof), and (ii) 50% city resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the Applicant's proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the Applicant's submission for Part IT permit review for the project or any phase thereof, the Applicant must submit to DPD (a) updates (if any) to the Applicant's preliminary outreach plan, (b) a description of the Applicant's outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the Applicant's outreach efforts, and (d) updates (if any) to the applicant's M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the foregoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

17. The Applicant acknowledges and agrees that the rezoning of the Property from C1-1 Neighborhood Commercial District to B3-2 Community Shopping District and then to this Planned Development ("PD") is an "entitlement" that triggers the requirements of Section 2-44-085 of the Municipal Code of Chicago (the "ARO"). The PD is located in a "community preservation area" within the meaning of the ARO and permits the construction of 60 dwelling units. The Applicant intends to construct a 60-unit rental building (the "Project").

Eighty percent of the rental units in the Project will be affordable. It is anticipated that the Project will be financed with Low-Income Housing Tax Credits, tax increment financing, and other forms of financial assistance ("Affordable Housing financial Assistance"). Such Affordable Housing Financial Assistance imposes affordability requirements (the "Financing Requirements") that exceed the ARO requirements. As a result, the Financial Requirements shall govern the Applicant's obligation to provide affordable housing in the PD.

In addition to the Affordable Housing Financial Assistance described above, the Applicant is receiving a cash payment from the developer of Waterway Business-Residential Planned Development No. 1438 (the "Lincoln Yards Developer") in the amount of \$4,771,084 (as adjusted in accordance with the ARO, the "Cash Payment"), pursuant to Ordinance Number 02018-6029, adopted by the City Council on March 13, 2019. The Cash Payment is equivalent to the "in lieu" fee that would otherwise be due and payable to the City for the construction of a 341-unit rental building at 1687 N. Throop Street in PD 1438. The Lincoln Yards Developer has agreed to deposit the Cash Payment into an escrow account for the construction of the Project. The City shall release the escrowed funds to Applicant or, at the City's option, to the construction escrow account for the Project, at the closing of the construction financing for the Project.

If, for any reason, the Applicant does not receive the anticipated Affordable Housing Financial Assistance and the Project is not subject to Financing Requirements that exceed the ARO requirements, then the Applicant shall comply with the ARO, and the Cash Payment shall be released to the City for deposit in the City's Affordable Housing Opportunity Fund

immediately upon written notice from the City.

18. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance. Should this Planned Development ordinance lapse, the Zoning Administrator shall initiate a Zoning Map Amendment to rezone the property to B3-2, Community Shopping District.
